Holloran Has \$20,000 to Bet on Strong and Goff.

NEW YORK, Nov. 1 .- At the Democratic headquarters the canvass books have just peen put in. It is said that the total show a list of 65,000 for the Democrats in New York and 11,000 in Kings. Governor Flower, a most astute political observer, gives Senator Hill a clear majority of 35,000 north of the Harlem. For some time, under the cover of a modest and quiet campaign, it has been known that the Democratic prospects were daily grow-ing brighter. Now for the first time

figures are given out.

John Holloran was present at the state Democracy headquarters yesterday afternoon with \$20,000 to bet on the election of Strong and Goff. NORFOLK DOWNS and "The Rail" are much in need of school houses, and they will be upon the ticket: are in a fair way of having their wishes gratified at an early date. Shall Quincy then vote to help Boston out by voting to be provided as a property of the property o Agents, 152 Franklin Street, N.Y. be annexed? Oh, no; not if the voters are wise. Just read what the F. G. Pettigrove, the chairman of the Boston school board, says. Boston has 3500 children

The needs of the schools have been presented to the city council again and again. There is not a single case where there is a lack of accommodation, that has not been re-peatedly laid before the council. They say that under the present tax rate and under the present debt limit that it is impossible to furnish any more money. If that is true—and I have not the slightest Emil Auerbach of Adams doubt that it is—then we must consider Mr. Wetmore's proposition to ask the legislature to give the city authority to borrow \$1,000,000 outside the debt limit.

The Pic Department of Quincy is ex tremely fortunate in retaining the services Rugs, Clocks, Albums, &c. of Assistant Engineer Frank C. Packard. A successful business man, he remains in the department more for the benefit of the city than the pecuniary advantage which he may derive from it. In fact the \$100 salary Bushrod Morse of Sharon per annum which he receives usually goes for some charitable purpose to aid a needy fireman or his family who may be in distress. His connection with the department during the past 20 years has been a creditable one and he could long since have received higher honors had he so elected.

Capt. Packard furnishes his own team. and has a horse worth \$300, with other equipments equally of a high standard. He has on more than one occasion been called to assume the entire charge at a fire and has always received high praise for his excellent management. Of a most genial nature, he is very popular with all classes, both in the fire circle and the private walks of life .- Firemen's Standard.

The boy, however, does not know how to appreciate his home and instead of behaving as he should he is continually playing truant and running away. During the past few weeks he has run away several times and has been absent several days before he was apprehended and returned home. Finding that kind words were of no avail his father had him arrested for being an unruly boy and this morning in the District court upon the advice of the state agent he was sent to the Reform school during minority.

A Queer Arrangement of Candidates for County Commissioners.

McEtrick and McNary who are fighting for Congressional honors in this district, met in Gray's hall, South Boston, Wednesday night in joint debate.

The hall was packed full and the admirers of both gentlemen were out in force. Mr. McNary opened and closed the debate, and tore McEttrick's record to shreds, and attacked him on his relation awarded N. C. at the dog show now being to the Australian ballot system. He also claimed McEttrick had received money from Atwood and others two years ago.

Mr. McEttrick in reply denied all the charges and told how McNary had voted on some of the questions relating to labor. He also accused him of not attending to his business in the Water Department of was not very largely attended. POLISHED CHIPS.

Wendell Phillips in his time made merry with the statues and monuments in Boston, yesterday issued the following: throwing at almost every one of them some throwing at almost every one of them some sharp epithet which has stuck like a chestnut burr. But no general critical article upon these "Monuments and Statues in Boston" has ever appeared, we think, until that by William Howe Downes in the November number of the New England Magazine. It is a remarkably careful and comprehensive article, accompanied by pictures of almost every good and perfect gift.

A PROCLAMATION.

The American people should gratefully remeasured people should gratefully remeasured the Supreme Ruler of the universe, who has watched over them with kindness and fostering care during the year that has passed:

They should also with humility and faith supplicate the Father of All Mercies for continued blessings according to their needs, and they should by deeds of charity see the favor of the giver of every good and perfect gift.

Therefore I, Grover Cleveland, President of the United States, do hereby appoint and set companied by pictures of almost everything mentioned, from Bunker Hill monument to French's memorial of Milmore; and it will rouse much discussion, especially in Boston circles. Mr. Downer witer

NOTICE TO INVENTORS.

THERE Was never a time in the history There was never a time in the instant state of our country when the demand for inventions and improvements in he arts and sciences generally was so great as now. The conveniences of man-kind in the factory and work-shop, the household, on the farm, and in official life, require continual accessions to the appartances and implements of each in he appurtances and implements of each in order to save labor, time and expense. The political change in the administration of government does not affect the progress of the American inventor, who, being on the alert, and ready to perceive the existing deficiences, does not permit the affairs of government to deter him from quickly conceiving the remedy to overcome existing discrepancies. Too great care cannot be exercised in choosing a competent and skilful attorney to prepare and prosecute an application for patent. Confession of a Conscience-Stricken Criminal.

MILWAUKEE, Nov. 1 .- A special to The Wisconsin from Merrill says that wholesale murder and robbery were the motives of the recent train wrecking on the "Soo" road. Two men charged with the murder of the man who lost his life were given a hearing yesterday and were held for trial. One of the prisoners confessed, and it is now known what prompted the wreckers to derail the Boston limited near Heafford

knowledge of the wrecking. Hazelton says he spent a week sawing the piles and stringers of the bridge. They sought to kill everyone aboard the train and then rob the safe in the express car.

Hazelton's Story. It was last Friday that Hazelton signifled his desire to confess. His statement was taken before Ed Klutze, notary pub-lic, in the presence of Sheriff Payser, District Attorney Anderson and F. X.

"About dark we set to work with the purpose of wrecking a passenger train, so we could rob the express car. We ex-pected the wreck would be much worse than it was. We expected that the cars would be all thrown from the track, smashed up and the passengers and train crew all killed, so that we would have no one to prevent us from accomplishing our purpose. We thought mostly of the money we would get and not the loss of life.

'We began work west of the center of the bridge. We cut all the stringers across the bridge and two sets of them at the ends, and then sawed the piles or posts upon which they rested. We also cut a

until the westbound passenger train came and broke through the bridge. We were on the south side of the track at the east end of the bridge when the trash came. Then we walked westward to the point where the wreck was. We heard some one crying: "Are you hurt?" The other man answered: "A little." Then we heard some one crying out again.

"We did not wait to hear more. A man was coming toward us, and that scared us. We walked away and went pretty ear to the next town on the Chicago, Milwaukee and St. Paul track and went into a hay barn. We remained there three days and then started for Merrill."

Drew a Big Crowd. Boston, Nov. 1 .- The flerce fight which as been waged in the Tenth congressional district between M. J. McEttrick and W S. McNary, the independent and regular a large part of the work of the General Democratic nominees, culminated last night in a joint debate between the two men at Gray's hall. Fully 6000 people gathered outside the hall, and as its capacity is only 800 a great crush ensued. Several people were injured and store win dows near the hall were broken in by the great pressure. FOR INVENTIONS.

Equal with the interest of ti ose having claims against the government is that of INVENTORS, who often lose the benefit of valuable inventions because of the incompetency or inattention of the attorneys employed to obtain their patents. Too much care cannot be exercised in employing competent and reliable solicitors to procure patents, for the value of a patent depends greatly, if not entirely, upon the care and skill of the attorney. With the view of protecting inventors from worthless or careless attorneys,

and of seeing that inventions are well protected by valid patents, we have retained counsel expert in patent practice, and therefore are prepared to Obtain Patents in the United States and all Foreign Countries, Conduct Interferences, Make Special Examinations, Prosecute Rejected Cases, Register Trade-Marks and Copyrights, Render Opinions as to

Scope and Validity of Patents, Prosecute and Defend Infringement Suits, Etc., Etc. If you have an invention on hand send a sketch or photograph thereof, together with a brief description of the important features, and you will be at once advised as to the best course to pursue. Models are seldom necessary. If others are infringing on your rights, or if you are charged with infringement by others, submit the matter to us for a reliable OPINION before acting on the

The Constitutional Amendmendments Should Not Be Voted For.

OSCAR STRAUS SEEKS REVENGE.

Will Fight Tammany For Deposing His Brother.

NEW YORK, Nov. 2 .- A committee, representing the Civic union, waited on Colonel Strong yesterday afternoon and notified him of the endorsement by that body of his nomination for mayor, assuring him at the same time of the intention of the Civic union to co-operate with him

T. V. Powderly, the former head of the Knights of Labor, was in this city, and on being asked his opinion as to the political situation in New York said that although while in Pennsylvania he was somewhat involved in politics he did not care to meddle with them here.

John Boyd Thatcher, chairman of the state Democratic committee, is out in a statement why the constitutional amendments should not be voted for. He says the proposed constitution provides for a legislature consisting of a senate of 50 members and an assembly of 150 members, and goes into effect Jan. 1, 1895.

A legislature consisting of a senate with 22 members and an assembly of 128 members (as at present constituted) does not fulfill the plain requirement of the constitution. If the courts seat such a legislature they will do so outside of the consti-tution, and confusion, litigation and doubt will follow every act of such a legis-

Tammany's Latest Woe.

The report that Oscar Straus, brother of Nathan Straus, had declared himself in favor of Everett P. Wheeler for governor and had sent a check to the Wheeler cam paign committee has caused a great deal of uneasiness among the Tammany leaders. They are said to regard the action of Straus as an act of revenge for Tammany's treatment of his brother, and they are now

with the understanding among the Tammany leaders that he should be sacrificed to secure the election of Hill. When he declined to sacrifice himself they say he was forced to retire. It was known at the time of the declination that Nathan Straus acted by advice of his brothers, Oscar and Isidor, who know a great deal more about politics than he does.

The Tammany leaders thought that the Straus incident had dropped out of sight entirely when Nathan went to Europe. The appearance of Oscar Straus as a supporter of Wheeler, and presumably of the citizens' local ticket, is therefore a disagreeable surprise to them. It is said that Isidor Straus is also in favor of Wheeler and the committee of 70's ticket, but he has not declared himself yet.

Germany and the United States Dealing

With a Perplexing Question. WASHINGTON, Nov. 2.-There is little government will relax its new order procattle and fresh beef, and it is probable question of insurance between German sugar and American beef.

Our ambassador at Berlin, Mr. Runyon, has presented Secretary Gresham's vigorous protest to the German foreign minister and accompanied it with the promise that the president would recom-mend to congress the amendment of the sugar schedules of the tariff act in the line of removing the differential duty which is the cause of the German com-

Apparently his representations have made but little impression, for he cabled the state department yesterday that the German minister had disclaimed any idea of retaliation, and had assured him that the prohibition of our cattle was based solely on sanitary reasons that could not be neglected; that there was veterinary evidence to show that recent importations of cattle contained two well-defined cases of Texas fever, and therefore the prohibition could not be removed.

Of course our state department cannot go behind the German disclaims of retaliation, however it may regard the prohibition, and must content itself with trying to disprove the diagnosis of the German waiting policy.

An Important Decision.

INDIANAPOLIS, Nov. 2.-Judge Winter has decided that the matured certificates of members of the Iron Hall which had not been paid when the receivership was ereated were matters of contract, and should be allowed in full, less the amounts received in sick benefits. The decision, however, did not make them preferred claims over the claims of members holding unmatured certificates, and the holders can only receive the usual dividends upon the face value.

WASHINGTON, Nov. 2.—A deficit of \$15,-000,000 for the fiscal year to date, as compared with a deficit of \$25,000,000 for the corresponding period of the last fiscal year, is shown by the treasury statement of receipts and expenditures issued yes terday for October and the previous months of the fiscal year. Thrilling Stories of Survivors of the Disaster.

AUCKLAND, Nov. 2.-Further particulars of the wreck of the steamer. Wairarapa on Great Barrier island, Sunday night, have been received here. The vessel stuck on the rocks at midnight. The sea was very rough and the night very dark. All of the passengers were in bed.

As soon as the ship struck, the lifeboats were served out to the passengers. An attempt was made to launch the lifeboats, but the sea was so rough that several of the boats were capsized and many persons were drowned. Some succeeded in get ting ashore by means of lines which were sent to the main land attached to rafts. At daylight two men swam ashore with

lines and the survivors were landed. The survivors were very scantily clothed and remained upon the rocks 30 hours subsisting upon oranges that had been veterinarians and then settle down to a washed from the wreck, which was fast going to pieces. The unfortunates were finally discovered by Maori boats, and with the aid of assistance obtained from Port Fitzroy they were rescued and made

Second Officer Clark says that a thick fog set in at noon Sunday obscuring everything. The course of the steamer had laid so that she would clear Hen and Chicken island, when at midnight she struck on Great Barrier island. The shock awakened the passengers, and they rushed from their cabins in only their nightclothes, making their way as quickly as possible to the

The sea was then making a clean breach over the after part of the steamer, and as the affrighted passenger came on deck, many of them were carried overboard be-fore they had a chance to catch hold of anything to save themselves.

When daylight came it was found that the steamer had struck at the foot of a precipitous cliff that loomed 700 feet above the vessel. To effect a landing on the shelving places of the cliff was a most Difficult and Dangerous Undertaking.

Those on board the steamer could see floating in the sea around the wreck a large number of corpses. Some persons by means of floating wreckage managed to reach the edge of the rocks. The main and fore rigging were then filled with passen gers who had gone aloft to escape being VICTORIA, Nov. 2.-The flagship Royal swept into the sea by the huge waves that were coming over the vessel. Those on the steamer had about given up hope of escaping from a watery grave, when one of the stewards said that he would try to get the line ashore. Divesting himself of nearly all his clothing, he boldly sprang into the foaming sea and made straight for the rope that was float-

ing overboard.

True Heroism. Grasping it with one hand he struck out strongly landward, sailors on the steamer carefully paying the line out as he proceeded. Time and again it appeared as though he had gone down, but then his head would appear on the crest of a wave, which would sweep him nearer and nearer

His strength and skill as a swimmer stood him and those on the steamer in good stead, for he reached the shore, if shore it could be called, with the line still in his grasp. Aided by those on the rocks, the line was made fast, and it was by this means that most of the survivors were saved. Many of the passengers reached the rocks only after terrible struggles. A passenger describing the scene on deck after the vessel struck says that a number of persons were singing and praying. Several of them were kneeling and had hold of nothing, and therefore when the first big wave swept over the steamer

they were carried into the sea. Brice Claim Unfounded.

Dr. C. A. Dorman Talks to Young Men

Seats were at a premium in the Y. M. C. A. gymnasium Thursday evening. The announcement that C. A. Dorman, M. D., of New Haven, Conn., the most noted lecturer on personal purity in the country, would give his talk on "Secret Sins of Young Men," was enough to fill every chair and leave a number standing.

The doctor is a physician of 30 years practice, and he deals with the subject of mpurity from a medical standpoint, illustrating his subject by large oil paintings taken from life. By these he shows the probable consequences which will result to those who depart from the path of virtue. His words were plain, but very carefully chosen, nothing being said but that which was absolutely necessary, to show his hearers the terrible dangers of all forms of impurity.

Newsdealers Surprised at the Demand for Daily Ledgers.

Granite dealers were all anxious to read the DAILY LEDGER last night, and the supply of some of the newsdealers was early exhausted although a rush had been anticipated. They had received a mysterious postal from M. O. Nument who also sent his regards to wife and children. It is safe to predict that the family will see the DAILY LEDGER oftener than in past. Granite news is a daily feature invaluable to contractors and interesting to all workers of granite.

The fund for the erection of a monument in honor of Edward M. Bigelow, Director of the Department of Public Works, at Pittsburg, Penn., has closed. The sum of \$12,401.50 has been subscribed. This is \$2,401.50 more than had been expected.

What shape the monument will take has not been decided. Many suggestions have been offered by contributors to the fund. A bronze monument, in Schenley Park, fountains, arches, grand entrances, memorial buildings and other ideas have been suggested.

Director Bigelow will be the second public man in the history of America for whom a monument was built by public subscription while he was yet in the prime and vigor of life. His broad-minded policy in the matter of municipal improvements, particularly in securing and developing, in the face of strong opposition, the beautiful parks the city boasts of today, has made him the most popular official in Pittsburg among all classes. All the people will rejoice to know that a monument to his energy and efforts for their pleasure and comfort has been assured the "Father of the Parks."-Pittsburg Dispatch.

The Catholic Register, in advocating the starting of a fund for the purpose of erecting a statue to D'Arcy McGee in Queen's Park, says: There are enough Catholics in Toronto alone, at an average subscription of \$1 per family, to erect a suitable statue. We hope the project will be begun at once, and it will not be long ere they who look upon the counterfeit presentments of Brown and MacDonald, will read of a statesman as great, an orator greater than either .- Toronto (Can ) World.

Henry Wilson, the postmaster at Welshon. Florida, says he cured a case of diarrhœa of long standing in six hours, with one small Pictures enlarged. bottle of Chamberlain's Colic, Cholera and Diarrhœa Remedy. What a pleasant surprise that must have been to the sufferer. Such cures are not unusual with this remedy. In many instances only one or two doses are required to give permanent relief, It can always be depended upon. When reduced with water it is pleasant to take.

MILTON.

Frank Parsons will lecture Saturday evening at Rugby hall on political economy. The Republicans of Milton will hold a grand rally at the Town Hall tonight. Messrs. Wolcott and Lodge will speak and Carter's band will furnish music.

There is an unusual number of houses in process of erection at the present time in Milton; in fact, more than ever before in the history of the town. J. A. Bowman has recently sold building lots on the Pleasant View tract to Ada W. Rich, Nellie E. Mayhew, James Woodlock, Clarence B. Stuart and Winifred C. Holbrook .- Trans-

At the conclusion of the entertainment dancing was in order, nearly everybody Refreshments were served during the

evening by Caterer Thomas.

A very excellent lecture was delivered last evening in the Universalist church by

hearty appreciation of the audience. Among the first were the scenes of Shakespeare in his youth; showing the old house at the time of his birth; the room in which he was born; the furniture; the schoolhouse; the long row of benches and seats, where the noble boy first learned his lessons; a fine picture of him at twelve years, etc. Then there were given many beautiful dramatic views in Shakespeare's plays which were described with wonderful

ability. As good clothing and cleanliness furniture improve the interior appearance of the home, and as cost is the prime factor, it is well to bear in mind that C. W. Guy and W. G. Shaw of the Quincy coliseum stand at the head of the list in Supt. Lull furnishes the following report of the Quincy schools for the month ending their line of house furnishings.

No Privates?

The "general" tells, with swelling pride, How the fires of battle gleamed— Of the slaughter of men "on the other side," As the shell and shrapnel screamed; How "we charged the foe like the mighty

wave
Of a wild and stormy sea."
But in that rush of the true and brave The private--where was he?

The "colonel" boasts how his horse fell On Georgia's blood stained hills; How he stemmed the wave of that battle hell, Avenging his country's ills; How the ghastly heaps of the gallant slain Bestrewed the slippery ground. But we study the tragic tale in vain—

There were no privates round. Oh, the "major's" sword, it was red with gore! And great was the foes' alarm

As they charged and halted and fled before The swing of his mighty arm. But freedom burnish'd her epaulets As she swatted the hosts of sin, And the lonely pensioner still forgets
That the privates were not in.

How brave they flew, at their country's call To the outposts, far in front!
"Generals," "colonels" and "majors" all, To strive in the battle's brunt!

And the "captains" stand, ten the To tell how the thing was done

But where was the "private" in that throng Alas, there was not one! -Cleveland Plain Dealer.

Alexander married on Nov. 9, 1866, Maria Dagmar, daughter of King Christian IX of Denmark, being the first of his house for many years who had married outside of Germany. Alexander III had, before the late war of Russia with Turkey, attained the rank of full general of infantry and the command of the corps of the Guards, a picked body of troops numbering about 53,000 men of all arms. He was in active service throughout the whole of the campaign on the Danube, and he had his full measure of hard fighting in a series of battles and combats, principal among which were Karahassankivi, Ablava, Metchika and Tristenik.

His heart would probably have gone out in sympathy to an heir who inherited the bodily qualities of his race, or would have forgiven his weakness of frame had be contained an imperious mind; but the present czar had neither, and it is said to be only through the influence of the czarina that the eldest son was not set aside from the succession in favor of his younger brother,

However much the czar may have loved his eldest son, he had no great respect and admiration for him as a Russian emperor. He is a student, and Alexander III thought that students were of small account in the world as compared to men who can bend iron pokers in the fingers.

Nicholas Alexandrovitch studied all hi life, because studying was his only pleas ure. Fear of nihilists kept him for years almost a prisoner in the imperial palace and country places, where he grew up an innocent-faced boy with no knowledge of life except what he gained through books and papers that had been carefully inspected before he saw them. The darke side of Russian history was to him a sealed

Some five years ago the young prince started out upon his travels. He went to Denmark, to England and to Germany, and the amount of modern information that he managed to imbibe and carry back to Russia set the teeth of his father on edge. The young man had brought back with him well-defined and radical opinions and theories upon the questions and literature of the day Grand Duke George.

The Grand Duke George, the second son of the czar, who was set aside as heir to the throne, has long been an invalid, and on several occasions his life was despaired of. He is suffering with lung trouble, and

his case is believed to be incurable. He is

23 years of age Grand Duke Michael, who, by the dead tzar's decree, becomes beir apparent on the accession of the czarewitch to the throne, is the third and youngest son of Alexander III. He was born at St. Peters burg just 16 years ago. The czar had a great affection for him, and about 12 months ago it was reported that the sucession to the throne was about to be altered, so as to make the Grand Duke

Michael the immediate heir. Young as he is, the graud duke has given evidence that he possesses a strong character, and that he will develop into a man of determination. He is an officer in the One Hundred and Twenty-ninth regiment of Bessarabian infantry, and has shown a greater liking for soldiering than either of his brothers.

CLEVELAND DEEPLY CONCERNED

But His Statement Contains No Mention of Hill.

NEW YORK, Nov. 3 .- The Hill leaders are now claiming, after receiving figures from all the election districts in the state, that Morton will not secure more than 40,000 majority above the Harlem river and that Hill will poll at least 55,000 majority south of that point, which would

assure his election by 15,000.

The Republican managers are not giving out exact figures, but predict Morton's success by a big majority. On both sides the leaders privately express less confidence as to the result of the municipal election than in regard to the state at large.
At the state Democracy headquarters it

is announced that 34 members of the Tammany Hall organization in the Twenty-ninth assembly district have resigned from that body and joined the state De-

Betting on state and city results continue to favor Morton and Strong. On the Stock Exchange \$5000 to \$3000 was wagered yesterday that Strong would be elected mayor, and as much more was offered, without finding takers. One bet of \$1000 to \$400 was made on Morton for governor, which is an increase of odds as they have heretofore been conceded by the backers of the Republican nominee.

But What About Hill? Senator Faulkner, chairman of the Democratic congressional campaign committee, yesterday made the following state-ment at Washington with reference to his recent call on the president, at which the political situation was talked over:
"As chairman of the congressional com-

mittee I called upon the president and had a very pleasant interview with him. Our conversation was confined to the outlook in pending congressional elections, and I found the president manifesting the deepest concern in the information I communicated to him and in the hope for our success in maintaining a Democratic majority in the Fifty-fourth congress.

"He impressed in that interview as having earnest and sincere interest in the results of this election. He clearly indicated fore the voters the results of Democratic action in the endeavor of congress to redeem Democratic pledges.

"Of course we all recognize the fact that he had hoped for the passage of a revenue measure more in accordance with his views of the pledges of the party in its declaration at Chicago. But as he has already stated, what has been done 'will certainly lighten many tariff burdens that now rest heavily upon the people."

"You can rest assured that I express my honest judgment when I say that from my conversation with the president no man takes deeper interest in the success of the Democratic party in this campaign and in the anxiety of the committee to return a Democratic majority to the Fiftyfourth congress than President Cleve-

In a time like this, when the party is in great danger of defeat, all personal differences should be laid aside. It is not Hill that the Democrats are fighting for, it is the "Cleveland knows this, and when his

If he can't have things his own way he will not play. A man should be above any such action when his party is in peril. By his failure to support Senator Hill Cleveland has lost the respect of the Democrats of the country."

### A GRAND BEQUEST.

Legacy of \$10,000 to the Sailors' Snug

Miss Snow of Brunswick, Maine, who died a few years ago, left a bequest of over \$100,000 to different charities. These were to be paid on the death of her sister, Miss Salome Snow of the same town, who has recently passed away. The Sailors' Snug Harbor at Germantown in this city is one of the beneficiaries and will shortly receive the generous sum of \$10,000.

The talking was evidently going on in a bedroom which opened into a corridor that lay on Mr. Brown's right hand, and so, with the utmost caution, the burglar crept softly down the passage until he reached a door that was partly ajar. A little investigation served to show Mr. Brown that the chamdressing room, and that, furthermore, the dressing room opened into the bedroom in which the conversation was taking place. Very stealthily the housebreaker entered and crawled to the bedroom door. Arrived there, he experi-

the prostrate man in half stifled tones. Joey, looking through the door, saw the younger man put his hand inside his pocket-the same object that he had examined so intently in the hall. Joey was not an individual possessed of much virtue, but he was an Englishmen was always inclined to side with the weaker party when any struggle was going on. He knew that any interference on his part would lead to his detection and subsequent arrest, but he did not allow that thought to deter him from the course of action which he resolved to take. He saw the uplifted weapon. He heard Lord Heathington's cry of "Murder!" and he could see the diabolical look on the face of the other man. Joey took in the situation in a moment. The events of a few seconds take some minutes to describe, and it

last. It was a large room, and between the door and the struggling couple was a huge four poster. Joey, on seeing the uplifted weapon, snatched a pillow from the bed and threw it with all his force at the would be murderer's head. Then he sprang

across the bed and grappled with him ere he had time to take his brother's life. With an exclamation of baffled revenge Lord Heathington's brother turned on the burglar and buried his dagger-for the weapon was a poinard of Italian make, which usually hung on the wall of Lord Heathington's studyin Joev's side. Simultaneously the burglar dealt him a tremendous blow on his head with a jimmy, and when the frightened domestics, aroused by their master's frantic tugs at the bellrope, arrived on the scene they found house breaker and peer's brother lying side by

side, the first dying, the second only unconscious. An hour later Joey recovers consciousness, thanks to the efforts of the doctors who were hastily called in. ingly. Why buy the imitation of the Carlsbad products, when your health is at stake?

The Carlsbad Sprudel Waters are a specific for all diseases of the stomach, liver and kidneys, and have been used with great benefit by hundreds of thousands of people. The Carlsbad Sprudel Salt, which is evaporated from the Sprudel Water at Carlsbad, is an excellent Aperient, Laxative and Diaretic; is an alterative and eliminative remedy, which dissolves tenacious bile, allays irritation, and removes obstruction by aiding nature, and not by sudden and excessive irritation, as most cathartics do. Nicholas Will Strive for Russia's Peaceful Development.

NIHILISTS CONSIDER NEW PLANS.

People Throughout Russia Are Deeply Grieved.

St. Petersburg, Nov. 3 .- The following is the text of the manifesto issued by Czar Nicholas II and published in The Official Messenger:

We hereby announce to all our faithful sub-acts that God, in his inscrutable providence, has seen fit to assign a limit to the precious life of our dearly loved imperial father. His grievous sufferings yielding neither to meli-cal skill nor the magnificent climate of the Crimea, he died at Livadia on the 20th of Oc-tober, surrounded by his family and in the arms of the czarina and ourselves. arms of the czarina and ourselves.

Russians Mourn. The correspondent of The Daily News at St. Peterburg telegraphs that though the Russians have not the same way of showing mourning as the Western nations, it is evident that the death of the czar has

made a greater and deeper impression than might have been expected. The streets are crowded with a multi ide of people, most of whom are clad in black, who in whispering tones discuss he event. The theaters and schools are closed. The churches are crowded with eople who wish to pray for the soul of the

ead czar. From other towns reports are received bearing testimony to the spirit of deep mourning that prevails. It is understood that the body of the czar will be consecrated at Moscow and then conveyed to St. Petersburg, where it

will lie in state four days. The Russian court will mourn for six nonths. Princess Alix, the betrothed of turn to Darmstadt with her brother, the Grand Duke of Hesse.

Faith, Love and Devotion. The correspondent of The Daily News at Livadia says: I have received from the imperial court the following official report of the czar's last hours: Czar Alexander's death was a pious and

devout Christian one. He died as only a true man can die, and, as in life, was inspired by faith, love and devotion. Some days ago the czar already felt the approach of death and prepared to die as a faithful Christian, but without neglecting the affairs of government.

He took communion on the 9th and 17th of October (old style). During his last night he was sleepless. Yesterday morning he said to the Empress: "I feel that my life is drawing to an end. Be com posed. My mind is made up." Then he ordered his family to assemble

NEW YORK, Nov. 3 .- The officers of the New York and Cuban Mail Steamship company believe they have at length run to earth at least one of those responsible for the succession of disasters which have occurred to the company's steamers during the past two years. A warrant was sworn out yesterday for the arrest of Victor de la Cova, who is charged with having packed a number of cartridges in tallow, which were to have been reshipped to Cuba on the steamer Yumurri, which was to sail for Havana. De la Cova was held in \$2500 for examination on Tuesday The Ward steamship line have had noth ing but disasters during the past year. The first recent big calamity was the burn ing of the City of Alexandria, Nov. 21 1893. The fire was caused and preceded by a heavy explosion, and was first re ported at Havana by the second office: and 11 seamen from the steamer, who eached the Cuban port in a small boat. Next came the report that the steamer seneca had put into Havana the day after ne left that port. A fierce fire was rag ng in her hold, and it was generally be ieved that the fire was of incendiary

rigin. This was Dec. 14, 1893. The next trouble was on Dec. 19, when a bag of coffee containing an infernal machine full of dynamite was found at the store of John Donohue & Sons. This bag had been received from Havana by one of the Ward line steamers. The infernal machine is now in possession of central office detectives.

The fire on the Yucatan was anothe disaster. This steamer, belonging to the Ward line, came into this port on May 2, 1894, with a fire in her after hole.

MANLEY'S VIEW OF IT

Democrats Drifting From Their Party to the Republicans.

EYES TURNED TOWARD NEW YORK.

Tammany to Be Bitterly Fought All Over the State.

NEW YORK, Nov. 5 .- Joseph H. Manley, chairman of the Republican national view at the Fifth avenue hotel yesterday In it he says that wherever an election has occurred during the last five months, whether in Oregon, Vermont, Alabama Maine, Georgia or Connecticut, the result has been the same. That is, the drift and trend have all been from the Democratic to the Republican party, and the cause he says, is to be found in the dissatisfac tion of the people with the present Demo cratic adminstration

JOSEPH H. MANLEY.

After setting forth several acts of th Democratic party, which, in his opinion have tended to produce this dissatisfact tion, Mr. Manley continues: "It is no prophesy to assert that the Republican party will carry the majority of the congressional delegations in 26 states out o the 44, and thus have a clear majority in the next house of representatives, which will end all effort in the presidential elec tion of '96 of an attempt to throw the election of president and vice president into the house. It is reasonably assured that the Republicans will organize the next house of representatives, having a majority varying from 10 to 25. All indi-cations point to the defeat of Mr. Springer of Illinois, Holman in Indiana and Wil son in West Virginia.

New York the Pivotal State. "The Democrats will lose after March 4 next their ascendency in the United States senate. Unfortunately, for two years, the Populists will hold the balance of power in the senate. Great as is the interest in the election in every section of the country New York is the pivotal state, the section to which all eyes are turned, and after al the most important in its results of any election that will occur on Tuesday 'What is to be the result in New York?' i

the inquiry from every quarter.
"From a careful survey of the situation, taking into consideration all the different elements and forces at work, it does not seem in the possibilities to defeat Mr. Morton. It must be remembered that in the past 20 years the Democratic party has never carried an election in New York by a majority greater than 50,000, nor has any party for that matter, with the single year, both phenomenal elections; in the one case resulting from a refusal of 200,000 Republicans to endorse its party's action ocrats condemning the conduct of its own party. The dissatisfaction of the Wheeler Democrats alone will be sufficient to cause

Mr. Hill's defeat." Tammany Must Be Routed. Mr. Manley claims th., the business de

pression will have its effect and turn votes into the Republican column. He also asserts that the fight against Tammany in this city and state will have its effect. "The revolution against Tammany," he says, "will not stop with simply voting

It is expected that the committee of ten will report a constitution and bylaws and that officers will be elected, and arrangements made for a grand reunion.

All classes should be represented that the association may be a popular one. Rally for the Quincy High. the municipal reform ticket. The people who are determined to overthrow Tam-many know very well that their efforts will have been in vain if they simply over throw the Tammany organization in the city, and permit the Tammany organization to succeed in the state. To make their work thorough and successful they mus not only defeat Grant in New York, but they must defeat Hill in the state."

The Last Sunday of the political campaign was an exceed-ingly dull day at the headquarters of the various organizations. Importance seemed to be attached to the assertion that Colonel Strong had written a letter to a police captain asking him to have his men examine the registers of the lodging houses in his precinct so that intending voters

claiming residence there whose names are

not on the registers on election day may The committee of 70 last night issued ar endorsement of the Strong-Goff ticket, signed by a large number of prominent business men. They also gave out letters to show the support of the 70's ticket by German-Americans and by the Retail Grocers' union. Another document made public was the arraignment of Tammany management of the department of charities and corrections, the investigations into the methods in the insane asylums under its care being especially referred to. A number of clergymen in this city yesterday preached sermons denouncing punicipal corruption, and urging their

moral grounds.

At the Republican state headquarters last night a dispatch from Albany was received announcing that the attorney general had decided that under the election law no voter may occupy the voting booth more than 10 minutes, instead of 40 as claimed by some; so that any person willfully obstructing or delaying other voters by occupying a booth longer than the law permits is guilty of a criminal offense.

Figures Gathered by the World.
The World today says that during the past week it has been in communication with the chairmen of the Democratic and Republican county chairmen throughout the state. It prints a table giving a resume of the claims made by both parties us to expected pluralities for Hill or Morton, which indicates that according to the views taken by the chairmen of the va-rious Democratic county committees David B. Hill will win by 21,825 pluralty while the chairmen of the Republican committees having in charge their party's canvass in the 60 counties comprising the state claim that Levi P. Morton is to be the next governor. They figure that he will have 55,000 plurality.

Looks Like Busiel.

CONCORD, N. H., Nov. 5 .- At the election in this state tomorrow, a governor, five councillors, two congressmen, full county officers and a legislature to name a successor to United States Senator William E. Chandler, will be voted for. The probabilities are that Busiel, Republican, will be elected governor by 3000 majority; that the Republicans will carry three of the five councillor districts and defeat a choice in another, will carry 17 of the 24 sen-atorial districts, have a majority of from 50 to 75 in the house of representatives, and carry seven, possibly eight, of the 10 counties of the state. The combined Prohibition and People's vote will not exceed 2000, and these parties will not figure in the result.

Figures From Boston. Boston, Nov. 5.-Republican hopes and predictions, as expressed in a canvass of the entire state by a Republican paper, figure out a plurality of more than 50,000 for Governor Greenhalge. Congression-ally, the Republicans are claiming the 'earth," or at least as much as there is of it in Massachusetts, and it only remains, says this paper, for the Republicans to carry out their promises completely at the polls to achieve the fulfillment of these

Will Be Very Close. HUNTINGDON, W. Va., Nov. 5 .- The vote on the legislative ticket in West Virginia will be very close. Information received from many influential men, both Republicans and Democrats, in William L. Wilson's district, indicates that he will be reelected by a very small plurality. Each party claims that it will elect three, and probably four, congressmen from this

### WOMAN'S SUFFRAGE.

Miss Adams and Mr. Crowe Debate the Suffrage Question.

The usual meeting of the Quincy Literary society was held in Doble's building on Friday evening, the president Dr. R. on probation for two months. McLennan presiding. Perhaps at no ordinary meeting in the history of the society were there a greater number of ladies and ness. gentlemen present. This was attributable, partly to the growing interest in the sub- raigned for drunkenness. Case continued ject under discussion and partly to the until Saturday. personality of the participants in debate. As the question of the evening was primarily a woman's one, it was quite appropriate that the gentler sex should prethe lack of interest manifested by women at 50 cents, in the building of Albert F. themselves in the suffrage movement, has Clapp. done more to retard its progress than the active opposition of male opponents. The affirmative side of the query

inalienable rights. She urged the impor- | work? tance of unprejudiced consideration, and the necessity of freeing the mind from biased surroundings and customs. The human being; so that the wise words of the founders of this country apply to all people irrespective of sex.

She dealt in detail with a few of the objections usually made against woman's suffrage, contending that most of the arguwhen might was right, than of these modern days, when brains rather than disabilities that are generally applied against women, are equally applicable to a lation. About the only worthy argument that the opposers of equal suffrage have, is that women don't want to vote, and even that argument won't be left long. Besides it is a historical fact that the class which any reform of the past was intended to benefit has always been represented as opposed to the reform in question.

The suffrage should be extended to women because under the constitution it is her right, and equal justice demands it. Because there are wrongs which exist against woman as a class and which men have hitherto failed to legislate upon, and because in the west it is an accomplished, successful fact, which the east must event ually adopt.

Mr. Alexander Cowe, who opened on the negative side, drew his conclusion from the natural economy of the universe. In the human organism each part has a different function to perform. With a laborious effort the foot may do the work of the hand, but it is clearly a violation of nature's intention. Division and sub-division of labor runs through every particle of nature.

Woman's suffrage is not so much a case of right, as it is a question of fitness. Her sphere is not guaged by the laws and devices of men but by nature's own immutable design. From time immemorial the government of nations has been done by men, while household affairs have been disdevotes to work for which she is not adapted, just in proportion will her own domain be neglected.

There is no economy where the loss more espouse the duties of a voter and legislator and discharge in a sufficient manner the duties she is by nature fitted and designed for, than can the man who represents a district in Congress attend a the same time to a school of babies.

A nation may barter its womanhood for her vote and all that is implied therein. but that nation will as surely wither and waste, as the green tree that is robbed of moisture.

The general discussion that followed the opening arguments, displayed conspicuously a one-sided tendency. Whether masculine opponents were awed into submission or reasoned into silence, it is impossible to state, but certain it is that the preponderance of opinion was of decidedly affirmative nature.

The closing remarks of the two principals were perhaps the features of the evening. It is easy, comparatively speaking, to manufacture arguments in the privacy of one's domestic study, but it is a stronger test of capacity to connect scattered threads of discussion and weave them into harmonious order. It speaks well therefore for both debaters, that they acquitted themselves in a most creditable manner in 9.25, 10.10, 10.50, 11.47 A. M.; 12.25 1.25, 2.30, 3.30, 4.00, 4.30, 5.00, 5.30, 6.00, 6.20, 6.40 their rebuttal pleas.

A vote, taken at the close of the debate on the question as stated, although the opportunity of recording an opinion was not quite fully accepted by those present, gave to the affirmative side 32 yeas, and to the negative 8 nays. The result was not a

Aldermen of Haverhill. LAWRENCE, Mass., Nov. 5 .- After being out shortly more than an hour the jury in the Haverhill conspiracy cases Saturday night brought in a verdict of guilty against all the defendants. They are Aldermer Fred H. Cate, George O. Tilton, Hadley H. Hoyt, William W. Ham of Haverhill, Fred Smith of Cambridge, who is in the liquor business in Boston, and Charles A. Kimball of Haverhill, who is employed by

The verdict was reached at 8:45, the whole day having been occupied in testi-mony for the defense and arguments of counsel. All the charges of conspiracy to demand money from persons desiring licenses in Haverhill were denied by the defendants, and several persons testified to their good character.

Attorney Moulton, for the defense, opened his argument to the jury when court came in after the afternoon recess. He argued that it was natural that aldermen should be thrown in contact with persons clamoring for licenses, and that those who were disappointed were ready to cast suspicion on the licensing board. Much of the testimony he characterized as having been prompted by a

desire for revenge.

District Attorney Moody said the defendants had been meeting and acting together with one common mainspring of purpose. There was a series of remarkable coincidences throughout the case. It was one of these coincidences which brought the defendants together at Howard's saloon on the night after the license had been granted.

The real purpose of that meeting was to rejoice over their victory, and when the people learned that Smith was there celebrating they rose up and demanded an in vestigation. The case will be taken to the supremo

Bicycles Not in Favor With Heads of Foreign Military Departments. WASHINGTON, Nov. 5.-United States Consul Stephen at Annaberg has transmitted to the state department an article from a military correspondent upon the result of the trials of bicycles, made in Germany, which, he says, correspond to those obtained in France and Austria.

He says:
"We hear on trustworthy authority that the results of the trials which the various army corps have made with the cyclists by no means comes up to the expectations which were formed. The cyclists have been tested in every possible way, and although it is not forgotten that the cycle is capable of further development and the cyclist of still greater training, still they will have little influence on the general result. For military purposes, too, a distinction must always be made between the achievements of professional and amateur cracks and the work that can be

done by the average soldier."

The correspondent details one or two cases wherein the cyclists were of service as mounted postmen, but says that where the roads were bad they were of no use at

Straw-Working Industry Interfered With. WASHINGTON, Nov. 5.—One unexpected result of the war in the East is described in a report to the state department from United States Consul Stevens at Anna-berg, Germany. He says: "The strawplaiting industry, with its seat in Dresden, Saxony, is beginning to feel the effects of the war in eastern Asia. The straw hat manufacturers usually draw their material, put into straw braids, from China and Japan. The blockading of the ports from which these braids are exported has caused a scarcity and higher prices of the raw material. Manufacturers are beginning to look for other sources from which to supply their demands."

TIT FOR TAT. Uncle Sam May "Get Even" For

Germany's Embargo on Beef. WASHINGTON, Nov. 5. - The embarge which Germany has just placed against American cattle may have a sequel which the German authorities have not antic ipated, viz: An investigation as to the glanders and the disease known as horse syphills, with which German horses

brought to this country are affected. Secretary Morton called attention in hi last annual report to the lack of inspection of horses coming from abroad and suggested that it would be well to provide for quarantining horses. At that time there was such comity between this country and the countries of Europe in the shipment of live stock that the horse inspection was not urged. Now, however, with Germany closing her ports against American cattle, the secretary's suggestion of protection against diseased horses be comes pertinent.

"There is much more reason." said Dr Salmon of the bureau of animal industry, "why this country should exclude diseased horses than that Germany should exclude American cattle. The action of Germany is ostensibly on the ground of diseased Texas cattle, but only an insignificant per centage of these cattle are sent to Ger many, and there is no reason for excluding all because small classes are alleged to be affected.

"We recently received a shipment of sheep from England affected with the hoof rot, which is much worse than Texas fever. We sent them back, but it did not suggest that we should exclude all sheep because these were affected. It is the same with horses affected with the glanders and horses syphilis. There ought to be protection against such diseases, and

the secretary has urged it. "This country takes a good many horse from Germany, mainly of the heavy coach ing variety. They are sound, as a rule yet the glanders and syphilitic horses ge in occasionally. If, therefore, an entire class of stock is to be judged by a few dis eased ones, it would seem to be time to es tablish a horse quarantine."

CHINESE ARE IN A BAD FIX

Admiral Ting to Lose Recently Acquired Honors.

YOKOHAMA, Nov. 6. - General Oyan has captured Talien-Wan and Kincho after a few hours' fighting.

General Oyama reports an importan naval battle on Nov. 3. No details. The Japanese apparently control all land approaches to Port Arthur, and have undisputed possession of the east side of the Gulf of Pe-Chili, from which they can send forces directly by water against Pekin, by way of Tien-Tsin, on the western side of the gulf, or from Kinchow, at the head of the gulf, they can send forces by land down the western side over the great wall, to attack in the rear the chain of coast forts, extending from the wall to

Tien-Tsin. The Japanese cleverly effected a landing at Pitzwo (Kinchow?) while making a demonstration against the opposite coast of Shanting. They cut the telegraph, thus preventing the news from reaching the Chinese admiral.

Sung's Army Trapped. The defence of the road to Moukden has collapsed. General Sung, with the remnant of his army, is in the Mathienling pass between Feng-Huan-Cheng and Kinchow, being thus between the Japanese armies of General Yamagata and General Oyama, and is liable to get squeezed. Winter has set in. Snow has fallen i Manchuria.

Prince Kung, the emperor's uncle, re cently appointed president of the Tsung-li-Yamen and chief of the admiralty, has now been appointed dictator, indicating a further centralization of authority. The Manchu princes favor reform, while the Chinese oppose them.

The same edict announces the degreda-tion of General Weh on charges of cow-ardice in withdrawing from Ping-Yang, and of embezzling the pay of soldiers in Admiral Ting will also be deprived of the honors recently bestowed upon him. The feeling of uneasiness which has pre-

vailed in Pekin for some time back is in Fung-Wang-Ching was set on fire bere its evacuation by the Chinese. The Chinese, having evidently abandoned hone of making a successful defense against the advancing Japanese army, set fire to the

castle and then fled without waiting to be It is stated that Viceroy Li Hung Chang, Chinese army, as it was said he had been ordered to do, has been transferred from

Tien-Tsin to Pekin. A dispatch from Pekin states that China is disposed to conclude a peace treaty with Japan on the basis of a guarantee of the independence of Corea and the payment It always makes by the powers. The dispatch adds that it is reported that Chin is reported that China has invited the powers to intervene to secure peace.

COLLECTORS DECISIONS

Held to Be Final In the Case of Alien

NEW YORK, Nov. 6.-Judge Lacombe yesterday entered a decision which practically puts all aliens that may be detained by the collector of the port of any charge beyond the pale of relief by habeas corpus proceedings. The decision was called for by a writ of habeas corpus on behalf of Chin Yang Sin, a Chinaman, detained or the ground that he was entering th United States in violation of the Chinese exclusion act.

An act passed last August, which was a rider to the civil appropriation bill, pro-vides that in every case in which an alien is excluded, from whatever cause under any law of treaty, the decision of the cus-toms officers shall be final, unless reversed by an appeal to the secretary of the treas-

The right of congress to pass such a law Judge Lacombe says, has been determined by the United States supreme court. In such a case there is nothing for the courts to do but to ascertain if the person on whose behalf the writ has been obtained is an alien, and whether the collector has rendered a decision. The courts cannot reverse the decision of the collector.

Train Wreckers Foiled by the Timely Discovery of a Track Walker.

PITTSBURG, Nov. 6 .- An attempt was made to wreck a Pittsburg, Virginia and Charleston passenger train near Monongahela City. The train was running at a high rate of speed when it was signalled to stop by a track-walker. Investigation showed a large pile of ties and rock on the track, which the track-walker had discovered in time to flag the train. Near the obstruction was found a man

lying close to the rails, wounded in the head. He told the trainmen that he had come upon the train wreckers unawares, and that they had beaten him into in-sensibility. The obstruction had been carried some distance, and as the flagman of the train ran back along the tracks he saw three men disappearing in the dark-

The wounded man was taken to Charle-roi and turned over to the authorities. He would make no statement beyond what he told the trainmen and the police, and rail-road officials are investigating the matter.

# FOR INVENTIONS.

Equal with the interest of those having claims against the government is that of INVENTORS, who often lose the benefit of valuable inventions because of the incompetency or inattention of the attorneys employed to obtain their patents. Too much care cannot be exercised in employing competent and reliable solicitors to procure patents, for the value of a patent depends greatly, if not entirely upon the even and skill of the even the entirely, upon the care and skill of the attorney. With the view of protecting inventors from worthless or careless attorneys,

and of seeing that inventions are well protected by valid patents, we have retained counsel expert in patent practice, and therefore are prepared to Obtain Patents in the United States and all Foreign Countries, Conduct Interferences, Make Special Examinations, Prosecute Rejected Cases,

....355 190 37 44 How Mill Operatives Voted. A careful review of returns showing the esult of the election in the New England states emphasizes the position of mill op-eratives, as the heaviest Republican gains are noted in the manufacturing centers. The recent period of depression, accorpanied by strikes and lockouts, has been freely used during the campaign, and the

to have had a marked influence, and many men who in the past have supported the Democratic party and its candidates are this year reported as voting for Republican candidates or staying away from

the polls altogether. The strength of this feeling is perhaps better shown in the Thirteenth congres-sional district in Massachusetts, where Robert Howard, a strong labor advocate and champion, running upon the Demo-eratic ticket, failed to secure the vote of the laboring classes.

THE RETURNS. Bay State Republicans Won a Greater

Victory Than Was Anticipated. BOSTON, Nov. 7 .- The story of the Massachusetts election can easily be told. The triumph of the Republicans is so complete that even the Democratic leaders are stunned at the result. Governor Greenhalge is re-elected chief executive of this state by a majority of more than 60,000, 12 of the 13 congressmen are Republicans, and the state legislature in both branches is completely under the control of the

same party. On account of the storm, which crippled and in some cases destroyed entirely the telegraphic service of the state, returns have come in slowly, but all that have reached this city tell the same story, and that of a Democratic Waterloo. Since the beginning of the campaign the re-election of Governor Greenhalge has been conceded by his opponents, the only question being one of majority. Naturally, therefore, the greatest interest centered in the contests in the different congressional dis-

In the present congress Massachusetts was represented by nine Republicans and four Democratic members. In no case was a Democratic congressman renom-inated, and in only one case has a candidate for congressional honors been suc-cessful. John F. Fitzgerald in the Ninth district, at present represented by Joseph H. O'Neil, pulls through with the lead of perhaps 2500. In Congressman Stevens district Candidate Knox (Rep.) is elected by a substantial majority, as is William . Barrett in the Seventh district. The hottest and most acrimonious con

test was in the Tenth district, at present represented by Congressman McEttrick. William S. McNary received a regular Democratic nomination, MeEttrick runni...g independent. These Democrats were opposed by Harrison H. Atwood, the regular Republican nominee, and F. W. Peabody, bolting Republican. As the campaign progressed it became a Kilkenny fight, in which personal views

and matters foreign to a political campaign entered freely. Atwood alone re-frained from tactics of the kind, and by his silence gained not only Republican votes, but the support of many Democrats who were disgusted with the action of the Democrats. The full congressions delegation elected is as follows:

New England Congressmen First district, A. B. Wright, R. Second district F. H. Gillett. B.

Late Returns Show but Little Change From First Estimates.

A SOLID REPUBLICAN MAJORITY

Appears to Be Assured In the Next Congress.

BOSTON, Nov. 8 .- Late returns confirm earlier indications of a sweeping Republican victory throughout the state. Figures give Greenhalge (Rep.), 196.242; Russell Dem.), 128,436, making Governor Green halge's plurality 67,806, as against a plurality in 1893 of 35,697. Twelve out of 13 ongressmen are Republicans. In the city of Boston Governor Greenhalge's vote is 30,031, 704 more than he received last year, while Russell, the Democratic candidate, received 33,143, against a vote in 1893

For the first time in more than 10 years the Republicans whittled the plurality down to but 3112, as against a plurality of 9715 last year, and 14,000 for .ex-Governor W. E. Russell two years ago. In the west ern part of the state Worcester increased Greenhalge's plurality to 3225. The Democratic vote fell off everywhere, and the same is true in many parts of the state of the Republican vote, an aspect of the election that was due to the storm. In the lower branch of the state legisla

ture the Republicans made gains--28 Democrats and 210 Republicans being elected. The legislature will be over whelmingly Republican.

Republican Plurality Swelled.

CONCORD, N. H., Nov. 8.-In return from 236 towns and wards in New Hampshire already heard from Busiel (Rep. has 40,533, Kent (Dem.) 28,129, Knowle (Pro.) 1619, and Epps (Pop.) 594, making Busiel's plurality over Kent 12,404. Thes same towns in 1892 gave Smith (Rep.) 38, 195 and McKinney 35,128. Should the ratios of Republican gain and Democrati oss be the same in the 48 towns not ye heard from, Busiel's final plurality over Kent will be 14,752, the largest pluralit ever given a gubernatorial candidate the history of the Republican party is New Hampshire. In the First congre sional district Sulloway (Rep.) has received (Dem.) 14,613; in the Second congression district Baker (Rep.) has 19,829 and Mc Daniel (Dem.) 14,535, indicating a final plurality for each Republican candidate

port, which a few days ago elected a Democratic mayor, gave Bull, the Republican congressional candidate, over 800 plural ity. Bull's plurality in the state will be about 4000. The majority of Arnold (Rep.) in the Second district will be the larges ever given a candidate in the district. Solidly Republican.

NEW HAVEN, Nov. 8 .- Almost complete returns from the state indicate that the Republican state ticket is elected by be tween 12,000 and 15,000 majority. Repub

NEW YORK, Nov. 8.-Returns from al over the state indicate that all of the con stitutional amendments have been adopted by large majorities. The amend ments were voted for on three ballots. The first was for and against the revised constitution, excepting the reapportion ment and canal amendments.

The second was for and against the re apportionment, and the third was the canal amendment. The first ballot included 31 amendments, among them the

Returns show an apparent plurality in New York city for consolidation, or the greater New York, of over 86,000, while the rapid transit measure shows an apparent plurality of 82,400.

Although some of the amendments were hotly opposed, there is no probability that any of them have been defeated. They were all carried through on the crest of the tidal wave. A majority of the votes cast for an amendment is sufficient to make it part of the fundamental law of the state.

The result of the returns so far gives Hill a plurality in the city of 2549. The police returns give Hill a plurality of 2907. Outside of this city Morton has received a plurality of 151,218. Goff's plurality is 52,-000 and Strong's 42,617.

The overthrow of Tammany in New

York city and of the Hill machine in New York state is complete and emphatic. Hill loses heavily in the country districts, but in the metropolis his rout is something unprecedented in the political annals of that city.

Normally Democratic by from 40,000 to 80,000 majority, New York city now expresses its opinion of Hill in the astonishing verdict of a bare plurality for the Democratic candidate. Kings county, frequently Democratic by from 10,000 to 80,000 majority, which gave Hill for governor in 1888 a majority of 14,000, now crushes him with a heavy hand. Morton carries the state by 150,000, the largest majority by far ever given the Republican ticket in this commonwealth.

No less emphatic is the demoralizing blow given to Tammany Hall. With the whole machinery of government in their hands and commanding a power never attained anywhere else in the coun-try, the organization is put to rout by 40,000 majority; and the choice of a Republican governor and legislature to work in harmony with the new government of New York city gives assurance of such a house-cleaning as will undo the "Tiger" for good and all.

Next Senator Will Be Republican WILMINGTON, Del., Nov. 8 .- Delaware returns complete give a Republican majority of 1960. The Republicans elect the governor and congressman and local tickets in two counties in the legislature. The senate stands five Democrats and four Republicans; house, 14 Republicans and seven Democrats. On joint ballot there are 18 Republicans and 12 Democrats. This insures a Republican successor to

United States Senator Higgins. Republicans Gained Ground. St. Louis, Nov. 8.-From the latest official returns received from 85 counties in Missouri, Republican gains of 16,000 are shown, and the election of the entire state ticket, by a plurality of at least 10,000, is assured. The lower house of the legislature is Republican, but the Democrats, who have a majority in the senate, will be able to carry things on a joint ballot. At least six Democratic candidates for congress were defeated, and possibly several more will be countain in the Republican column when compate official returns

Wilson Caught In the Wreck. CHARLESTON, W. Va., Nov. 8 .- With the legislature having 15 Republican majority PROVIDENCE, Nov. 8.—The Democratic lefeat was complete. Every city in the

defeat was complete. Every city in the States senator is generally conceded. Congressman Wilson went down in the Re publican deluge. The Republican state committee makes the following statement: Doverner (Rep.) First district, 4323 majority; Dayton, Sec-

ond, 3000 majority over Wilson; Huling (Rep.), Third, 3500 majority; Miller (Rep.), Fourth, 2000 majority.

Conflicting Claims.

CHATTANOOGA, Nov. 8.—The election of H. Clay Evans (Rep.) over Governor Peter Turney has been conceded by the chairman of the Democratic state committee, lican congressman are elected from all four districts by majorities of from 1200 to plurality. Fusion Ticket Ahead. RALEIGH, Nov. 8.—The state judicial ticket is so close that it will require official vote to decide. The legislature is in doubt. The Democrats hope for it, but make no claims. Populist and Republican leaders are confident. Indications are that the fusion ticket has defeated the phase of the case which is now exciting Democratic congressional candidates in six districts, making the congressional

delegation stand three Democrats, two Republicans and four Populists. Nelson Elected Governor by 20,000. the election of Nelson (Rep.) for governor by at least 20,000 plurality. The result is in doubt. A Democratic Stronghold.

NOTICE TO INVENTORS.

THERE Was never a time in the history of our country when the demand for inventions and improvements in oe arts and sciences generally was so great as now. The conveniences of man-kind in the factory and work-shop, the household, on the farm, and in official life, require continual accessions to the appurtances and implements of each in order to save labor, time and expense. The political change in the administration of government does not affect the progress of the American inventor, who, being on the alart and ready to verging the existing a lart and ready to verging the existing a large and t alert, and ready to perceive the existing deficiences, does not permit the affairs of gov-ernment to deter him from quickly conceiving the remedy to overcome existing discrepancies. Too great care cannot be exercised in choosing a competent and -kilful attorney to prepare and prosecute an appli-cation for patent. Valuable interests have been lost and destroyed in innumerable instances by the employment of incompetent counsel, and especially is this advice applicable to those who adopt the "No patent, no pay" system. Inventors who intrust their business to this class of attorneys do so at imminent risk, as the breadth and strength of the patent is never considered in view of a quick endeavor to get an allowance and obtain the fee then due. THE PRESS CLAIMS COMPANY, John Wedderburn, General Manager, 618 F street, N. W., Washington, D. C., representing a large number of important daily and weekly papers, as well as general periodicals of the country, was instituted to protect its patrons from the unsafe methods heretofore employed in this line of business. district, which was expected to give a large majority for Waite. Owens Defeated.

LOUISVILLE, Nov. 8 .- Some surprising changes occurred at the elections, among them the defeat of Owens, who defeated Breckinridge in the convention. The election in congressional districts resulted in the choice of six Democrats and four Republicans. The Fourth district is in doubt. The Democrats have probably elected all four judges of the court of appeals.

Republicans May Roll Up 60,000. INDIANAPOLIS, Nov. 8. - Chairman lowdy says the state will go Republican by 60,000. He predicts the election of a Republican legislature in both branches. Republicans elect congressmen in the Sixth, Seventh, Tenth and Eleventh and probably in the Fifth and Thirteenth districts, a Republican gain of First Time Since 1880

DETROIT, Nov. 8.-Secretary Hosford of the Democratic committee concedes the election of the entire Republican congressional delegation, for the first time since 1880. John T. Rich (Rep.), for governor, is elected over Fisher (Dem.) by from 30,-000 to 50,000. The election of the whole Republican state ticket is conceded.

Republicans Capture the State. TOPEKA, Nov. 8.—The returns indicate the election of Morrill for governor and the entire Republican state ticket. The Republicans probably carry all but one congressional district, and the legislature is Republican on joint ballot. Republi-cans claim the defeat of Congressman Simpson by 2000.

A Complete Turnover. CINCINNATI, Nov. 8.-More complete reurns indicate that the Republican plurality for secretary of state will exceed 150, 900. The present Ohio delegation in congress consists of 11 Democrats and 10 Re publicans. The newly elected delegation consists of 19 Republicans and two Demo-Democrats Take About Everything.

BIRMINGHAM, Ala., Nov. 8.-The elec tion for nine congressmen passed off very quietly, indeed, exceedingly so for some ocalities, where fights have been con spicuous heretofore. The Seventh district is doubtful and may go for Howard (Pop.) The others were all carried by Democrats. Republicans Cut Into Democrats.

BALTIMORE, Nov. 8 .- Maryland's solid Democratic front is broken, and the Republicans have made unprecedented gains in every direction. Republicans elect four out of six congressmen. In Balti-more Dobler (Rep.) defeated Kerr (Dem.) for supreme court judge. A Clean Sweep.

CHICAGO, Nov. 8.—The state of Illinois is Republican by probably 100,000. The legislature, to elect a senator, is Republican. F. E. Downing (Dem.), of the Sixteenth district, is the only Democrat elected to congress from Illinois, all of the other 21 members being Republicans

Republicans Claim Eight Congressmen. MILWAUKEE, Nov. 8.-The Republicans of Wisconsin carried the state by over 15, 000 plurality for Governor Upham and their state ticket. The Republicans have made gains in almost every voting precinct. The Republicans claim the elecion of eight and probably nine congress

Sioux Falls, Nov. 8 .- Returns indicate that the Republican ticket, including two ongressmen-at-large, is elected by no less than 12,000 plurality, and the legislature will be two-thirds Republican. Pierre, publican majority ever known there.

Usual Democratic Vic.ory Claimed. GALVESTON, Nov. 8. - The Galveston News claims the usual Bemocratic majority for state officers and the legislature in Texas, also the election of Democratic congressmen in all the districts, with pos

DES MOINES, Nov. 8.—The Republicans appear to have made a clean sweep in Iowa, and nine Republican and one Pop-ulist congressmen have been elected. The indications are that the Republicans have carried this state by a plurality of 65,000. Vote Fell Off.

LITTLE ROCK, Nov. 8.-Returns from principal counties foreshadow the election of a solid Democratic delegation. The Republican vote did not "pan out" as was expected, and the Democratic vote fell off fully as much as was anticipated.

Straight Republican. BISMARCK, N. D., Nov. 8 .- Returns indicate the election to congress of Johnson (Rep.) by 10,000. Also the election of Allin (Rep.) and the entire state ticket by 4000 plurality. The legislature is over-

whelmingly Republican Republicans Got Everything. CHEYENNE, Wy., Nov. 8.-Returns so far received indicate the election of the entire Republican state ticket. Mundell (Rep.) is elected for congress, and the legislature will elect two Republican United States senators.

Mormons Voted For Republicans. Boise City, Nov. 8 .- The entire Republican ticket is elected by 2000 majority or more. The returns indicate that the legislature will be Republican. Mormons' votes have been strongly Republican.

All Republicans. TRENTON, Nov. 8.—New Jersey sends a solid Republican delegation to congress, and when the legislature meets will name a Republican to succeed John R. McPheron in the senate.

Favorable to Republicans. SANTA FE, Nov. 8 .- Returns indicat the election of T. C. Catron (Rep.) for del egate. The legislature is still in doubt the chances being favorable for a Republi-The Vote of Montana,

HELENA, Mon., Nov. 8.-Hartman (Rep.) for congress, and Hunt (Rep.) for associate justice, are undoubtedly elected. The egislature will be Republican by 15 on joint ballot.

Budd Is Ahead. SAN FRANCISCO, Nov. 8 .- About onehalf the entire vote of the state is counted, and the result indicates that Budd (Dem.) Democrats Secured Them.

JACKSONVILLE, Fla., Nov. 8.-The election in Florida was for congressmen only. The election of Cooper and Sparkman (Dems.) is assured. Elected Twenty-Eight Congressmen. PHILADELPHIA, Nov. 8.-Returns indi-

cate that the Republicans have elected 28 of the 30 congressmen in this state.

WHAT IS THOUGHT OF IT. In the Political World Give Their

Views of the Landslide. INDIANAPOLIS, Nov. 8 .- In response to a request for an expression of his views re garding the result of the election, ex-Presi dent Harrison said: "It is the most extraordinary political revolution the country has ever witnessed. Wherever there was a free ballot, the vote of confidence given in 1892 to the Democratic party, if one was given, has been recalled, and a vote of utter repudiation substituted."

BLOOMINGTON, Ills., Nov. 8.-Hop. Adlai E. Stevenson says: "My opinion can be briefly stated. The result is due in part to the financial depression which came upon the country soon after the inaugura-tion of Mr. Cleveland. While the Democrats were in no way responsible for this, they were made the scapegoats."

NEW YORK, Nov. 8. - Dr. Parkhurst

says: "As to the general result I may say frankly it was one which I was not prepared for. I had braced myself up to bear defeat. This victory is due to the spring and drop sides, we are fact that the people are beginning to have their eyes opened. Not that they have suddenly become imbued with virtue, bebeauty and the price speaks cause it was not lack of virtue that kept them where they were, but because they have only began to get a glimpse of the

complete as it seems to have been, the country and especially the laboring men are to be congratulated." Mr. Reed was silent when congratulated on the prospect that he would be the next speaker of the house, though he seemed to look upon it

as a settled thing.
Washington, Nov. 8.—Senator Faulkner, chairman of the Democratic congressional campaign committee, attributes the result of the election to the stay-at-home vote and to the existing hard times.

Comment From Abroad. Commenting upon the elections held in the United States, The Standard this morning says: Violent oscillations of public opinion do not point to a healthy political atmosphere. We may be sure, however, that there will be no revival of McKinleyism.

The Daily News says: The Democrats came into power on the crest of the wave they are. of a popular dissatisfaction with the higher tariff. The Republicans come into because of the disuse of Democratic opportunities. The Democrats dallied with their chances.

The Times says: The immense difficulty in the government of America lies here: The country is so vast and its interests are so immensely varied that it seems to pass the wit of man to discover an econin a return to protection.

HEDGED IN. Chinese Squadron at the Mercy of the Japanese at Port Arthur.

SHANGHAI, Nov. 8 .- The report of the capture of Talienwan by the Japanese has not been confirmed. The reports have been confirmed, however, that the Japanese are steadily repulsing detached bodies of Chinese, and that they have taken Port Kinchau. The Japanese force that landed on Oct. 25 north of Elliot isl and first marched eastward, probably to intercept the army of General Sung, which was retreating from Fung-Wang-Ching. They then turned westward toward Talienwaen, advancing five miles

The reputation of the Japanese for humanity and for paying for their supplies is doing them immense services: Consternation has been caused by the discovery that the Pei-Yang squadron has been caught in a trap at Port Arthur by the Japanese, owing to the neglect or overruling of Li Hung Chang's orders. Li Hung Chang disclaims any responsibility in the matter.

Two Passengers Killed. PHILADELPHIA, Nov. 8.—An express on the Reading railway struck a street car at Nicetown, throwing it 50 feet from the track. Two passengers were killed out-right and several others badly injured.

Total Rout of Democracy.

SOME LATE ELECTION RETURNS

the Republican Ranks.

WASHINGTON, Nov. 9. - Tuesday's cyclone has sent consternation into the ranks of the Democratic party, many of whose representatives are now here President Cleveland expected the defeat of Hill and Tammany in New York, and so informed his political associates on his return to this city after a sojourn in New

York for two days. It was this firm belief on his part tha induced him to withhold any endorsement, approval or interference in the election in stated to the members of his cabinet and others the inevitable defeat of Hill and

overtaken his party was wholly unex pected. After frequent conferences with the Democratic leaders from different parts of the country, both the president and the members of his cabinet were confident

that the Democratic party would retain control of the lower house of congress. He also felt assured that the Democratic leaders like Wilson, Bynum, Tracey and Springer, who belong to the most pronounced type of tariff reformers, would gentlemen and many others who are close followers of the president is deeply regretted. Representative Wilson's defeat is more keenly felt by the president and his immediate advisers than any of the

A prominent Democrat from New York, who is a warm admirer of President Cleveland, remarked yesterday that it had been clear to him for some months past that the Democratic party was doomed to be defeated in New York, New Jersey and Connecticut. But he had strong hopes that the south and west would remain firm in the Democratic column and thereby save the lower house.

It was evident to his mind now that the plain people, the farmers, the wage-workers and the business interests were dis satisfied with the party's action. They had not fulfilled, he said, its promises as to tariff legislation.

The Democracy went into the campaign fatally handicapped. They undertook the contest discredited and repudiated by heir own chieftain, who stigmatized a Beach Jacket Lined. perfidious and dishonorable the tariff measure which the party had supported and passed, thus sending them before the country branded as traitors and delinquent by their own leader.

Not only that, said this New York Democrat, but they were divided among themselves, infirm of purpose and incoherent as to their organization. The people became alarmed, and they had expressed themselves in no uncertain terms. It is no wonder, he said, that the Democrats have been overwhelmed in every part of the country when there was a possibility of their defeat.

How It Looks Now. From the returns thus far received the standing of the Fifty-fourth congress is figured out as follows: SENATE.

DENVER, Nov. 9 -An evening paper says: Governor Waite is going to leave Colorado. A well-known Populist says that the governor is thinking over a proposition said to have been made to him to take up his residence in Illinois. It is said that the People's party of Illinois have taken such a liking to the governor that they want him not only to reside among them, but also to lead them to victory as their candidate for governor in 1896.

Constable Furnald Off for Plymouth Jail to Bring them to Quincy.

The LEDGER recorded the news a few days ago that two prominent railroad officials, John C. Sanborn, the superintendent of the Plymouth division of the N. Y., N. H. & H. R. R , and Christopher T. Bailey, the railroad police officer who has recently been on duty at the Quincy depot, had PROVIDED. been sentenced to the Plymouth jail for four months for their participation in the LUCKY AND UNLUCKY FRIDAY. Abington riot. This morning Constable Furnald left for Plymouth armed with habeas corpus to bring Sanborn and Bailey Committee Ask for Two to Quincy, and they will be before the Quincy court Saturday morning in another

> Condemned by Catholics. Editor of the Daily Ledger:

We feel it our duty as representatives of he Catholics of this city to say that all improper exhibitions, whether given as promiscuous dancing or as sparring entertainments, are not favored by the real nembers of our church. On the contrary hey are contrary to its spirit and teaching, and consequently such evil effects as follow them should not be attributed to Catholic influences. It is a pity that people who call themselves by a name that we hold sacred, should have power to do the harm they do. We therefore, in the interest of true morality, call upon all citizens, whether Catholics or otherwise, to unite night. in overcoming an evil which may be to the detriment of all, if permitted to thrive. A CATHOLIC.

No Concessions Made Concerning the Texas Fever Dispute.

THE SELECTION OF DR. BILLINGS

Would Result In "Proofs" Adverse to American Cattle.

WASHINGTON, Nov. 9. - Agricultural department officials, who are watching the negotiations between Germany and the United States over the question of excluding American cattle, incline to the belief

The announcement from semi-official sources that the German government had agreed to leave the crucial point of dis pute, whether or not Texas fever could b municated to the cattle by the im portation of American stock, to the pre ponderance of expert opinion seemed its face a material concession to th United States. It might have been a cepted as such but for the qualifyin statement that their chief authority would be Dr. Frank Billings of Nebraska.

The work of Dr. Billings is well know at the department. It is stard there that he was formerly connected with the stat agricultural experiment station of Ne braska, and among other labors which h conducted and which brought his nam before the public were experiments upo swine in furtherance of an inoculation theory which the scientific men of the de partment smile at.

DUNRAVEN'S "WANTS."

New York Yacht Club Won't Agree to Race at Marblehead.

NEW YORK, Nov. 9 .- The prospects of another series of international yacht races were given an additional impetus this week when it became known that Lord Dunraven had sent a letter to the New York Yacht club, the members of which met last night in special meeting to con sider the communication.

The letter is not a challenge, but simply a discussion of the preliminaries. Lord Dunraven desires certain modifications of the terms and conditions of the Vigilant-Valkyrie matches. He wants first, measgrements to be taken with all the weights n board, dead or alive, that the yachts are to carry; secondly, that all dead to windward or leeward races should be started to windward.

He also suggests that the races be sailed at Marblehead, Mass., instead of New York, to avoid crowding. He also finds fault with the provision which gives the challenger the right to name but one yacht, while the challenger can choose from any number the one to defend the cup. At the meeting last night it was de cided that the races must be held at New

Numerous Candidates for Councilmen i

A few weeks ago an article appeared in these columns suggesting the names of Mr. Charles M. Bryant, Mr. N. G. Nickerson and Mr. Walter S. Pinkham as the Republican Councilmen candidates from Ward Five. Since the publication of that article, several new names have been brought forward and will undoubtedly go upon the official caucus ballot with those already mentioned. They are Mr. Harry E. Gifford, Mr. Walter F. Nichols and Mr.

Samuel E. Blanchard. Mr. Eugene H. Sprague's name is also mentioned for councilman-at-large from that ward. Mr. Sprague is a well known Boston business man, being a member of the firm of Sprague Bros. & Co. NOTICE TO INVENTORS.

THERE Was never a time in the history of our country when the demand for inventions and improvements in ne arts and sciences generally was so great as now. The conveniences of man-kind in the factory and work-shop, the household, on the farm, and in official life, require continual accessions to the appropriances and implements of each in the appurtances and implements of each in order to save labor, time and expense. The political change in the administration of government does not affect the progress of government does not affect the progress of the American inventor, who, being on the alert, and ready to perceive the existing de-ficiences, does not permit the affairs of gov-ernment to deter him from quickly conceiv-ing the remedy to overcome existing dis-crepancies. Too great care cannot be exer-cised in choosing a competent and 'kilful cised in choosing a competent and skilful attorney to prepare and prosecute an appli-cation for patent. Valuable interests have been lost and destroyed in innumerable instances by the employment of incompetent counsel, and especially is this advice appli-cable to those who adopt the "No patent, no pay" system. Inventors who intrust their business to this class of attorneys do so at imminent risk, as the breadth and strength imminent risk, as the breadth and strength of the patent is never considered in view of a quick endeavor to get an allowance and obtain the fee then due. principal speaker was Prime Minister Rosebery, and the sentiment of his speech was for peace. He said that he was convinced that

Great Britain should maintain her great-ness abroad. The political sky abroad was not entirely clear, but the barometer was not falling. The reason that the sky is not clear, he added, is the disastrous Chinese-Japanese war. The British government had not lost the chance of making some progress toward a peaceful set-tlement. Continuing, Lord Rosebery said: "We are determined to maintain a strict

## DUTY OF DEMOCRACY

Press from Washington, William L. Wilson gives his views of the causes of Democratic defeat in the recent elections. After declaring that it is no ther a desirable nor a dignified thirg for a member of a defeated party to attempt to explain his own or his party's defeat, he says:

DOES "ELECTROCUTION" KILL?

Ever since the adoption of the electrical

Nicola Tesla, the famous electrician, has contended that he could bring back to life a man killed in an electrical chair, provided the attempt was made immediately after execution. George Westinghouse has always asserted that the electrical death was a sham, and that a New York commission, headed by Elbridge T. Gerry, had added the autopsy clause to the law so as to make it certain that the man was

dead. Within the past few weeks the agitation of the subject has again become prominent and an appeal is to be made to the governor to allow the next man condemned to death at Auburn to be experimented on. This request is the one the governor says he will grant.

The attempt, if made, will undoubtedly create intense interest in the scientific world. It will also arouse curiosity among laymen, because if successful it will bring to life a man who cannot be again executed, having once suffered the penalty of death. It will also prove that the state executioners have been the sur-geons who have held the autopsy rather than the state electrician.

"Still," he added, Moscow, Nov. 12 .- The streets of Moscow were lined with thousands upon thousands of persons at dawn yesterday awaiting the arrival of the body of Czar Alexander. The city has almost disappeared under its mantle of white and black draperies and wears a mournful and solemn aspect. The leading streets and cans, and Democrats of the Tillman-Irby thousands of houses are covered with crape. Even the lamp posts are covered Festoons of crape cover the sidewalks. Everywhere can be seen portraits and busts of the late czar draped

with crape.

The train conveying the remains arrived Saturday evening at Boutowo, a short distance outside of Moscow, where it remained during the night. The journey was resumed early yesterday morning, trains bringing to the city por-tions of the suite, who arrived at 8 o'clock. The funeral train with Czar Nicholas, the czarina, Princess Alix, numerous grand dukes and grand duchesses, the Prince and Princess of Wales, high officials and

officers, arrived at 10:30. The party was met on the platform of the railway station by the governor of Moscow the high officials of the city, Grand Duke Michael, Grand Duke Sergius and his wife, Grand Duchess Elizabeth, M. Durnova, minister of the interior, and a most brilliant assemblage of military officers. The clergy offered prayers as the coffin

was lifted from the train on which it had made the long journey from Sebastopol. A procession was then formed, and when all was in readiness the pall was removed from the coffin. Czar Nicholas and the grand dukes then bore the coffin to the hearse that was in waiting. In the meanwhile, cannon was booming from the Kremlin fortress. At 11 o'clock the procession started for the Cathedral of

St. Michael the Archangel. The cortege was of immense length. In it imperial standards were borne by high function aries, each of them followed by one of the dead czar's saddle horses. General officers carried the late czar's armorial badges state swords and insignia and decorations. Then followed a long array of clergy, bearing emblems and images, deputations, corporations and trade societies.

Along the Route. The funeral car was drawn by eight horses and there was a guard of honor composed of 80 cadets. room for them in the cathedral. The streets in the vicinity of the Kremlin were black with humanity, and the crowd extended as far as the eye could reach. In the Cathedral of St. Michael there was an immense concourse of people.

Stopped at Four Churches. The cortege stopped at four churches on the way to the Kremlin, within the triangular walls of which the Cathedral of St. Michael is situated. These stops were made to allow of the offerings of prayer

for the dead. It was 1 o'clock before the procession arrived at the cathedral. Here the pall was again removed, and the coffin was born into the church with the same ceremony that had marked its transfer at the station. It was placed upon an immense catafalque that had been erected in the nave. This was surmounted by a canopy em-broidered in gold. The whole interior of the church was decorated with white and

black draperies, embroidered in silver. The tombs of the czars, whose remain are in the cathedrals, were covered with black velvet, on which the epitaphs on the tombs were plainly reproduced. Four generals removed the lid and replaced the pall over the open coffin.

Orthodox Rites. The metropolitan of Moscow conducted the funeral service, which was marked with all the solemn pomp of the Orthodox church.

Subsequently many of the imperial party, with their suites, proceeded to the Uspensky cathedral, the most venerated of the several sacred buildings of the Kremlin and the Ischudoff cloisters, where the most venerated holy pictures of Russia were displayed. Thence they went to the palace.

In the meantime, the czarina, Princess Alix and the grand duchess visited the Blagovyschensky cathedral, also within the Kremlin, at one time the private

chapel of the czars.

The public, on being admitted into the cathedral of St. Michael to see the body lying in state, found the coffin guarded by military deputations. The most touching scenes were witnessed in the cathedral. The people prostrated themselves reverently before the coffin, at the same time offering brief prayers for the repose of the soul of Alexander III.

Mayor Hodges Likely to be Renominated by Democrats.

FOUR REPUBLICAN CANDIDATES

May be Thompson, or Moxon, or John-

The Globe has set the municipal political oot to boiling, but it will not be successful in creating discord this time in the Republican ranks. No such feeling exists in the party as the big Boston daily would have its readers believe, and neither are there as many candidates actively in the field.

Here is a sample paragraph from the Globe which Chairman Fairbanks promptly pronounces as "all bosh :"

It is known that the Fairbanks men are not enthusiastic over either Thompcitizens among whom are: Mayor Hodges, son or Holden. They are out strong for ex-Mayor Porter, Charles F. Adams, 2d, Stephen O. Moxon and have offered him the nomination, so far as their influence goes. Mr. Moxon has not refused, neither has he said as yet that he will go into the fight. He is a man that has too much at risk politically to chance defeat, either at a convention or at the polls, and he is playing a wait-

Chairman Fairbanks informs the DAILY LEDGER that he is for the Republican nominee, whoever he may be, and is confident of seating him in the Mayor's chair in 1895. The Japanese have invested Port Arthur, and the two innermost forts on the land side have been captured.

Advices from the armies commanded by Field Marshal Count Oyama, now opera ting on the Liaotung peninsula, confirm the reports of Japanese victories at Chinchiu and Talienwan. On the morning of Tuesday last, one brigade of the Japanese forces captured Chinchiu, and on the next day Tallenwan was bombarded and also captured. A Brisish warship was at Talienwan during the bombardment.

The official dispatches of Field Marshal Co. Oyama state that the Chinese forces at Talienwan numbered 3000 infantry and 1800 cavalry. They made little resistance at this point. They retreated towards Port Arthur. The Japanese lost only 10 men in the capture. The Chinese losses were also slight.

A dispatch dated Talienwan, Nov. 7 from Admiral Ito, commander in-chief the Japanese navy, says that the squadror left Chiosansetsuto on Nov. 6, and on the morning of the 7th was near Talienwan. No firing was heard from the forts and he squadron steamed into the bay, when the Japanese flag was seen flying from th fortifications, the guns of which were dismounted. An officer landed and found government for \$49.01 for work done in only some Japanese guards, who informed him that the commander of the brigade had returned to Chinchiu.

NOTICE TO INVENTORS.

THERE Was never a time in the history of our country when the demand for inventions and improvements in ne arts and sciences generally was so great as now. The conveniences of man-kind in the factory and work-shop, the household, on the farm, and in official life, require continual accessions to the appurtances and implements of each in order to save labor, time and expense. The political change in the administration of government does not affect the progress of the American inventor, who, being on the alert, and ready to perceive the existing deficiences, does not permit the affairs of government. alert, and ready to perceive the existing deficiences, does not permit the affairs of government to deter him from quickly conceiving the remedy to overcome existing discrepancies. Too great care cannot be exercised in choosing a competent and kilful attorney to prepare and prosecute an application for patent. Valuable interests have been lost and destroyed in innumerable instances by the employment of incompetent counsel, and especially is this advice applicable to those who adopt the "No patent, no pay" system. Inventors who intrust their business to this class of attorneys do so at imminent risk, as the breadth and strength minent risk, as the breadth and strength imminent risk, as the breadth and strength of the patent is never considered in view of a quick endeavor to get an allowance and obtain the fee then due. # STRICTLY AMERICAN.

Not a Fraction of the Steamer St. Louis of Foreign Manufacture.

CHRISTENED BY MRS. CLEVELAND.

But Two Other Vessels Worthy the Name of Rivals.

PHILADELPHIA, Nov. 12.-The great American transatlantic liner, the St. Louis, was launched today at the Cramps' shipyard and was christened by Mrs. Cleveland. On the arrival in this city of the party from Washington, they were met by an escort of several ladies and gentlemen and were taken to the Cramps' shipyard, where the St. Louis lay in its cradle for its sponsor to give it a name. The St. Louis, if the expectation of her builders is reached, will be superior to every liner in the world, except the Campania and the Lucania, which hold the transatlantic records. The new American liner is 500 tons larger than either the Paris or New York, and 16 feet longer on the water line. She is 800 tons larger than either the Majestic or Teutonic of the White Star line. Her length over all is 554ft.; length on load water line, 536ft. extreme beam, 63ft.; depth of hold, 42ft.

11,000 tons. Her engines will be quadruple expan sion, with a force of 20,000 horse power. The quadruple expansion principle has never been applied to such large engines before, so the test of the St. Louis will be of great scientific interest. The figures will convey an idea of

draught of water, 26ft.; gross register,

What These Engines Are Like. The cylinders of the two engines are 36 inches, 200 inches, 71 inches and 100 inches in diameter. Steam is supplied from six steel double-end boilers 20 feet long and 15 feet 71/2 inches in diameter. These are heated by 39 furnaces, with 830 square feet of grate and a heating surface of about

30,000 square feet. The most interesting part of the S Louis is her arrangement for passengers. The fittings are made with the greatest regard for comfort and convenience. The first-class cabins will be amidships in stead of aft. The object of this will be appreciated in a storm, for then the motion of the vessel, as it rides on the waves, will be felt much less than at either end. The first-class saloon will be on the upper deck forward. The saloon will be large enough to allow all of the first-class passengers to dine there at one time.

There is room for 320 first-class passen gers, 200 second cabin and 900 steerage besides about 400 officers and men. That means 1800 people on board, of whom 1400 are passengers, A Veritable Floating Colony.

The accommodations for second cabin pas-

sengers are abaft those of the first cabin. The steerage quarters are in the bow and stern. As for cargo capacity, the St. Louis will have room for 125 tons more than the New York or Paris, but this will not be her specialty.

Every effort has been made to make the

big liner as safe as any hotel on land. Her safety appliances are the most modern and approved possible, and she will be one of the safest vessels afloat.

Regulating Wages.

CHICAGO, Nov. 13 .- The United States government commission's report on the great strike in connection with the Pullman trouble is made public.

The report is signed by Carroll D. Wright John D. Kernan and Nicholas E. Worthington, and it abounds in passages which will attract attention, particularly

The report says that the capitalization of the 24 roads directly represented in the General Managers' association was \$2,108, the opinion that it should be made unlaw-552,617. Its roads fixed up a Chicago scale for switchmen governing all the lines at Chiled to a long controversy between the men tutions that members shall forfeit all and the managers.

The association was used as an "equal zer." During 1893 it became the policy of the association had great weight with outside lines, and thus helped to establish

Managers' Association Criticised.

The commission questions whether any legal authority can be found to justify some of the features of the association. The association is cited as an illustration of the persistent and shrewdly devised plan of corporations so overreach their rights not contemplated in their charters.

An extension of this association and the proposed legalization of "pooling" would

esult in an aggregation of power and captal dangerous to the people and their liberties, as well as to employes and their rights. The question would arise, Who

The Pullman Case Taken Up.

The report then enters into the subject of the Pullman Palace Car company and the town of Pullman. The paternalism the town of Pullman. The paternalism is of the company, as it operates throughout the place is commented upon rather unfavorably. When the depression of 1893 his protege will go elsewhere to be marcame, according to the commission, there ried. ought to have been mutual concessions, But concessions were not made. On the one hand was a wealthy corporation refusing to yield, and on the other workmen of new developments in the matter of ancharacter and skill, but without local at other bond issue. Nevertheless there are tachment for the place.

Economically considered, the Pullman the president has fully decided to place management could not afford to shut another loan, and that the announcement down the plant, because of the loss due to | will very likely be made before the close rust and the possible invasion of the field of the present week. by competitors. Those in authority pre-ferred to cut the wages, insisting at the same time upon a mainte ance of rents. Consequently some men received for the work done in two weeks only 4 cents after lic last night by the presentation of a rotheir rents were paid.

The claim of the company that workmen need not live in the town is disputed orated. The drama itself, while not by the commission. The fear of losing brought to a point of perfection, was sucwork kept the men at Pullman, since the company from business reasons would naturally hire the men who rented buildings owned by the concern.

The reductions in 1893 were made by the managers, and the men knew nothing of the changes until the flat had been issued by those in authority. Reduction was carried to excess, but the claim of the men was scarcely more tenable than the claim of the management, the men insisting that their wages should be kept up to the standard of wages paid during prosperous

time until July 3 there were no acts of disorder in the town. The conduct of the men is pronounced dignified, manly and conservative. Though starvation stared them in the face, they behaved in a manner worthy of American citizens.

Dealing With Chicago's Strike.

The report next takes up the great railroad strike proper. It says that the readiness to strike sympathetically was promoted by the disturbed and apprehensive condition of the railway employes, resulting from wage reductions on different lines, blacklisting, etc., and from the one man was killed and six others seriously tion. growth of the General Managers' associa- injured. The policy of the Pullman company and the Railway Managers' association in refusing to arbitrate closed the doors to all attempts at conciliation and settlement of differences. The commission is impressed by the belief that the reversal of this policy would have prevented the loss of life and store life to a person shocked to death by

There is no evidence that the officers of the American Railway union actually participated in the intimidation, or the de-To Unite For the Purpose of struction of property. The report adds that the real responsibility for these disorders rests with the people themselves and with the government for not controlling monopolies and corporations and for failing reasonably to protect the rights of labor and to redress its wrongs.

Mrs. Bromley Led the Life of a Hermit For Many Years.

MIDDLETOWN. N. Y., Nov. 13. - Mrs. Abbie A. Bromley, widow of the late Avery Bromley, a prominent and wealthy citizen of this place, died suddenly at the age of 70 years. For 12 years before the death of her husband, which occurred on Aug. 24, 1888, she had not left her house, had not admitted callers, kept no servant, never opened the front door or spoke to a human being.

Her husband slept in the house, but took his meals at hotels and restaurants. During his last sickness, which was of some months' duration, he was cared for at the home of a friend, and a few days before his death, his wife, who had been informed of his condition by a note thrown under the door, went to see him. She attended his funeral and saw a lawyer in regard to the settlement of his estate, and then dropped back into her old life.

Mr. and Mrs. Bromley went to the Centennial exposition in 1876, where they were joined by Mr. Bromley's daughters by his first marriage. On their return from Philadelphia Mrs. Bromley with-drew from the world.

# PEOPLE.

The country is full of them. They do not know what it is to feel well like other folks. Medicines of all kinds have been tried without good results. Cod Liver Oil and the preparations ef Malt have all failed. What is the reason? These emanciated people cannot digest starchy foods. The fat of the body is produced with bread, potatoes, and other starchy food. If they will eat food that is artificially digested, they will 5 cents grow fat, strong, plump and robust. They will commence gaining flesh at once. The Flesh Forming Food is called Paskola. You can buy it at any drug store. Send your name to The Pre-Digested Food Co., 30 Reade St., New York, and get their interesting pamphlet.

Political Graves Already Yawning For Jones and Stewart.

SOME HARD RAPS AT CLEVELAND.

Waller Holds Him Responsible For the Landslide.

WASHINGTON, Nov. 13. - The election last week struck a death blow to the Populist party. That is one benefit which even the Democrats will acknowledge as the utcome of that contest. The presence of that organization has for the past two years caused much uneasiness in financial circles, where the sudden growth of the Populists was thought to foreshadow their control of the balance of power in con-

"That thought caused apprehension in the money world, particularly abroad,' said a leading statesman yesterday. is all very well for some people to say that we should not consider the opinion of Eutope in our politics, but when one realize that in Germany alone over \$500,000,000 worth of American securities are held, one appreciates the disaster which would re sult from destroying the confidence of these foreign investors, and understand the necessity for retaining that confidence

"It is true that the senate may be nomi nally controlled by the Populists, but there is not much to fear from that. Senators Jones and Stewart announced their allegiance to the Populist party, because they thought they saw in it the signs of HAVE YOU \* \* \* \* \* \* permanency and rapid growth. They thought, too, that a tidal wave of Populism would sweep over the country at the elections just held, and hoped to be caugh on the crest of the waves and carried high on the Populist shores. They now stand GLASSWARE stranded on a rapidly receding reef, for-lorn, alone and ridiculous. They are discredited not only by the Republicans, bu by the Populists as well.

Jones and Stewart In a Bad Fix. "These two senators from the west a preciate their situation. They know ful well that their future in politics depends on getting back to their first love. As it is, Jones' resignation has been demanded though it is very doubtful if he complies with the demand.

"It will be the aim of the two to curry avor with the Republicans at every oportunity, without appearing to be too recipitate in their haste to get back into he Republican fold. Two years hence Peffer will be retired, and the others will die a natural death when the time for the election of their successors arrives.

"The Populist leaders are greatly down-cast by the election. In fact," said the THERE Was never a time in the history of our country when the demand for inventions and improvements in the nearts and heart than do the Democrats themselves. The latter are not at all dismayed by this cry of the extermination of the Demo cratic party. A similar cry was raised about the Republican party four years

### WORDS NOT MINCED.

Ex-Governor of Connecticut Gives an Unvarnished Opinion of Cleveland. NEW HAVEN, Nov. 13. - Ex-Governo Waller, who was consul general to Lon don during President Cleveland's first

term, makes the following statement about the causes that led to the Democratic defeat last Tuesday: "The people have rebuked the Demo cratic party, not for what the party has done, but for the way it did it. Our party did not obtain power upon any false pro tense. We promised in effect to repeal the

Sherman bill; to repeal the force bill election laws; to reduce the running ex penses of the government; to decrease the number of sinecure offices, and to reform the McKinley legislation. "And in all these things record shows that in the doing of them our party divided into squads, and the squads fell to fighting and abusing each other as if they

were contending against foes and conspirators, instead of being friends striving to outdo each other in battling for a commo cause.

Placing the Responsibility. "This unseemingly spectacle among the leaders had a confusing and depressing effect upon our rank and file. For such conduct of leaders is as disastrous in politics as it would be in war. But this effect, bad as it was, could have been overcome if the compromise tariff measure had been received as a compromise should have been, with a show of satisfaction; that although everything had not been accomplished, still a good deal had been done, and in the right direction, and nothing had been done to prevent the accom-plishment of more. Then the people would have accepted this view of their eaders, and they would have rejoiced with them over what had been done.

"But at this stage of our progress the great leader of our host appeared with his perfidy and dishonor' proclamation to the party and the people, and this appearance 'did the business,' the results of which we suffered in the political earthquake, cy-clone, landslide and Noah's flood of

Many Thousands Paid Tribute to the Dead Czar at Moscow.

THE PROMISE OF CZAR NICOLAS.

Will Aim to Walk In the Footsteps of His Father.

Moscow, Nov. 13.—The imperial funeral train left this city at noon yesterday on Its 400-mile journey to St. Petersburg. The train was made up in exactly the ame manner as it was in coming from Sebactopol.

Sunday morning's snow was changed by night into a drizzling rain, but the by night into a drizzling rain, but the night was made as busy as the day by hurrying people driving and walking to the Cathedral of the Archangel to see the last of their beloved czar. Bonfires and flaring gas-jets cast immense shadews on the public buildings. Twenty thousand people of all classes, filed through the cathedral during the night.

At 8 o'clock yesterday morning the court officials nobles officers and notables as-

officials, nobles, officers and notables assembled in the palace within the Kremlin to hear an address by the czar. With his mother leaning on his arm, the czar addressed the assemblage, expressing in a firm voice his grief at visiting Moscow on such a sad occasion. He said his father had intrusted to him a message of thanks for the loyalty that Moscow had displayed. He concluded by stating that it would be his aim to walk in his father's footsteps.

At 10 o'clock the Kremlin guns gave the signal, and the procession to convey the remains to the railway station was formed in the same order as when the body was conveyed to the cathedral. The start was then made for the station. The great bell of Moscow tolled and guns thundered forth salutes as the body was removed from the cathedral.

The Progress of the Cortege through the enormous crowds was deeply impressive. Dead stillness prevailed ex-cept when the populace caught sight of the young czar, when the crowd broke out into cheers. At the railway station generals bore the coffin to a dais that had The metropolitan of Moscow, Grand

been erected in the center of the station. Duke Sergius and the clergy bearing tapers, colored green, the ecclesiastical mourning color, performed a service at the station. At the czarina's request the priests did not wear mourning, but were attired in their usual festival robes of silver brocade.

The coffin was then borne to the train, which was draped with black and decorated with eagles. A large c.oss was on the door of the funeral car. The imperial party entered the train, and at noon started for St. Petersburg to the music of the band of the guard of honor, the sing-ing of a choir and volleys of musketry Joseph T. French, from two infantry regiments that were

drawn up outside the station.

The Russian regalia, the imperial crown and six other crowns, including those of Kazan, Siberia and Poland, together with the imperial scepter and ball, were displayed on cushions of yellow brocade at the stations previous to being returned to St. Petersburg. They were guarded by gren-

EDINBURGH, Nov. 13.—Sir Charles Tup-per, in an address before the Royal Scottish Geographical society, said that Canada had not only survived, but had forgotten the McKinley tariff, which had proved a blessing in disguise, as Canada, driven to find new markets, had vastly increased her exports to Great Britain and had opened markets in other countries.

Next Congress Won't Be Bothered With the "Popgun" Bills.

Because It Might Endanger Regular Appropriations.

WASHINGTON, Nov. 14. - Preparations are in progress at the Capitol for the reassembling of congress, and the usual annual cleaning and burnishing is being attended to. Some of the members of the house appropriation committee are already

here.
The rooms which are in course of prep aration at the treasury department will be ready for the committees in a few days, propriation bills may be well advanced be

In the face of the verdict at the recent ections, the house will hardly be disposed to intimate anything on tariff and coinage, and in the senate the "popgun" bills sent over by the house a few days prior to the adjournment of the last session are not likely to be disturbed on the calendar.

The Sugar Question.

It was the intention of the friends of the ills, after the adjournment of congress, to take them up at an early day after congress had convened and endeavor to pass them, especially the one relating to free sugar. Judging from the conversation of the senators who favor this measure, they do not seem disposed now to make the attempt, as it would be mere waste of time, for the reason that the Republicans would not permit them to be brought to vote. They feel assured that the Republicans would adopt dilatory tactics and resort to

filibustering, regardless of consequences. Such a contest might endanger the passage of the regular appropriations and make an extra session of the Fifty-fourth congress necessary in case those bills should fail. This course the Democrats in the senate and house may be relied upon

There are some corrections which ought to be made in the Wilson tariff act, but nothing is likely to be attempted that will not receive the approval of the Republicans in the senate. The paragraph authorizing the withdrawal of alcohol without payment of tax when such withdrawal is intended for use in arts and manufactures,

The discriminating duty against refined | was fixed at \$5000. sugar from Germany should also receive early attention. It is to be feared this will not be corrected, for the reason that the attempt would precipitate the old controversy over the general question of sugar duties and the Sugar trust. Beyond the public concern will be attempted.

NOTICE TO INVENTORS.

THERE Was never a time in the history of our country when the demand for inventions and improvements in ne arts and ventions and improvements in ne arts and sciences generally was so great as now. The conveniences of man-kind in the factory and work-shop, the household, on the farm, and in official life, require continual accessions to the appurtances and implements of each in order to save labor, time and expense. The political change in the administration of government does not affect the progress of the American inventor, who, being on the alert, and ready to perceive the existing dethe American inventor, who, being on the alert, and ready to perceive the existing deficiences, does not permit the affairs of government to deter him from quickly conceiving the remedy to overcome existing discrepancies. Too great care cannot be exercised in choosing a competent and skilful attorney to prepare and prosecute an application for patent. Valuable interests have been lost and destroyed in innumerable instances by the employment of incompetent counsel, and especially is this advice applicable to those who adopt the "No patent, no pay" system. Inventors who intrust their imminent risk, as the breadth and strength of the patent is never considered in view of a tain the fee then due. RALEIGH, Nov. 15. - Marion Butler, president of the National Farmers' alliance, who is slated to succeed Senator Ransom in the United States senate after March 4 next, is reported as having stated that he would vote with the Republicans in the organization of the next senate.

If this is so, the Republicans can count on both of North Carolina's votes in organizing the senate, as the other senator to be elected in January, by the legislature, to succeed Jarvis, will be a Republican. Dr. J. J. Mott, ex-chairman of the Repub lican state committee, seems to be in the lead just now for that position.

It is further stated that if Butler's vote turns out to be necessary to the Republicans, he will ask for the senate secretaryship for a North Carolina fusionist in exchange for his support and vote. The present secretary of the senate, General W. R. Cox, is a North Carolinian.

Government Building.

A CROWNING HISTORICAL EVENT

Typical of the Unity Existing In the Fatherland.

BERLIN, Nov. 15 .- The massive govern-

ment building, the new reichstag structure, was formally opened today. It is by no means complete, but it is the kaiser's earnest wish that the German parliament should hold its next session in the great hall designed for it. There is fully another year's work within the building in the way of great decorations and the making and placing of the statuary designed to fill the thousand niches in the massive corridors of this monumental structure. For 12 years the workmen have been busy on this building, which, with its graceful front, faces the famous green sward of the still more famous Thiergarten, and with its terraced rear looks down upon the bustle and turmoil of busy Berlin. It is an ideal location. From its top, on which the imperial crown rests, the view of the great city is entrancing. It towers even above the great column of

of the Franco-German war. The statue of Germania holds the place of honor on the facade, and the friezes underneath it are adorned with the German here yesterday. The cargo in the forehold arms and mythological figures telling the story of early Teutonic times. Underneath this is the dedicatory inscription. "To the German People." Its German letters form the words, "Dem Deutschen Volke." The ornamental work and the statuary which already adorn the outside of the structure Its Conception.

### PARK ASSESSMENTS.

Should Quincy be Assessed After Los ing 2500 Acres of Taxable Property? The commissioners appointed to apportion the cost of the land taken for State parks gave a hearing Wednesday in Boson. The Herald says:

"There was a large attendance of lawyers, and the meeting was a decidedly lively one, the members of the metropolitan park commission coming in for a good deal of sharp criticism from many of the lawyers, and being as warmly defended by others.

"Under the statute, the commissioners are to apportion the cost of the work for the first five years, of which one year has expired, and the amount to be apportioned is \$1,000,000 for parks and \$500,000 for Confectionery, home-made Candy a boulevards, although in case the boulevards are not constructed their cost may not be assessed at present.

> "The hearing was of a preliminary character, and developed the fact that there are two parties who will be heard, one representing towns and cities who are directly affected by the park system; this personally the almost unanimous choice of he may be able to prevent any trouble and party favors an apportionment based on the Republicans of the city for Mayor, but thereby be able to do more for the city than the valuation of the municipalities. Mr. Fales thought it a pretty cool proabout the facts in the case.

Mr. F. Rackemann, who represents the which the bread and cake were made at the park commissioners, said he wished to correct an impression that seemed to prevail that the park commissioners were not ready to give information. They are ready and willing to give all proper pass any orders directed to them.

Mr. Cook, for the town of Weymouth, to consider the benefits resulting to every community from the park system; he could not see where his town is benefited Evolution. in the least by it.

Judge Asa French, for the town of Braintree, said that there is a practical as well as a poetic side to this question and he people are entitled to know not only what has been done but what in a general sense is to be done. The scheme may cost many millions, no one knows how much, and the people have a right to say some thing about it.

After consultation, the commissioners announced that as the principal question appeared to be the matter of justly and equitably determining the method of apportioning the cost of the work, and as the commissioners could not in advance, state what the basis of apportionment should be, it had been decided in view of the statement of the park commissioners that the latter were ready to furnish all needed information to hear first the park commissioners and after that such competent evidence as the parties interested might see fit to offer. As the commissioners have no power to compel attendance of witnesses. he parties must produce their evidence. On all questions of the admissibility of evidence the commissioners to rule as the questions arise.

" The commissioners further decided to give the first hearing on Dec. 3d, and after the park commissioners are heard, the cities and towns will be taken up in the order in which they are named in the act."

Should Quincy, which will receive no benefit unless a boulevard is built, which has lost 2500 acres of taxable property and has already suffered an increased in tax rate, pay any assessment? If so should it not be small?

### WHITEWAYITES' SUCCESS

Means That General Business In Newfoundland Will Seriously Suffer. St. John's, N. F., Nov. 15.-The political situation here is very grave. Reports to business men, brokers and others from their correspondents abroad show that the trade of the colony will be curtailed, owing to the feeling that it would be danger ous to embark capital in dealings with

this country.

The Whitewayites demand that the government resign immediately, but it is not expected that they will do so for several months, as they have some very delicate financial questions in process of means to pay the interest on the public debt, which is due at the end of December. Any change in officials at the present mo ment would probably result in financial 1 lb. World's Favorite Baking Powder.

# THE CALL FOR GOLD.

Principal Bids Not Expected to Be Received For Some Days.

A PLAN FOR CURRENCY REFORM

Said to Have Been Formulated by President Cleveland.

WASHINGTON, Nov. 15 .- The chief of the oans and currency division, treasury department, has sent a large number of blank forms for the use of persons desiring to nake bids for the new 5 per cent loan These bonds will be identical to those issued in February last, inclusive of date, out will contain three less coupons, as the interest on them begins Nov. 1, instead of Feb. 1, as in the case of the others.

Inasmuch as the offers will not be finally considered until Nov, 24, it is not likely that the principal bids will be submitted much before that date, inasmue as the holders will want the advantage of the latest information as to the state of the money market before finally deciding upon the terms of their bids.

The requirement in Secretary Carlisle's ircular that bidders should pay 20 per ent in gold coin or gold certificates imme diately on receipt of the notice of the ac eptance of their bids was explained by Assistant Secretary Curtis.

Several parties who made bids at the time of the last issue failed to make their bids good, while others who were not re garded as responsible made large bids, and when they were rejected made complaints of their treatment. Mr. Curtis said that the requirement in Tuesday's circular was to get rid of these classes

It is stated that bids have already been received at the treasury by telegraph, bu no attention was paid to them. All bids received by telegraph, or otherwise than sealed, will be treated as irregular, and no attention will be paid to them.

The Best Ever Issued. A New York dispatch says that great satisfaction was expressed in Wall street at the call for bids for \$50,000,000 United States 5 per cent bonds. John A. Stewart, president of the United States Trust company, said the circular asking for bids was the best ever issued by the government.
"It protects the government," said Mr.
Stewart, "at every possible point. There

is no doubt as to the success of the loan.

The bonds will all be taken and paid for in gold, and the government will not have to pay a cent more than 3 per cent for the The New York Times, in its Washington special, announces that the president has formulated a plan for currency reform

which he will submit to the country in his next annual message. The Times says: "Much of the currency now in use was created by war legislation, and much of the remainder is affected by fallacies growing out of conditions born during that period. The president is convinced that a system built when abnormal influences were at work became no more defensible when the effects of the war had been overcome than were tariff rates imposed during the same period of emergen-

"This conclusion has not been hastily eached. Its announcement will be made at this time, because it ought to be con idered when no other great subject presses upon the attention of the people With the silver craze quieted, tariff agi tation out of the way, the treasury gold ed, and general business activit nd confidence restored, the time is ripe the president thinks, to set another im

portant reform in motion.

"The intention of Mr. Cleveland is to lay before congress at its next session very full recommendations regarding the cur-rency. It will be remembered that he urged the study of this subject by a properly constituted body in his previous mes 8 30 10 15 (xx) 10 33 r

A NASHVILLE TRAGEDY.

Trouble Over a Debt Resulted In the Killing of a Chancellor. NASHVILLE, Nov. 15 .- George K. Whitworth, clerk of the chancery court, yesterday killed Andrew Allison, the chancellor of the court, and then shot himself in the breast twice with a pistol. He is still

alive, but is sinking rapidly. From men familiar with the transactions between the two it is learned that the cause of the tragedy was the failure of Allison to pay a large sum due Whitworth for money loaned, said to be about \$25,000. For some weeks efforts have been made

by Whitworth to secure a settlement, without success. Recently arbitrators were appointed. For some days they had been trying to bring about a satisfactory settlement, and yesterday Whitworth was informed that they could accomplish nothing. The shooting followed. Allison was about 50 years old, and had ust begun his second term of eight years,

having been to-elected in August last. George K. Whitworth was about 40 years PORT HURON, Mich., Nov. 15 .- Inquiries regarding the Canadian steamer Africa old. ## CRUSADE OF WOMEN

Has Developed Into an Organization of World-Wide Fame.

Most Favorable Auspices.

CLEVELAND, Nov. 16 .- The first day's session of the 21st birthday convention of the National Women's Christian Temperance union today reported receipts larger by \$5000 than any previous year. In addition o the regular receipts, they also report gifts in cash, notes and negotiable stocks to the amount of \$6800.

What with arrivals, decorating, sorting mail, housing delegates, establishing various headquarters, holding meetings of mmittees, Music hall and the Hollender hotel presented a combination of kaleido-

copic views all day long yesterday. The executive committee held a protracted meeting at noon in the Hollender parlors. Miss Willard presided. The dis cussion related wholly to the work of the convention, which begun today. The national vice presidents also held a meeting o provide for certain work in the conven-

Its headquarters are in Chicago, where it has a Woman's Tem-perance Publishing house that sends out about 135,000,000 pages annually and has

seven editors and 150 employes.

This publishing house is a stock con pany, and all its directors and stockholders are women, as is its business manager. The Union Signal is the organ of the society, and has an average circulation of 80,000. The cash receipts of the publishing house in 1891-92 were, in round num-

A Wonderful Growth. There are about 10,000 local unions with a membership and following, including the children's societies, of about half a lilinois, and the dedication of the new million. The Women's Christian Temperance union has 44 distinct departments of work, presided over by as many women experts in the National society, and in experts in the National society, and nearly every state. the sale of tobacco to minors. Most industrial homes for girls were secured through the efforts of this society, as vere the refuges for erring women. Laws raising the age of consent and providing for better protection for women and girls have been enacted by many legislatures through the influence of the department for the promotion of social purity, of which the president of the society has, until the present year, been superintendent. The world's W. C. T. U. was founded through the influence of the National society in 1883, and already has auxiliaries in more than 40 countries and provinces.
The white ribbon is the badge of all the
W. C. T. U. members, and is now a familiar emblem in every civilized country.

A great petition is being circulated in all parts of the world against legalizing the sale of opium and alcoholics. When 2,000,000 of names have been secured, this petition is to be presented to all the governments of the world by a commission of women appointed for that purpose.

Republican Candidates In Missouri Unearth Glaring Frauds.

TALLY SHEET WAS TINKERED UP

To Make Smooth Sailing For Two Democrats.

KANSAS CITY, Nov. 16 .- Absolute and | the glaring frauds perpetrated on the tally sheets used in the recent election were yesterday unearthed in the office of the recorder of votes. The fraud was discovered by W. T. Jamison, the Republican candidate for prosecuting attorney, who was elected on the face of the returns, but was counted out. The discovery was made in the presence of Recorder of Votes

Owsley, and admitted by that official.

The find verifies the allegations made by amison and Sloane, Republicans, that 29 cts. apiece. the offices of prosecuting attorney and bunty marshal, to which they were elected. were deliberately stolen from them and given to Bremmerman and Keshlear, Democrats. Great consternation was caused among politicians generally by the discovery, and startling developments may be expected within the next few days. Jamison, accompanied by his attorney C. E. Small, called on Recorder of Votes Owsley yesterday afternoon and made a formal demand on him to show them the tally sheets of the various precincts, the returns certified to by the judges and the sheet upon which they were copied, and which was used by Justices Shannan and

By looking at the judges' returns in the same way, both men were sure they could secure evidence that, by the figures, Jamison's and Brammerman's vote should have been altered. They stated that the fabrics of the paper had been injured, and that there can be no doubt but that the changes were made without even the use of chemicals. The secorder himself agreed with them that erasures and c' unges must have been made

Later in the day papers were filed by Jamison and Sloane in the circuit court, asking for a writ of mandamus to compel Recorder Owsley to show the tally sheets. The writ has not yet been granted.

Bremmermann and Keshlear, the Dem ocrats who were given the election in place of Jamison and Sloane, have offered to submit to a recount. This has been reassert that it is a scheme to trap them. They urge that if the returns could have been altered, the ballots could have been

WHAT A MISTAKE!

Mrs. Wilcox Suffered Years Thinking There Was No Relief.

[SPECIAL TO OUR LADY READERS.] One night in a terrible snowstorm a man walked in a circle till daylight because hethoughtthat he was lost. He had been stone's throw of his home. There is a

tramping all night within a woman in Philadelphia who lived for years in a daily circle of suffering, because she

thought there was no relief. Her suffering was caused by female

weakness in its worst forms. She had pain in her back and loins, great fatigue from walking, leucorrheea, local inflammation, and a frequent desire to urinate.

All this time relief was close at hand, and she had only to accept it with the same faith that has saved thousands of others. Every druggist had it.

Lydia E. Pinkham's Vegetable Com-

pound cured her of all weakness and disease, and she is now a different woman. This woman is Mrs. Walter Wilcox, of 736 West Street, who advises all women who suffer so from female weaknesses to try it and be cured. It cures kidney trouble in either sex, expels tumors, removes backache, and invigorates the system.

ON CONFEDERATE GRAVES

Flowers Were Placed by Beys In Blue Fren the Green Mountain State. RICHMOND, Nov. 16.-Fifty ladies and

gentlemen, hailing from Connecticut, arrived in Richmond last night, returning home from New-Berne; N. C., where they had been to dedicate a monument to the memory of the 100 or more members of the Fifteenth regiment, Connecticut volunteers, who perished in that city during the yellow fever epidemic of 1864, caring the civil war.

Upon reaching Richmond, the visitors, most of whom were survivors of the regiment named, were taken in tow by a number of Confederate veterans, and with members of these organizations will visit the historic points of interest about Richmond, especially the battlefields.

An incident in connection with the New-Berne unveiling was the donation by the ladies of that city of a profusion of flowers for the exercises and the disposition made of them by the Connecticut veterans. Half of the flowers were taken to the cemetery by the old federal soldiers and placed upon the graves of departed Confederates.

# ASSESSMENT RULING

Rescinded by Baseball Magnates Despite Westerners' Objections.

SINKING FUND TO BE CREATED.

Move to Prevent Rowdyism on the Ball Field.

NEW YORK, Nov. 16 .- After a session lasting four and a half hours, the National Baseball League convention decided to rescind the 10 per cent assessment rule. the assessment plan.

Together with the abolition of the assessment rule, it was decided that each club competing in a championship game shall draw 50 per cent of the net receipts of such game. It is said that but for the dire effects which were foreshadowed as to the future of the League that the western clubs would not have submitted. It is an open secret that the abolition was eventually carried by a vote of only 7 to 5. Among the minutes was the record of President Young's re-election to the presi

dency for the three years next ensuing. The following magnates were elected members of the board of directors: J. T. Brush, Cincinnati; J. A. Hart, Chicago; Chris von der Ahe, St. Louis; C. H. Byrne, Brooklyn; A. H. Soden, Boston, and H. R. Vonderhorst, Baltimore. They represent three eastern and three western clubs and were elected by ballot.

The national board, consisting of A. H. Soden, C. H. Byrne and President Young, The resolution abolishing the 10 per cent assessment also abolished section 49 of the rules, under which it was provided that 10 per cent of the receipts of each championship game should be forwarded to Washington to pay the expenses of th

officials and to form a sinking fund of Looking After the Finances. The following addition is made to sec tion 48: "At the close of each championship game, the home club shall hand over

to the manager of such club a statement (and shall transmit by mall to the president or such other designated official of the said club a duplicate of same) of the receipts of said game, which must include all 50 cent and 25 cent admissions, and shall pay to such club 50 per cent of said

In the place of section 49, a new section is added, as follows: "Out of the funds of the League, now in the hands of the treasurer, he shall create a sinking fund of \$12,000, which shall be invested in government bonds, and all other funds shall be placed in the treasury to meet current expenses." This disposes of the 10 per cent assessment.

Delegates Robinson, Hanlon and Hart were appointed a committee on rules to report all amendments suggested by them to the spring meeting.

The following resolution was passed: "That the committee on rules are instructed to report to the spring incomes such amendments as may be necessary to compel the umpire to enforce the playing livered free to any part of Quincy. Satistics particularly those prohibiting noisy incomes particularly those prohibiting noisy income and the properties of the playing incomes and the playing inco structed to report to the spring meeting its ingredients are purely those sup-

The treasurer, Mrs. Barker of South Dakota, was appointed chairman of the finance committee. After the singing of a hymn, Miss Willard stepped to the front of the platform and began the delivery of her annual address, in the course of which she referred to the non-partisan Woman's Christian Temperance union, and sent it greetings with the wish that the two great bodies may come together. This expression was endorsed by the convention with hearty applause. Again, when Miss Willard spoke of the denouncement of a Breckinridge and the dethronement of a Tammany tiger, the applause was tre-

a few weeks ago, lived in the same house. Then Mrs. Whitford had trouble with her husband and had him arrested for nonsupport. The case was not prosecuted and Whitford was released. His wife and her sister then induced him to return. Then Strait and his wife quarrelled and separated only to soon bury their differences and again resumed marital relations

About three weeks ago they again fell out. Strait tried in vain to regain the good will of his wife, but failed. day afternoon he saw his wife and sister-in-law in the business section, shopping. He followed them toward their home and, when nearing the house where they lived, Strait caught up with the women. The first intimation they had of his approach was when he began shooting, the first shot being at Mrs. Whitford. His wife wheeled about and he fired three bullets into her. When one revolver was emptied, he produced another and fired

three bullets into his left side. In all he fired 10 shots, and then calmly seated himself on a horse block. He and his victims were helped into the house. To the police Strait said: "I am sorry it has happened, but they drove me to it." Strait and his wife are dead, but his sister-in-law may recover.

He is Brought Forward as a Republican Candidate

FOR MAYORALTY OF THE CITY.

Auditor Hall and Councilmen Moxon and Johnson Still in the Field.

The latest in the Republican Mayoralty contest is the presentation of the name of Councilman Bass. His great popularity was shown at the Ward One Republican caucus the other night and his friends believe he would make a strong candidate. Mr. Bass is one of the strongest candi-

dates yet brought forward. He has filled with honor and good judgment the chair for the past two years and in asking for higher political honors simply follows the precedent established by his distinguished predecessors. At the same time Auditor Hall's boom

has received impetus from his announcement that it is his intention not to continue in the office of City Auditor after the expiration of the present term. The prospects of his success at the convention have Mr. Bagley's brother-in-law. brightened every day since the withdrawal of ex-Councilman Thompson.

It is believed that Councilman Moxon is the favorite in Wards Five and Six and that he will draw delegates from each of the other wards. Atlantic would give Mr. Moxon a rousing vote if the nominee, and officials now imprisoned at Plymouth will regrets that it is not larger that it might be pardoned as District Attorney Harris have more delegates in the convention. Councilman Johnson quietly nipped the

# A BRIGHTER OUTLOOK

Business Surely Lifting Itself Out of the Rut of Depression.

A REVIEW OF THE INDUSTRIES.

Bradstreet's Report on the Canadian Situation.

NEW YORK, Nov. 17.-R. G. Dun & Co.'s Weekly Review of Trade says today: In nearly all branches of business gradual improvement appears, and the hopeful feeling observed last week continues. Then it was also noted that the main conditions of business and trade had not suddenly changed, and this becomes clearer, to the disappointment of some.

Low farm products, low wages, and only

partial employment of labor, still retard distribution, and the limited demand hinders the recovery of industries. Progess toward recovery has not ceased, and many establishments have resumed or Squantum would be annexed to Boston, added to their producing force, some also advancing wages, but it will take time to lift business out of its depression, and the progress made, if less than the sanguine expected, is at least encouraging.
The decision to offer \$50,000,000 bonds

for replenishment of the treasury reserve was, by bankers, generally approved, but events are showing that restoration of pulidence cannot by itself remove all emarrassments.

The Manufacturing Industries. Resumption of work and increase of working time have been more conspicuous n the cotton industry than in others, but no increased demand for goods appears.

Few shoe concerns have stopped or resumed, but shipments from Boston in two weeks have been 151,361 cases, against 112,681 last year and 130,549 in 1892. ders for the cheapest goods have multiplied so that most producers of such goods are occupied, but better grades are still neglected. Leather manufacturers hold that they cannot sell more cheaply as

hides are at present. For finished products of iron the mand is on the whole narrower, so that structural beams are lower; the barbed wire combination has broken; the strife in nails continues at the lowest prices heretofore named, and both gray forge and bes-semer are a shade lower at Pittsburg. At

Manufacturers of winter woolens have good orders for this time in the year, there is a general failure of supplemental orders for spring goods. In kersey cloak ings there is a prospect of a good season, and the retail trade in carpets has been en couraging, but sales of wool are again smaller than last year. Wheat and Corn.

Western wheat receipts in two weeks of November have been 7,871,671 bushels, against 12,166,830 last year, but Atlantio exports in two weeks have been only 1,less than half of last year's, with exports insignificant.

### TODAY'S COURT.

John Cronin of Weymouth was arraigned for disturbing the peace. He pleaded not guilty, and while his trial was progressing he got impertinent and the court committed him to the Quincy lockup until Monday morning for contempt. Later the court withdrew the sentence for contempt and found him guilty of disturbing the peace and sent him to the House of Correct tion for three months.

Michael Holden, Frank G. Sheppard and Dennis Shea were arraigned for keeping a common nuisance at Randolph. Sheppard and Shea pleaded guilty and Holden not guilty. The case against Holden and Shea was continued until Dec. 1, and the case against Sheppard until Nov. 28.

Thomas Moore, Jr., of Randolph was arraigned for discharging a gun at a car of the Brockton street railway. The evidence showed that the shooting was done by one John McGatty, and Moore was therefore discharged.

John Cassanagh was fined \$60 for the illegal sale of intoxicating liquor at Quiney, Appealed.

### NOTICE TO INVENTORS.

THERE Was never a time in the history of our country when the demand for inventions and improvements in ne arts and sciences generally was so great as now. The conveniences of man-kind in the factory and work-shop, the household, on the farm, and in official life, require continual accessions to the appurtances and implements of each in order to save labor, time and expense. The political change in the administration of government does not affect the progress of the American inventor, who, being on the alert, and ready to perceive the existing deficiences, does not permit the affairs of government to deter him from quickly conceiving the remedy to overcome existing discrepancies. Too great care cannot be exercised in choosing a competent and kilful attorney to prepare and prosecute an application for patent. Valuable interests have

been lost and destroyed in innumerable instances by the employment of incompetent counsel, and especially is this advice applicable to those who adopt the "No patent, no pay" system. Inventors who intrust their business to this class of attorneys do so at imminent risk, as the breadth and streamly expendit. imminent risk, as the breadth and strength of the patent is never considered in view of a quick endeavor to get an allowance and obtain the following the property of the prop duck endeavor to get an allowance and obtain the fee then due. An Armenian's Story of Awful Doings In Africa.

LONDON, Nov. 17.-The chairman of the Armenian Patriotic association, G. Hagoplan, has sent the following letter, reeived from an Armenian, whose name is not given, because it would jeopardize his life, to the Earl of Kimberly, the secretary of state for foreign affairs. The letter is accompanied by one from Hagopian, in which he says:

"I have no reason to doubt the authen-ticity of the details. They will be borne out by fuller official reports which have been, or which will soon be, received from the British agents in Armenia. The events reported are but re-enactments of the Bulgarian atrocities, with all their most sickening details of flendish lust and atrocious cruelty on unarmed Christians, and defenceless, innocent women and children, deliberately planned and ruthessly executed under orders received from headquarters at Constantinople." Hagopian concludes with appealing

that the time has come to abolish in toto the existing administration of Armenia. The letter of the Armenian previously referred to is dated Bitlis, Oct. 9, and commences by saving that the chief magnate sppears to be a second Nero, and connues: "The so-called rebellion of the Armenians in 1893 was a got up affair for the repression of which the chief magnate got a decoration.

### Started by Kurds.

"This year the Kurds carried off Armenian oxen, and the Armenians' appeal for their restoration was refused. A fight ensued. Two Kurds were killed and three were wounded. The Kurds immediately carried their dead before the governor, declaring that the Armenian soldiers had overrun the land, killing and plundering the Kurds.

"This furnished a pretext for massing the troops from far and near. The troops were commanded by a pasha and a marshal and were hurried to the district. The pasha is said to have hung from his breast, after reading it to his soldiers, an order from Constantinople to cut the Armenians up root and branch, and aduring them to do so if they loved their ing and government.

"Nearly all these things were related here and there by soldiers who took part in the horrible carnage. Some of them weeping claim that the Kurds did more, and declare that they only obeyed the or- Berries. ders of others. It is said that 100 fell to each of them to dispose of. No compas-sion was shown to age or sex, even by the regular soldiery, not even when the vic-tims fell suppliant at their feet. 'Six to ten thousand persons met such a

e as even the darkest ages of Africa rdly witnessed, for there women and tenc babies might at least have had a ance of a life of slavery, while here manhood and innocence were but a mockers before the cruel lust that ended its debauch by stabbing women to death with the bayonet, while tender babies were impaled with the same weepon on their dead mothers' breasts, or perhaps seized by the hair to have their heads lopped off with the sword.

Terrible Outrages. "In one place, 300 or 400 women, after being forced to serve vile purposes by the nerciless soldiery, were hacked to pieces by sword and bayonet in the valley below. "In another place some 200 weeping and walling women begged for compassion, falling at the commander's feet, but the blood-thirsty wretch, after ordering their

violation, directed his soldiers to dispatch them in a similar way. "In another place some 60 young brides and the more attractive girls were crowded into a church, and, after violation, were slaughtered, and human gore was seen

flowing from the church door. "In another place still, a large company under the lead of their priest fell down before them, begging for compassion and averring that they had nothing to do with the culprits. But all to no purpose.

"But why prolong the sickening tale? There must be a God in heaven who will do right in all these matters, or some of us would lose faith.

"One or more consuls have been or dered that way to investigate the matter. If the Christians, instead of the Turks, reported these things, the case would be different, but now we are compelled to be lieve most of it.

"The magnates are having papers cir-culated and are trying to compel the Christians to sign them, expressing satisfaction that justice has been dealt to the rebels and thanking the king and the chief magnate himself.

"The circulars have not yet been offered to Protestants, and as yet the Protestants have not been thrust into chains or blackmailed very much, though lately things are becoming to look that way."

### FITZSIMMONS' SURPRISES.

Knocked Out His Sparring Partner and Got a Knockdown Himself

SYRACUSE, Nov. 17 .- Robert Fitzsimnons knocked out Con Riordan, his sparring partner, last night in the first round In the set-to which closes the perfermance of his vaudeville show. The blow was a right-hander and caught Riordan square on the chin. The accident occurred at 10:30 o'clock, and two physicians worked over him with applications of electricity. At 12:30 o'clock he was finally brought to. It was stated that Riordan was not sober when he came on the stage for the set-to.

Immediately after the Riordan incident, oseph Dunfee, a local sparrer, put on the gloves for a two-round set-to with Fitzsimmons. In the second round Dunfee landed a right-hand swing on Fitzsimmons' jaw, resulting in a clean knockdown, the first Fitzsimmons declares he ever was given. He was so dazed when he regained his feet that he could not see Dunfee's hands when they were extended at the call of time. Fitzsimmons was arrested shortly after

midnight. Physicians attending Reordan say there is grave doubts of his recovery. Close of the Episcopal Congress. BOSTON, Nov. 17.-The seating capacity

Burrows Will Probably Be Chairman of Ways and Means Committee.

MAKE-UP OF OTHER COMMITTEES

Follow the Seniority Rule.

WASHINGTON, Nov. 19.—The house committees which are expected to be of the most importance in the next congress are those on the ways and means, appropriations, rules, banking and currency, coinage, weights and measures, rivers and harbors and public buildings and grounds. The first three named always head the list in order of importance. The others are next congress because of the especial conditions which will prevail during that

The banking committee will certainly be one of the most important committees in the entire list, if there should be an effort, as is hinted there may be, to revise the currency laws and change the

present system. The Republicans at present have 6 of the 17 members of the committee on rivers and harbors, and all their members have been re-elected, except Mr. Henderson of Illinois. With Mr. Henderson out of the way, Hermann of Oregon takes first place in the Republican membership of the committee, with Stephenson of Michigan, Hooker of New York, Grosvenor of Ohio and Reyburn of Pennsylvania following in the order named. It cannot, of course, be known whether the next speaker will follow the seniority rule. If he should, Mr. Hermann would become chairman.

A Place For Milliken. Mr. Milliken of Maine heads the Repub-

lican membership of the committee on public buildings, and the chances are that, if Mr. Reed becomes speaker, Mr. Milliken will be chairman of this committee. Mr. Morse of Massachusetts is the only other Republican member of the committee re-Only three of the old Republican mem-

pers of the committee on banking and irrency are re-elected. They are Messrs. Walker of Massachusett, Russell of Con-necticut and Johnson of Indiana, Mr. Walker is the senior Republican member. He has from the beginning of his congressional career taken an active interest in financial questions, and his chances of securing the chairmanship would be the

Of the six present Republican members tures five have been re-elected to the Fifty-fourth congress. They are in the order named: Stone of Pennsylvania, Johnson of North Dakota, Dirg ev of Maine, Hager of Iowa and Aldrich of Illinois. Mr. Stone would naturally become chairman of the committee, but it is suggested that, in case of Mr. Reed becoming speaker, he might have a personal policy with reference to silver which he would want to oursue, and in that event might want Mr. Dingley of his own state as the leader of

It is possible that neither Cannon nor Henderson will get the place, for in the event of Burrows becoming the chairman of the ways and means committee, the probabilities are strong that the east would demand the chairmanship of the next most important, which would be that of appropriations. tee would be excellent. If Mr. Reed becomes speaker of the house, the Republican membership of the committee on rules will probably be composed of himself and the chairman of the appropriations and ways and means committees. He pursued this plan in the Fifty-first congress, and there is reason to believe that he would revive it rather than Provided Mr. Reed Should imitate Mr. Crisp by more generally distributing the honors.

It would seem that a general Democratic conference among the party members in the senate is among the strong probabilities soon after the convening of the next session, for the purpose of

determining this point.

It is well remembered that there is a faction on the Democratic side of the chamber which is opposed to any further efforts at tariff legislation by the present congress, and it is thought possible that the result of the late elections may have influenced others to take this view. Senator Voorhees, chairman of the senate committee on finance, declines to talk for publication on all subjects connected with congress or politics.

Earthquakes Have Wrought Terrible Havoc In Portions of Italy.

PEOPLE CAMPING IN THE OPEN AIR

Nearly Four Score Deaths Have Been Reported.

Rome, Nov. 19 .- The earthquakes in Sicily and southern Italy caused considerable damage to the telegraph lines, and details of the phenomena are coming to hand slowly. It is known, however, that the province of Reggio di Calabria suf-fered the severest damage by the seismic disturbances. Little damage was done in Reggio, the capital of the province, but there were great loss of life and much

damage to property elsewhere. Seventeen communes were involved in the disturbance, the centers of which were in the vicinity of Palmi, 21 miles northwes of Reggio and Bagnara, on the Gulf of Gioja, almost directly opposite Punta del Faro, Sicily. The village of San Procopio near Palmi, was almost entirely destroyed Here six persons were killed. At Bagnara, seven persons were killed. Six lost their lives at Mamertino and San Eufemia, being crushed to death, while many others were injured.

The inhabitants of these places are bliged to camp in the open air.

Government Acts Promptly. Prime Minister Crispi has sent a large sum of money for the relief of the suffer ers, and has placed two vessels at the disosal of the prefect of Bagnara.

In the Calabrina towns of Triparni and Mileto many houses were destroyed and a number of persons injured. Much damage was done in the adjacent province of Catanzaro.

The residents of Messina were in a condition of panic Saturday night. They were in great fear of a renewal of the shocks, and passed the night camped out in the squares of the city, in the railway carriages and on board vessels in the harbor. The panic has now lessened, and in some instances the work of repairing damaged buildings has already commenced. Large electric lights have been erected to illuminate the channel until the light-

house destroyed by the earthquakes be Renewed shocks were felt Saturday and yesterday at Milazzo, 18 miles west of Messina. So severe were the movements of the earth that great seams appeared in

the walls of many houses. The inhabitants of this place are still badly frightened, and remain camped in the open spaces, fearing to return to their Ne further shocks have been reported from other places.

NOTICE TO INVENTORS.

THERE Was never a time in the history

of our country when the demand for inventions and improvements in ne arts and sciences generally was so great as now. The

conveniences of man-kind in the factory and work-shop, the household, on the farm, and in official life, require continual accessions to

crepancies. Too great care cannot be exercised in choosing a competent and skilful attorney to prepare and prosecute an application for patent. Valuable interests have been lost and destroyed in innumerable instances by the employment of incompetent counsel, and especially is this advice applicable to those who adont the "No patent

cable to those who adopt the "No patent, no pay" system. Inventors who intrust their business to this class of attorneys do so at imminent risk, as the breadth and strength

of the patent is never considered in view of a quick endeavor to get an allowance and ob-tain the fee then due. THE PRESS CLAIMS COMPANY, John Wedderburn, General Manager, 618 F street, N. W.,

VIENNA, Nov. 19.-A letter has been received from Smyrna reporting that Zeki Pasha, a Turkish marshal, with a detachment of Nizams and a field battery, massacred 2000 Armenians at Sassun. The bodies of the dead were left unburied and their presence has caused an outbreak of cholera. Many Christians are reported to have fled by secret paths across the Rus-

sian frontier.

So far there has been no official con firmation of this news, but, if it is true, it time the powers share in the responsi oility by their failure to enforce article 61 of the Berlin treaty, which imposes on them the duty of seeing that the porte takes measures to protect Armenians. The latter declare that they hope for nothing from Europe, but that they still

Have Confidence In Great Britain. Numerous appeals have been made the Armenians to the British foreign officers. The last appeal says that the Ar menians do not wish to see more of their territory annexed to Russia, but if Great Britain is unable to help them they will be compelled to look to Russia, under whose yoke they would be better off than

under the yoke of Turkey.

A dispatch from Constantinople says, ir esponse to the protest made by Sir Philip Currie, British ambassador to Turkey, th porte has unreservedly withdrawn the charge against Mr. Hallward, British onsul at Van, of inciting the Armenian

at Sassun and elsewhere to revolt. The charge grew out of the investiga-tion made by Mr. Hallward into the Armenian massacres and his report to the British ambassador. The governor of Bitlis, who is seriously involved in the outrage, made the charge, it is said, for

the purpose of revenge.

INSURANCE SWINDLING.

An Investigation Leads to the Belief That

Pitzel Was Murdered. PHILADELPHIA, Nov. 19.—The prevailing impression in this city regarding the gigantic insurance swindle, which resulted in the arrest in Boston of Herman Mudge, otherwise known as H. H. Holmes and variety of other aliases, is that the corpse found in the Callowhill street house, and upon which the \$10,000 was obtained, was not a bogus corpse, but was in reality that of the beneficiary, B. E. Pitzel, and that

he was murdered. Superintendent of Police Linden and the coroner think that the confession made by Holmes, detailing the conspiracy was a mere ruse. Mrs. Pitzel, wife of the

victim, will be arrested. A thorough investigation has been mad in this city, and has raised strong doubt as to the truth of Holmes' story of the manner in which the conspirators got th body. Not the slightest clew to show that it was brought here in a trunk has been

# FOR INVENTIONS.

Equal with the interest of those having claims against the government is that of INVENTORS, who often lose the benefit of valuable inventions because of the incompetency or inattention of the attorneys employed to obtain their patents. Too much care cannot be exercised in employing competent and reliable solicitors to procure patents, for the value of a patent depends greatly, if not entirely, upon the care and skill of the attorney.

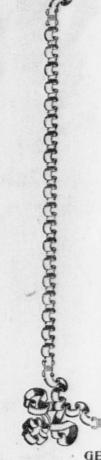

With the view of protecting inventors from worthless or careless attorneys, and of seeing that inventors from worthless or careless attorneys.

and of seeing that inventions are well protected by valid patents, we have retained counsel expert in patent practice, and therefore are prepared to Obtain Patents in the United States and all Foreign Countries, Conduct Interferences, Make Special Examinations, Prosecute Rejected Cases, Register Trade-Marks and Copyrights, Render Opinions as to

### FRANK FISHER PRESCOTT,

One of the new publishers of the DAILY LEDGER and QUINCY PATRIOT, entered the office of the latter in 1877, shortly after being graduated from the Quincy High school in the famous F. F. F. class, and with the exception of a few months has been connected with all the branches, having entered as an apprentice.

When the Ledger was established in 1888 he became city editor, and much of the success of "the only daily in the only city in Norfolk County" is due to his untiring efforts. He is a member of Rural lodge, F. & A. M.; a past grand of Mt. Wollaston lodge, I. O. O. F.; a past high priest of Shalom encampment, I. O. O. F.; a member of Bernice lodge, D. R., and at present vice president of the association of the alumni of the Quincy High school. Born in Quincy in 1860, he is acquainted with most of the residents and familiar with the history and progress of the town and city. He resides at No. 14 Bigelow street, and has three interesting sons, so that the prospect is that for many years to come the name of Prescott will be associated with Quincy newspapers.

# KIND WORDS.

While the Dissolution was pending many kind words were received, and the following was sent for publication. In justice to his partner, the junior member suppressed it, and it is now published for the first time:

"It would be a matter of serious regret to those who have taken the PATRIOT for scores of years, if the control of it should pass into other hands. While the names of Green & Prescott have been associated with its management, its prosperity has been due, in a very large degree, to the last named family, and most every citizen is aware of the untiring efforts of father and son in collecting the news and giving it to the people in type and on paper not excelled by any newspaper and equalled by but few. To those who have occasion to read the average county weeklies with their miserable paper and equally miserable print, the perusal of the paper and equality when compared with the others. The refusal of the court to oblige its sale at auction, will meet with general approval, and the public will desire it to remain in the hands and under the guidance of those who have made it a success."

### SOCIAL PROBLEMS.

Paper on This Subject Discussed by the Literary Society.

The Quincy Literary Society held its weekly meeting in Doble's hall on the evening of Nov. 16, the president Dr. R. McLennan in the chair.

The regular business scheduled on the syllabus was of a reading nature, but as one of the important contributions to "the the principal feature of the evening.

The paper, which was entitled "Social Problems" offered infinite scope for discussion. Without attempting to minutely consider any of the social questions touched upon, the writer condenses an enormous amount of material into small

The effect of trade unionism upon labor difficulties, the relative merits of socialists and anarchistic tendencies, free trade or protection, the immigration outlook, the ethical tenets of political economy, were all more or less effectively treated.

The history of all labor troubles has proved, it said, that political economists have done nothing for the working class except through the formula of the heartless law of supply and demand. Before the passage of extreme protection, we had no idea that our neighbors were enemies but only a part of the present collective system. Witness however the petition sent around lately to prevent stone being taken from Braintree to decorate our High school, and the still more recent illustration in New own borders. JEALOUS.

Mr. D. Bashford cherished high ideas of men, as opposed to women, and had exalted notions of the husband's dominion over his household.

Mr. Bashford had forbidden his wife attending the masquerade of the A. Z. A. society. He had his reasons for so doing, but his wife thought he might have made known his wishes in a little less imperiou. : Lanner than he chose to adopt.

The hall was set down for the evening | coughed in a peculiar manner. The of the 29th. His attention was suddenly arrested by a young woman with a large bundle, the waist, thrust his hand under her ascending the front steps of his house mask and pressed it over her mouth, and and ringing the doorbell.

His perplexity was increased when the door was opened cautiously, the young woman admitted promptly, as if by a her in the carriage, stepping in after previous understanding, and the door her. instantly closed again.

Mr. Bashford's curiosity and suspicion were aroused. Should he linger and solve the mystery or dismiss it from his mind and go on about his business? He debated the question irresolutely for a moment and finally decided that he must know what was going on in his own house.

He had not long to wait. The young woman soon reappeared, but without the bundle, and walked briskly down the street.

She led him to one of the busiest and

gayest streets and finally turned quickly into a celebrated costumer's establishment! Mr. Bashford was astonished. Could

it be that his wife was venturesome enough to disobey him and had hired a confused. He wanted to impress her costume with a view of attending the He did not linger long in meditation.

His wife's audacity must receive a severe rebuke. The proprietor was a woman. He accosted her thus:

"Madam, would you object to making \$5 in as many minutes?" The person addressed intimating that she would have no objection to that sort | the middle of the room stood-her arms

"Yes-just so," said Mr. Bashford. "The one that the young woman left at lady, and he now nearly dropped her. 54 -- street has a scarlet hood, has

"Yes. sir." "Very well. Here are your \$5."

He made no allusion when he went home to his 5 o'clock dinner to the circumstances just related. He simply said to his wife before leaving, wondering that the American currency system is to the while at her innocent and unconstrained demeanor:

"As I told you would probably be the case, Louise, I shall be detained down town by business tonight until late." "Oh, dear, I am sorry! It is so lonesome these long evenings when you are

obliged to be away."

The "business" which was to detain rors!" him was of a somewhat startling character. After spending a short time at his office he proceeded to a costumer's establishment and placed himself in the hands of an artist, who, after a long

and tedious process, transformed him This done, he ordered a carriage and gave directions to be driven to the place where the masquerade was to be held.

Mr. Bashford seemed to create quite a sensation in his character of Indian chief. Many stared at him, and some of

the women shuddered. He did not dance at first, but walked with stately tread around the hall, gazing disdainfully on the giddy throng. He was searching for a Turkish lady

with a scarlet hood. It was some time before he found what he sought for. But at last he stopped suddenly, and his gaze lingered in a particular quarter. There was the Turkish lady with the scarlet hood, and her size and general contour were exactly those of his wife. There could be no

"Pooty squaw," he said in a guttural tone. "Noble Injun!" she replied.

"Squaw dances?"

And they took their places on the floor for one of the quadrilles.

After this ensued what appeared to lookers on a scene of desperate flirtation, but in Mr. Bashford's mind there was, of course, no harm in thus paying exclusive attention to his own wife, though a pang shot through his breast at the thought of her accepting such marked demonstrations from one who to all intents and purposes was a stran-

tired, and almost immediately returned with this list of names:-Samuel E. Blanchard, George W. Brown and Edward J. Cummings.

There is one peculiarity about this list. and that is the appearance of Mr. Blanchard's name. He appeared at the Republican caucus and his name was placed on the nomination papers as a Republican candidate for the council last Thursday day evening, but he was defeated. Last evening his name appeared as a Democratic candidate and he received the unanimous nomination. The Republicans claim that he is pushed forward by Wood. Harmon & Co. to look after their interests.

From his being defeated at one caucus and within four days turning up at another as a candidate for the same office it looks as if the claim of the Republicans was true. It is apparently the purpose of Wood, Harmon & Co., and the Democrats to unite on Mr. Blanchard and defeat one of the Republican candidates. It cannot be done. It is said that Wood, Harmon & Co. have openly boasted that they had reconstructed more than one city government and proposed to do the same with this one. The Republicans will make a hot fight for their men.

Mr. Sylvester Brown's nomination by the Republicans for member of the school committee for three years was confirmed. The members of the ward and city com-

mittee are as follows: Charles T. Baker, Watson H. Brasee, George W. Brown, William B. Orcutt, F. J. Lavery, John F. Neill, Martin F. Burns, W. B. Simmons, Benj. Sargent.

ical Contest.

The following letter is self-explanatory. F. F. Green, Esq., Chairman Ward Committee of Ward One,

DEAR SIR: - I notice by the report of the caucus that you have nominated me as would plead guilty of murder in the s your candidate for school committee from ond degree, but his pleading guilty this ward.

For the honor conferred I thank you, for tions more honorable or responsible than the oversight of our public schools. Yet in honesty I feel that I must decline the

Under the misapprehension that a successor to Dr. Gordon was to be balloted for my name was presented to the Republican caucus and in that caucus I received some votes. The gentleman who proposed my name did it knowing that my party affiliation were with the Democrats. I told him that I did not think it proper to support a man because he was of one or the other and gave three cheers that the battle v opposing parties, that in my judgment fitness for the position should be the only criterion, and that politics should never be a consideration in the school committee. I think so now, and for that reason must decline to be a candidate against the present incumbent concerning whose fitness I have never heard a question.

It was currently reported that Dr. Gordon would decline a nomination. In that case I felt that my practical experience of twelve years in teaching might be made of some use to the citizens of Quincy and on the ground of experience in school work and special interest from having children in the public schools I asked that both conventions would consider my name when a new candidate was to be proposed. I should be glad to be on the School Board, but to be elected to that or any other office by shading my opinions already made public would be too great a cost.

Respectfully, H. C. HALLOWELL.

THREE ARRESTS MADE

Connection With the Pitzel-Holmes Howe Insurance Company.

PHILADELPHIA, Nov. 20.—The grand jury late yesterday afternoon found a true bill against Mudgett, allas H. H. Holms now on the way from Boston; Jeptha B. Howe, the St. Louis lawyer, who collected the insurance money on B. F. Pitzel's policy for the latter's widow, and the widow herself. The indictment reads for conspiracy to cheat and defraud.

The detectives have practically abandoned the murder theory, and now think they are on the track of Pitzel in the p son of a man calling himself B. F. L man, whose whereabouts they refuse to divulge.

They stated last night that Mrs. Pitzi had made a confession substantially same as that of Holmes, except that sh believes her husband to be America. She has not seen him since th alleged crime was committed.

A dispatch from St. Louis says: Howe, an attorney having an the law firm of McDonald & Ho city, was arrested yesterday on of conspiring with one H. # RULE OR RUIN POLICY

Decided Upon by the Radical Silverites of the Western States.

REPUBLICAN PARTY THREATENED.

Must Declare For Unqualified Free Coinage of Silver.

MINNEAPOLIS, Nov. 20.—The Gary (S. D.) orrespondent of The Journal wires as follows: It would scarcely be expected that information revealing a great national conspiracy to rule or ruin the Republican party should be found in this unimportant village. Nevertheless, my information is so decisive, as well as thoroughly authentic, that I have no doubt of the truth of what I have to tell. My informant is a gentleman of veracity, who is acting as amanuensis to one of the leaders in the movement. In brief, the story he tells is this:

For several months an understanding has existed among the leading men of the silver states that an emphatic demand shall be made that the Republican platform of 1896 shall contain an unequivocal decision in favor of unqualified free coinage of silver, and that in the event of failure of the Republicans to so declare, a new party movement forthwith will be sprung with a two-plank platform, declarng simply for

Protection and Free Coinage.

The management of the movement is argely in the hands of Senators Jones, Stewart and Pettigrew, and they are look ing to Senator Cameron as a presidential candidate in the event of the birth of the new party. The results of the recent election have given the leaders renewed confidence, as they now believe they will be able to absorb the remnants of the Populists and secure by the protection plank the adhesion vote.

Thus they hope to centralize the silver strength and much of the labor vote of the country. My informant is positive in the declaration that the Republican party will be forced either to adopt the silver plank or be destroyed, and this intention to rule or ruin is a fundamental tenet of the movement It is even said that Senator Cameron has already consented to

Cameron's Friends Say No. WASHINGTON, Nov. 20.-The renewed re-

ports that Senator Cameron has given his consent to be the presidential candidate of a protection and free silver party meets with an emphatic denial from close and intimate friends of the senator here, who are in a position to speak with authority.

The senator has received a number of letters of late from enthusiastic silver men who assure him that they "are with you for '96." These letters have received the same formal acknowledgment given all letters received by the senator. Further than that, however, there has been no correspondence which contemplated the use of the senator's name at the head of an independent silver movement.

Mr. Cameron said recently that while he was for silver he was none the less a Republican, and it was as a Republican that he hoped to see the white metal suitably recognized.

## FOR INVENTIONS.

Equal with the interest of those having claims against the government is that of INVENTORS, who often lose the benefit of valuable inventions because of the incompetency or inattention of the attorneys employed to obtain their patents. Too much care cannot be exercised in employing competent and reli-

able solicitors to procure patents, for the value of a patent depends greatly, if not entirely, upon the care and skill of the attorney.

With the view of protecting inventors from worthless or careless attorneys, and of seeing that inventions are well protected by valid patents, we have retained counsel expert in patent practice, and therefore are prepared to

Obtain Patents in the United States and all Foreign Countries, Conduct Interferences, Make Special Examinations, Prosecute Rejected Cases, Register Trade-Marks and Copyrights, Render Opinions as to

Scope and Validity of Patents, Prosecute and Defend Infringement Suits, Etc., Etc. He said he was raised in Burlington, Vt., and so well educated in school there at 15 years he was teaching. For some time afterward he went to college there and later in Detroit. Here he formed the acquaintance of a medical student who, he farms to raise their college expenses, but out means, and it was then that the medical man suggested the idea of getting a

or \$20,000. He went to a hotel in Rhode Island. At that time he wore a beard. He secured a corpse in Chicago, cut off the head and took the body to a lonely spot not far from the hotel. Then he shaved off his beard, returned to the hotel, asked for Holmes and engaged a room to wait for him. He had brought the head with him and burned it beyond recognition in the fireplace of the hotel. The scheme, however, fell through, the mother of his wife, when she discovered it, threatening to tell the police, and Holmes fled to the

Murder Figures In the Case.

Resuming his story, Holmes said that while living in Chlcago, about 18 months ago, he fell in with a typewriter girl and furnished a house on the outskirts, where they lived together. A younger sister came to visit them, and the elder girl became so jealous of her that in a quarrel one day she struck her over the head with a stool and killed her. To save the woman with whom he was living, Holmes said he put the body in a trunk, loaded it

with stones and sunk it in the lake. This girl had property in Texas, and he and Pitzel took it off her hands and sent her abroad. It was worth, he said, \$40,-000, and after getting it in their hands, they went through Texas buying carloads of horses on notes on this property. The notes were worthless, and it is for this affair they are wanted in Fort Worth. To save this property, Holmes said, he and Pitzel formed the scheme of swindling the Fidelity company. He told the detective that for the crimes he has committed he leservés to be hanged a dozen times. Holmes is not lacking for money, as he

himself said that at the present time he is supporting nearly two dozen persons, including the girl murderess, her mother and imbecile brother, two orphans in

supporting that yet wo dozen persons, in cluding the girl murderess, her mother and imbecile brother, two orphans in Chicago who live in one of his properties, three separate alleged wives and their children, and his own mother and father in Kankakee. He would not give the names of the women. He firmly maintains that Pitzel is alive in San Salvador, and that he will hear from him through the personal column of a certain New York newspaper.

Mrs. Pitzel Is Innocent.

A telegram was received by President Fouse of the Fidelity company, to the effect that Howe, the St. Louis lawyer, was en route to this city with McDonald, in the capacity of his "adviser."

Mr. Perry related in detail the story of Holmes' arrest in Boston and the manner in which Mrs. Pitzel was decoyed from Burlington. Mrs. Pitzel, he continued, was perfectly innocent of any compilety in the whole affair. She had been forced, through ignorance and pressure of various kinds, to sign certain papers, but she told Perry that she had received only \$500 in cash. She said Holmes had taken \$5000 of the money and put it in a land speculation in Fort Worth, in which Pitzel was also interested. Holmes told Perry that this was true.

Perry said Holmes operated under the name of H. M. Pratt. He added that Perry, B F, Pitzel and B. T. Lyman are one and the same man. Mr. Perry furthers, and that Holmes is said to have one wife in New Hampshire, from whom he claims to have been divorced, and by whom he

I shall not vote for a Republican unless he is for the removal of the present Commissioner of Public Works. I have rode over bad roads enough this year Mayor Hodges has done some things well, but men with "infloonce" had been put in office by him every time. I want a Commissioner at his office evenings, and attending to city business early in the morning. E. W. Sheppard presented without a speech the name of Councilman E. W. H.

J. H. Burke also brought forward the name of Councilman Jonas Shackley. The convention then proceeded to an informal ballot. The first was irregular because one more vote was thrown than delegate. On the fourth trial a majority was given Mr. Moxon as will be seen:

A PICTURE FOR WOMEN'S EYES.

Them Good.

[SPECIAL TO CUE LADY READERS.] To-day there is the happy mother, healthy boys and girls, sunshine, music, amusements, the

church, the romp and the ramble, the country and seashore. Whateverhealthyminds in healthy bodies

may desire, that they may have, and mother is ever ready to join with them in the pleasure and fun.

Years come and go. The boys and girls grow up to men and women. Moth-8 11 er's hair is turning white: her steps are not so elastic, her spirits flag; there is an uneasy look in her dear eyes.

What can be the matter with mother? She is approaching the most important crisis of her life, "the change of life." Those watchful eyes detect the evidences. Years bring this change demanded by nature. What preparation have you made to carry the brave mother safely

Within a comparatively short time the issue will be decided. Either nature fulfilling the law in proper, healthful manner, or—there is the wreck of a noble woman for you to grieve over.

There is salvation in Lydia E. Pinkham's Vegetable Compound. It will

carry the mother safely through the inevitable change in her physical life.

All reputable druggists keep for you this grand remedy. See that "mother" has it, for the Lydia E. Pinkham's Vegetable Compound was won from the heights of medical science by a woman for all women nearing the change of life.

### NO MONEY ON HAND

With the Hope That It May Do Some of For the Purpose of Puttting the Income Tax Law Into Effect.

WHOLE THING MAY FALL THROUGH

In That Event It Means a Deficiency of \$30,000,000.

WASHINGTON, Nov. 21 .- A prominent eastern Democratic representative, who strongly opposed the incorporation of the income tax in the tariff bill, remarked yesterday that he did not think the government would realize anything like the amount which was estimated by the framers of the odious tax. The recent election was, to his mind, a severe con-

demnation of that measure.

When the attempt is made to collect it, he says, it is understood to be the intention of those who are called upon to refuse to pay it on the ground that it is unconstitutional to impose such taxation except as a war measure, and will appeal to the United States court in order to test the question. To pursue such a course would prevent for several months the collection of the tax.

When the Act Was Passed there was only \$20,000 appropriated to carry it out. That sum is wholly inadequate to put the machinery in motion to enforce its provisions. It will require, ac cording to the estimates of the treasury officials, at least \$500,000, which must be immediately appropriated on the assem-bling of congress, for the employment of additional deputy collectors, etc., for the purpose of putting the law into practical

The law takes effect Jan. 1 next, but all the machinery for its enforcement must b prepared for in advance of that date. The epponents of this inquisitorial tax in the senate and house will, it is understood oppose any appropriation to carry it out They can, if they choose, not only delay, but prevent the passage of any bill making appropriations for this purpose.

The Amount Collectible as estimated by those who framed the provisions of the income tax proposition is about \$30,000,000. If by any means the government should fail to secure this amount by the failure of this tax, there would be a deficiency of \$25,000,000 or \$30,000,000 which would have to be pro-

vided for by some other method. Secretary Carlisle's attention has been called to this matter, but he does not be lieve that the opponents of the tax will carry their opposition to the extent of defeating the appropriation to carry out the

He says he intends to ask congress a soon as it convenes for an immediate appropriation of \$500,000 for the purpose of collecting the tax. It will require at least that amount for the first year.

Receivership Comes High. INDIANAPOLIS, Nov. 21 .- Judge Winters yesterday heard the attorneys for the receiver and claimants under the matured certificate bench of the Iron Hall. He rendered judgments in favor of all those who had proved claims. The representa-tive of the claimants took an appeal to the supreme court. The total cost of the re ceivership has been \$157.335.04. Of this \$129,873.73, has been paid to the received and the attorney. Receiver Failey has been allowed \$50,000 for his services.

ATTACKED THE A. P. A.

Concord Mob's Attack With Sticks and CONCORD, Mass., Nov. 21.—Not since the April days of 1775 has Concord seen such wild scenes of excitement as last night, when 1200 members of the A. P. A. came out from Boston and vicinity and were received by the jeers and stones of a mob, replying with cheers and bullets. For several hours the little Middlesex town was the center of the wildest excitement, and only the cool heads of a few of the principal visitors prevented infinite mishief and bloodshed.

Early in the evening it was very plain to see that some unusual excitement was abroad. The stores were all closed, but the streets were lined with men. The cause of the excitement was the announce ment that a newly formed council of the A. P. A. was to hold a public meeting in the town hall.

On the arrival of a special train with eight cars and about 1200 men, the crowd subsided into hisses and groans. The march to the hall was quiet until the arrival at the hall, when several attempts were made by the mob to strike at the members, some of which were successful. At the close of the meeting the whole mob rushed for the door and grabbed stones, bricks and everthing in the miss le line, and waited for the councils to come out. The transparency reading: "The A. P. A. Has Come to Stay" and "No

Home Rule for America" was hardly

lighted before a perfect shower of stones

was rained on it.

When the line was formed and had hardly marched a rod, three or four of the mob made a rush for the transparency, captured it and ran for the courtho yard. With almost one accord the whole body of A. P. A.'s literally swept after them and recaptured the transparency. At the station the mob was at its worst Thinking this to be their last chance, they assaulted any one they could lay their hands on. The mob divided into groups all along the platform, and blows were exchanged right and left.

At the first movement of the train th rain of bricks and stones was renewed with redoubled force. Although the blinds were all down, the stones went crashing through the windows, splinter-ing blinds and injuring a number of the amount of money but it will buy:

Bricks four inches square were found in the cars and many were cut by the broken

The whole movement was a surprise to all the townspeople. The mob was com-posed of the younger, hot-headed portion of the town, although the general sentiment of the town is set against the order. FOR ANOTHER TERM.

Miss Frances E. Willard Is Elected President of the W. C. T. U. CLEVELAND, Nov. 21 .- At yesterday's

session of the W. C. T. U. Miss Willard said just previous to the balloting for officers: "The custom has been for the president to don her wraps and sneak down the back stairs and stay out until she is elected. It really looks as though the president was not sure of re-election, so I am not going out."

The election preliminaries began by the appointment of tellers by the chair. Each teller represented different sections of the country. The first ballot taken was for president, and resulted in the unanimous choice of Miss Frances Willard. Miss Willard then nominated Mrs. L.

M. N. Stevens for vice-president at large and she was unanimously elected to that position. Then came the election of a corresponding secretary. Of the 890 votes cast Mrs. Catherine L. Stevenson received 286 and was declared elected. Mrs. Clara Hoffman was unanimously elected record ing secretary. Mrs. Helen M. Barker was re-elected treasurer by a rising vote. WORK OF THE INVESTIGATORS

Was Jndertaken Under Most Adverse Circumstances.

WASHINGTON, Nov. 22 .- John W. Goff, the prosecuting attorney of the Lexow investigating committee, who is stopping in Washington for a few days, has given The Evening Star an interesting interview, as follows:

"It was, as you imagine," he said, "a tremendous task that confronted us when we started the investigation. We know positively that the police department of New York, a most magnificent organiza-tion as regards its own strength, was systematically blackmailing all classes of citizens. That tremendous power had seized upon the community until it had obtained complete possession.

"There were two distinct elements that prevented at the beginning a fair start and handicapped us in our efforts to get reliable testimony. The first, the fear, and second, the apathy of the citizens. "I speak within the bounds of my own knowledge when I say that there was not a business man in New York city who had not felt the power of police blackmail. There were perhaps a very few instances where honorable men had refused to give

their tithes of illegal tax to the police, but

almost without exception these men were Forced Out of Business. "One peculiar feature of the blackmail was that it spared no one class, however THANKSCIVING obscure their calling. I have particularly in mind the sailmakers, who are among the most upright and sturdily hones people of New York. They are mostly re tired sea captains, commanders of the old clipper ships, who have been forced out of business by the introduction of steam. Not one of these honest men dared to open

his mouth and complain. "So the question was, What classes should we apply to and appeal to in our crusade. We were urged at times, and most importunely, to go higher, and nail the responsibility to the source of author ity. On the question, we had most earnest consultations, and we finally decided that it would not be wise to do so. "Our duty was to arouse the conscience

of the people of New York, which had long been smothered—almost killed. The com-mon people, the voters, the people who most feel, felt the opposition of the police would need to be aroused by different methods. They were to have the ill-effects of police corruption

Brought to Their Hearts. "The spectacle of a little boy sitting all night on the doorstep of a police station, crying for his father, who had been un-justly arrested and brutally beaten by the police, meant more to these people than the demonstration that a captain had paid large money for his promotion, or that the missioner, perhaps, had been bribed "The common folks would not notic

such matters, but they would notice the tyranny of the police over the apple woman, over the peanut roaster, the boot black, the newsboy, the keeper of a small soda water stand, the owners of little restaurants-a great class of honest citi zens striving for a living. "The men at the clubs, the more idle

Treasurer Morgan Gives Out Figures Worthy of Consideration.

A DEFICIENCY IN THE REVENUE

Was the Prime Cause of the Issuance of Bonds.

WASHINGTON, Nov. 23 .- The treasurer of the United States, D. N. Morgan, has submitted to Secretary Carlisle the anaual report on the operations and con-

dition of the treasury. The net ordinary revenues for the fiscal year ending June 30, cents omitted, were was obliged to pay out large sums of gold \$297,722,019, a decrease of \$88,097,609, as compared with the year before. The net ordinary expenditures were \$367,525,279, a The proceeds of this loan were \$58,660, decrease of \$15,952,674. Including the public debt, the total receipts on all accounts were \$724,006,538, and the expenditures deemed \$19,200,000 of notes in gold, pre-

At the close of business on June 30, '93, that the net gold proceeds were about \$39,there stood on the books of the department, charged to the treasurer, a balance of \$788,467,555. Adding to this the receipts on all accounts gives \$1,462,474,093 as the total to be accounted for, and, deducting 500,000, while the net assets of the treasthe expenditures, leaves a balance of \$763, ury, with an excess of \$7,000,000 565,540 on June 30, 1894.

In addition to these balances, however, there were other liabilities arising from | 000,000. During the succeeding months the postal revenues, from disbursing officers' funds and from other sources, which brought the total to \$776,040,808 at the former date, and to \$804,854,753 at the lat-

After setting aside the amounts treated as unavailable, the principal of which are the deposits made with the states under law of 1836, there remained the sum of \$746,538,655 in 1893, and the sum of \$775,-810,559 in 1894, represented by live assets in the several offices of the treasury and mint, together with deposits in national

Prior to July, 1892, the gold reserve was but little affected by withdrawals of coin, there never having been any considerable demand for the redemption of notes. To the end of September last, the total redemptions of United States notes in gold since the resumption of specie payments \$10,500, an increase of \$900 over the year were \$181,300,000, and the total redemption of treasury notes in gold from their first issue were \$68,500,000.

The Bond Issues. The two important events of the year affecting the condition of the public debt fund has been placed upon the books of were the issue of \$50,000,000 of the 5 per | the treasury to the credit of the several tent bonds to replenish the gold reserve | tribes, to draw interest at the rate of 5 per and the stoppage of the purchase of silver cent, and the bonds and stocks have be bullion by the issue of treasury notes. come the property of the United States. treasury notes, the treasurer says that, the treasury notes in silver dollars out of the holdings of free silver, so that there had not been up to that time any impairment of the total amount of the silver

fund accumulated under the act. On the 3d of that month, however, the silver dollars and bullion in the treasury had become reduced to the amount required by law to be retained for the pay ment of outstanding treasury notes and certificates, and the demand for the redemption of notes continuing in consequence of the scarcity of small denominations of currency, it became necessary to draw upon the dollars coined especially

The silver fund being thus impaired, the notes so reduced were cancelled in order to preserve the required equality between the silver in the treasury and the notes outstanding. The total amount of the notes retired in this way up to Oct. 81 was £4,790,434.

The amount of the new issues of States paper currency put into circulation during the year was \$350,959,190, having the year was \$350,959,190. The been exceeded but once—in 1892. #### QUARRY ACCIDENTS.

Two Men Seriously Injured in the Granite

Quarry accidents are getting quite frequent again. Wednesday afternoon while James Quinn was at work in a quarry on Bates avenue, he was struck on the head by a derrick block making quite a scalp wound. He was taken to the office of Dr. Dion and thence to the City hospital.

Thursday afternoon Mr. Alexander D. Clements of Water street, was quite seriously injured at the granite quarry of Craig & Richards. He was at work getting out grout, by means of a car which was hoisted to the top. On one of the trips the chain broke and the car in falling struck him a terrific blow on the side, causing quite a serious fracture. He was removed to the City hospital.

It is thought that both men will recover

The board of officers for '94 were unanimously re-elected, viz: President, Mr. F. H. Smith; Secretary, Miss K. A. Ray croft; Treasurer, Mr. T. B. Pollard.

All enjoyed the evening thoroughly, The Magazine club seems likely to have quite a history, as the interest in the same continues as great as ever.

### Wollaston Unitarian Sociable.

The regular monthly sociable for November of the Wollaston Unitarian Society was held in the church vestry on Thursday evening. There was a large attendance. A substantial supper was served early in the evening after which there was an entertainment.

Miss Packard rendered in a pleasing manner several vocal selections; Mr. Hosea C. Johnson read; and the Topsy Turvy quartette,-Miss Isadore Lull, Miss Lulu Phelan and Masters Avery Bennett and Kenneth Lewis, sang.

The committee having the sociable in charge were:-Mrs. Charles W. Tucker, Mrs. George A. Loring, Mrs. I. W. Faunce, Mrs. Joseph N. Smith, Mrs. E. H. Sprague, Mrs. George Weston and Mrs. George B.

# HOWE OUT ON BAIL.

Tells of His Connection With the Holmes-Pitzel Scrape.

DISCLAIMS KNOWLEDGE OF FRAUD.

Holmes Once Did Quite a Bit of Swindling In Chicago.

PHILADELPHIA, Nov. 23. - Jeptha D. Howe, the young St. Louis lawyer, who, tion with H. H. Holmes, is charged with defrauding a local instrance ompany out of \$10,000, reported here yesterday. He was met at the depot by Marshall McDonald of St. Louis, who is the law partner of young Howe's brother, and together they went to the office of Superintendent of Police Linden, where he sur-

rendered himself. Lawyer McDonald said: "This archconspirator, H. H. Holmes, or H. M. Morgan, the name he was known by in St. Louis, came to the office while I was absent in Colorado and proposed the case, saying that Mrs. Pitzel wanted someone to represent her. It was the first case the boy had ever been offered, and he jumped right into it with all the ardor and enthusiasm of youth. He did not wait for us to return, and the result was that this slick cook imposed upon him. My joung friend may have been indiscreet, but he

Superintendent of Police Linden places implicit confidence in what Mr. McDonald says in reference to young Howe, and is of the opinion that the latter has been mis-

led by Holmes. Lawyer McDonald called on S. I. Shields, a criminal lawyer, and asked Mr. Shields to act as counsel for young Howe. The facts of the case were briefly stated, and Mr. Shields agreed to take charge of the case. Howe will in all probability be

released on bail. Howe's Story. Lawyer Howe gave out the following statement in reference to his connection with the Holmes-Pitzel affair: "Mrs. Pitzel came to me and employed me as her attorney to look after the insurance claim. I took hold of the matter, and first of all I notified the agent of the company in St. Louis, and he entered into communication

with the company here. "I then found that they did all that business through their home office I wrote to the chief of police in Philadelphia, and I think also to the company or coroner. It is my belief that I wrote te the coroner first. I heard from him, and also heard from Chief of Police Linden. "The first letter received from the coroner stated that the body was here and that it must be identified. The writer said that it was the bod; of B. F. Perry, and unless other identification was given the body would bear that name and be buried as such. I asked the widow how that was, and she said her husband had been going under the assumed name of Perry on account of some trouble he had

had. I told her that would have to be made clear before she would get the money. "She showed a number of letters which she had received from this Perry, and which seemed to prove reasonably enough that they were from her husband, inasmuch as they spoke of the children and of family matters. She was positive that the man was her husband. I told her she would have to prepare to come on here with me and that I had to come. Then I believe I got a letter from the corone saying we must give positive identifica-tion marks, something by which we could **Berries.** 

Prove That the Body Was Pitzel's. "I thereupon told the woman that sh must give me what identification marks she could that would assist the company in bringing out the identity of her husband. She told me of these marks, and I sent the information to the coroner and received information from him that they were not sufficient. I told the widow then that she must come on here and identify the body. She told me she did not have the money, and I informed her that I was poor myself, and that she would

have to raise it. "Finally she got the money, and when it was time to start I found her sick in bed. I told her someone would have to go with me to identify the body, and she said the little girl could do that. I finally agreed to the proposition. I brought the little girl on here, and the body was identified to the company's satisfaction

"The company paid the money to me and I returned to St. Louis and got a receipt in full from my client, Mrs Pitzel, for the amount of money, and I gave her a receipt for my fee. The latter was \$2500. That was the last I saw of her. I went to her house once afterward, and learned that she had left."

Mr. Howe was asked what he had to say about his connection with Holmes in the matter. "I do not desire to say anything about

that at this time," he added, "nor about several other matters with which my name has been connected."

After an interview in Superintendent Linden's office between the superintendent, McDonald, Howe and President Fouse, he was taken into court. Howe's counsel made an argument in favor of admitting the prisoner to bail, asking that the figure be made as low as possible. Judge Bregy thought \$2500 a reasonable sum and placed the bail at that figure, and the prisoner was released.

Holmes' Chicago Record. It has become known that Holmes was the head of what purported to be a corporation called the A. B. Copier company, with headquarters in the Monon building on Dearborn street, Chicago. The copy-ing machine which Holmes sold was not without merit, but the sale of territory to agents was the chief source of revenue. Holmes would advertise throughout the country and obtain a correspondence with people all over the country. Then the victim would be persuaded to visit the city and would be ushered into an office apparently rushed with business. Finally a proposition would be made for the disposal of some state or county, and a deal consummated. It is said that the state of Ohio sold for \$5000 cash, and that an office was established in Cincinnati.

President Bent next introduced Senator Hoar, and, as the venerable statesman arose to his feet, the cheering and applause were deafening. Senator Hoar spoke at length of the recent Republican victories, and said that the solid south, the criminal districts of our great northern cities, the Knights of the Golden Circle of Indiana, had furnished the conscience, intelligence and patriotism thus far upon which free trade preachers rely. President Bent wasted no words in in-

troducing Thomas B. Reed, and the applause that had greeted his predecessors sank into insignificance at the storm that went up for Mr. Reed. After a while he talked, and talked well. He said in part: "Once during the last session of con-gress, when the plans of the Democracy had become developed, I ventured to say to the leaders than when the people of the country got at them, in November of this year, they would bury them in trenches. This was nearly true, but there was a slight inaccuracy. I should have said that we would bury them in trenches until the

> "What we need now is not general be lief in our doctrines. We need teaching which comes from practical results. We need a distribution of the facts." W. T. Parkerson of Louisiana was the next speaker. He alluded at first to the

mistaken ideas, as well as to the lack of knowledge in the north, of far southern ways, motives and sentiment. The long time allegiance to the Democratic party in Louisiana was referred to. Then the speaker talked about sugar and the way the people felt about what a "Democratic congress has brought to pass." In conclusion, he spoke of the Republican work that has been done in

Louisiana and what he hoped to see done General Russell A. Alger was the last speaker, and his remarks were brief. He said that in his state 400,000 votes were cast, and the Republican governor's majority was 105,000.

Pupils Bruised.

UXBRIDGE, Mass., Nov. 23.-An explosion occurred in the Centre school building, caused by the bursting of a boiler in the cellar under the primary department. This floor was completely torn up. Does "June" of the Patriot wish to solidify the so-called "foreign vote" against Candidate Hodges? She should know that attacks upon Candidate Moxon relative to his naturalization will have that effect. 'The Republicans are probably willing that Mr. Hodges shall be considered the A. P. PORT ARTHUR FALLS

Japanese Forces Are Evidently Masters of the Situation.

IT MEANS DISASTER FOR CHINA.

Story of Japan's March to the Objective Point.

LONDON, Nov. 24.-Dispatches have been received from Chee-Foo stating that the Japanese captured Port Arthur on Wednesday last, after 18 hours' fighting. Credence is given to the news by the legation officials because of the fact that it comes from Chinese sources, a matter not

likely unless it was well authenticated.

Port Arthur, the native name of which is Lu-Shun-Kou, is the chief naval station of China. Eleven or twelve years ago it was simply a good wind-bound harbor for the junks that traded along the coast. At that time the village consisted of about 60 or 80 mudhouses, with a few shops and three or four inns. The port is almost surrounded by ranges of hills, varying from 800 to 1500 feet in height, the valleys between being well cultivated.

The town at the present time has in-creased to nearly 1000 houses and shops, and, exclusive of the garrison, the population is estimated at over 6000. In 1881 it was finally decided to construct a dock and refitting basin there. After more than one failure, the work was given to foreign contractors, and in the early part of 1887 a French company secured a contract to construct the necessary works needed for a naval dock yard. At the end of 1890 the contractor completed the task intrusted to them. The entrance to the port was deepened, and a basin constructed inside with a depth of 25 feet at low water.

Right Up to Date. The port contains spacious wharves and quays fitted with steam cranes and con-nected by a railway with the workshops. There is a dock over 400 feet long, having 25 feet of water on its sills at low tide which can be emptied in a few hours by means of a steam pump. There is also a smaller dock suitable for torpedo boats. The foundries and workshops contain the most modern machines, engines, etc. The

dockyard can be lighted by electric light.

For the last six years dredges have been employed to deepen the natural harbor The bar has been deepened from 12 to about 24 feet to enable permanent moor ing to be laid down for the larger men-o war. About four miles north of the port there is a spring of fresh water. This water is now run through pipes to the dock yard and the town is also partially supplied with water in the same way.

Although the port is free from ice during the entire winter, ships cannot be docked for cleaning and painting purpose between the middle of November and the middle of March, as the weather then is too cold for ordinary paint to dry. The defenses of the port consisted of well-con-structed forts armed with modern guns of

The western side of the port is protected by the shoaling of the harbor. The garrison was said to consist of about

The Japs March to Victory. The second Japanese army, under the command of Field Marshal Count Oyama, minister of war, consisted of about 30,00 men, and when this force arrived off th THIS IS THE FLOUR Regent's Sword promontory it was divided into two detachments, one of which aided by part of the Japanese fleet, oper ated against Talienwan, while the other directed its movements against Kin Chow, on the western side of the promon tory, some miles north of Port Arthur. Talienwan and Kin-Chow were both cap tured, after which the army again com bined and the march on Port Arthur was commenced. Several engagements minor importance took place along the route, but the Japanese were invariably successful. The roads leading northward from Port Arthur were supposed to have been mined by the Chinese, and the Japan ese commander therefore declined to take the risk of marching along them.

Consequently, they were compelled to cut roads through the forests to allow of the passage of their artillery, ammunition trains, etc. The march was thus necessa rily slow. Dispatches received a few day ago stated that the Japanese were close to the city, and had attacked the Chinese outposts, driving them back to their en trenchments. It was also said that the Japanese attacked the entrenchments,

but were repulsed each time.

It is evident that later attacks mus have been made and that the outposts were compelled to fall back upon Port Arthur. Several times the town was re ported to have been captured; but late lispatches have shown that these report were inaccurate and that the Japane were conducting their operations against the place with great carefulness, and that they intended, when the real attack wa

made, that it should be successful. Che-Foo, from which place the dispatch announcing the fall of Port Arthur is sent, is a Chinese city on the north coas of the Shan-Tung promontory, some 90 miles south of Port Arthur, and is separated by the Gulf of Pe-Chi-Li.

A little premium on gold, for the first time since 1878, paturally excites some comment, even though it is only the smallest fraction, and apparently due to tem porary causes. The wheat market has lost this week the cent it gained last week, western receipts being larger, and Atlantic exports are also larger, 567,711 bushels against 703, 026 last year, but these are of small ac count compared with the great visible supply. ### Editorial Comment.

HAS THE High School Alumni Associa on acted wisely in excluding from its annual reunions the husbands and wives of its members. Many graduates are criticising the action, and it is certain that the association will not be as popular under such a rule. It is said thas an effort will be made at the meeting on Friday evening next week to secure an amendment Members say they were unprepared for the action at the last meeting, but next week they will have precedents for the desired legislation. Probably not one in five of the alumni of over 500 are gentlemen many of the classes having but one or two boys, and the attendance will be about in this proportion. If members could be ac companied by husband and wife it would not be quite so much of a "hen party."

BUT FOURTEEN of the present City Council have been renominated; 8 Democrats and 6 Republicans. As 3 of the Democratic ones are pitted against 4 of the Republicans, at large, only 5 of the 7 can be elected at the most. If one more is defeated, which is very probable, the present Council will not be in a majority n the next Council. Four ex-Councilmen however, have been renominated, and it i possible that a majority of the Council of 1895 will have had experience.

The case of the Old Colony Railroad of icials imprisoned for participating in a riot, and for whom a pardon has just been refused, is a peculiar one and presents many interesting phases. There is no doubt whatever that the men who are now serving a term are estimable and law abid ing citizens, and that they thought they were clearly within their rights when they obeyed the orders of their superior officers. Their punishment cannot be reformatory, because there is nothing to retion of their position than others would suffer by a far greater term. It is not a case of one law for the rich and another any. The accused man who pleads nolo contendere usually has extended to him more consideration than the man who puts the government to the expense of a trial. -Boston Home Journal.

Vegetable Compound

Is a positive cure for all those painful

Ailments of Women.

It will entirely cure the worst forms of Female Complaints, all Ovarian troubles, Inflammation and Ulceration, Falling and Displacements, of the Womb, and consequent Spinal Weakness, and is peculiarly adapted to the Change of Life. Every time it will cure

It has cured more cases of Leucorrhea than any remedy the world has ever known. It is almost infallible in such cases. It dissolves and expels Tumors from the Uterus in an early stage of development, and checks any tendency to cancerous humors. That

Bearing-down Feeling

causing pain, weight, and backache, is instantly relieved and permanently cured by its use. Under all circumstances it acts in harmony with the laws that govern the female system, and is as harmless as water. It removes

Suppressed or Painful Menstruations, Weakness of the Stomach, Indigestion, Bloating, Flooding, Nervous Prostra-tion, Headache, General Debility. Also

Dizziness, Faintness,

Extreme Lassitude, "don't care" and "want to be left alone" feeling, excitability, irritability, nervousness, sleep-

lessness, flatulency, melancholy, or the "blues," and backache. These are sure indications of Female Weakness, some derangement of the Uterus, or

Womb Troubles.

The whole story, however, is told in an illustrated book entitled "Guide to Health," by Mrs. Pinkham. It con-

tains over 90 pages of most important information, which every woman, mar-ried or single, should know about her-

self. Send 2 two-cent stamps for it. For

# FAITHFUL ABDALLAH

But For Him, Father Rossignoli Would Still Be a Prisoner.

TEN YEARS IN HANDS OF MAHDIS.

How the Escape From Omdurman Was Accomplished.

CAIRO, Nov. 26 .- Father Rossignoli, the priest who, after the fall of El Obeid, was imprisoned by the Mahdis with Father Ohrwalder at Omdurman, where he remained for 10 years, and whose escape was announced a few days ago, has arrived here. The escape was planned by Major Wingate of the Egyptian intelligence de partment, who contracted to march with Abdallah to effect Father Rossignoli's re-

Father Sogaro, head of the Austrian mission to the Soudan, gave Abdallah a card, on which was inscribed in Latin: "Father, the time of deliverance has arrived. Trust in God. Come." Abdallah started for Berber in June, and arrived on the 13th. He was seized, but he managed to escape at the end of two months. He went to Omdurman on a donkey After a long search he found Father Ros signolli in a cafe where the priest was employed as a servant. The plan of es cape was disclosed to him. He feigned sickness and made an attempt to go to Berber, but failed, as he was recognized and sent back. Having some money, he then secretly

Bought a Camel and Two Donkeys. When a propitious night came, Abdallal and the priest started to ride at full sp . to Berber, following the Nile at night and riding through the hills back from th river in the day time. When they reached Metemmeh 15 dervishes sprang out of the darkness upon them, and in an instan

they were made prisoners. Abdallah induced the dervishes to be lieve that he and his companion belonged to the tribe of the Emir of Berber. While the conversation was going on, Father Rossignoli partly concealed himself behind the camel in order to prevent the dervishe from learning that he was a white man The two were finally allowed to proceed and they reached Berber without furthe misadventure.

They had not been in town long befor Father Rossignoli was recognized, but he managed to conceal himself before he could be captured. Abdallah, however was arrested and charged with concealing a Christian. The town was searched, bu Father Rossignoli escaped arrest.

Abdallah Bribed His Jailers to set him at liberty, and when he wa free joined Father Rossignoli. Abdallal caused a rumor to be circulated that they had gone to Cassala. This rumor caused the search for them to be made principally in that direction

On the night of Nov. 29 the men lef Berber, and 11 days later reached Assouan Their experience in crossing the desert was a terrible one. They had only dates and dours to eat. Fither Rossignoli became exhausted, and he would certainly have been lost had it not been for the de voted service of Abdallah. For miles the latter carried the priest in his arms

GROSSMAN, 97 Water St. South Quincy. McDonnell's Cor., near Presbyterian Church. | cued.

Harvard decided to punt out. Fairchild punted cleanly enough, but a Harvard man muffed. So the wearers of the blue were on him in a second.

Score-Yale, 6; Harvard, 4. It was a wonderfully long punt that Hinkey made for a starter, and this tells how Yale won. She outpunted Harvard till the ball was well down into Harvard's territory, then forced it over. The ball was punted back, but the net gain was Yale's by a considerable majority. Thorne made a magnificent punt, and like a flash Yale men streaked down the field. Wrightington Knocked Out.

Wrightington caught and started to run, but was slammed fiercely to the ground. "A broken collar bone," said Dr. Sargent, sadly, and the plucky half-back was carried off.

Whittemore was sent out in Wrightington's place. Brewer begged to be put in again and refused to be comforted. Soon the ball was on Harvard's 25-yard line, and Thorne tried for a goal from the field, but was unsuccessful.

The ball was near Harvard's goal, and Fairehild dropped back for a kick. Again the sturdy Yale centers broke through and the kick was a dismal failure

The ball now passed back to Thorne, who plunged through Harvard's line toward the white line only 10 yards away. A frenzied roar broke from the boys in blue, for Yale had made her second touchdown. Butterworth kicked a goal, and the score was: Yale, 12; Harvard, 4. Harvard started in with terrifle force, and soon the doctors dragged Murphy

With the ball about in the center of the field, a kicking match begun. Thorne punted fully 40 yards. Fairchild returned the punt on the next line-up, Thorne Harvard's possession near the middle o the field, after 70 minutes of the hottest

kind of work. Out on the field strolled a queer object. It was a live rooster, dyed a bright blue. The cheering went on without cessation. The Second Half.

Hayes and Whittemore and Fairchild plunged around the two Hinkeys for substantial gains. But some pair of blue arms were sure to clasp them in deadly grip before many yards were covered. Harvard's flerce rushes yielded gains al-

most every time. At no time did Yale equal Harvard in this respect. The men were tackled with savage ferocity, till, time and time again, time was called to aid a disabled player. Murphy Knocked Out.

In a very few moments Murphy lay on the ground a second time. The doctors tried to bring him back to life, but in vain. With white, set face and hair matted over a pallid forehead, Murphy was borne away ton lerly on a stretcher, quite sense-

Chadwick took his place and the battle was fought on. Now it was that Thorne's Harvard tried Yale tactics and began a kicking game. Thorne and Fairchild exchanging six punts without a single rush

Every time a punt was made, the player who caught the ball was thrown savagely, Hinkey getting in fine touches with his knee on prostrated players, for which ho was hissed.

Hallowell staggered up with a broken nose. He adjusted a borrowed protector over the injured feature and continued to play. Shortly after he was thrown heav-When they lifted him up he was so dazed that he could neither speak nor walk. Two coaches put their arms about him to help him off. The plucky fellow tried to take his limp arms from around their necks and to stagger back into the game. When he found himself too weak he burst into tears. So they led him away, and Wheeler jumped eagerly forward to fill the gap in the line.

Butterworth Disabled. The battle waxed warmer. Up and down the field struggled the men. But-terworth gained often through the line. He did not kick because of his bad ankle. Whom the heap resolved itself into men after one of his plunges, Butterworth was unable to rise. So he, too, was borne away, with Yale cheers ringing in his ears. Armstrong was called into service The ball being near Harvard's 25-yard line, Thorne tried for a goal from the field. The ball went over a little to the right, but near enough to raise an expectant howl from the sons of Eli.

Just about this time Hinkey made a square muff, and a Harvard man hurled himself on the ball. Armstrong kicked at Hayes as he lay on the ground, and Hayes arose and smote Armstrong. Both men were sent off the field in disgrace. and the "cruel war" waged merrier than per pair. ever. Hinkey went back to half, and Bass took his place in the line.

Harvard now had the ball in Yale's territo \$2 each, worth \$5. tory, thanks to Hinkey's muff, and she pushed her advantage with feverish energy.

A few short rushes and Fairchild ran

back to prepare for a try at a goal from the field. There was a scramble and a tussle in the line. Wrenn, all unmoved, tossed the ball to Fairchild. The Harvard line held well, and Fairchild had plenty of time. Straight as an arrow the ball flew for the goal posts, 25 yards away.

Squarely between the posts, over the bar it flew, as pretty a kick as heart could wish. The crowd, already stampeding roared with husky joy. But even as the ball was in the air the referee's whistl had sounded the end of the second half and Fairchild's skill came a fraction of a minute too late. The score was still Yale, 12; Harvard, 4.

Half an hour later there was nothing left at Hampden park but bare benches, a splintered fence, a few hundred dedraggled crimson flags and a group of sad faced Harvard players, sadly bending over their injured comrades.

Capitalist Addicks' Ville Makes Application For a Divorce.

CHARMING MRS. WILSON, A WIDOW.

Mixed Up In a Scandal In Society's Upper Crust.

PHILADELPHIA, Nov. 27. - The news divorce will undoubtedly create a sensation in social and business circles in New York, Boston and Newport, R. I., as well as in Philadelphia, where both Mr. and Mrs. Addicks are well known.

The utmost secrecy has been observed by the attorneys representing the wife, and very little can be learned as to the nature of the allegations contained in the libel, which was filed in court in Wilmington, Del., more than a month ago and immediately impounded. The news would not have become public yesterday were it not for the fact that the court rules required that service should be made and the notice

in court by the last Monday in November.

The summons to answer the charges was, therefore, served upon Addicks on Saturday last, and he acknowledged the service, notice thereof being filed yesterday. Mr. Addicks was found at the Union league by a reporter, who showed him the dispatch from Wilmington, Del., containing the news that the suit had been filed. In response to a question, Mr. Addicks said: "The charges are entirely false; a trial of the cause will demonstrate this. That is all I have to say."

Married His Sister-In-Law. Mr. and Mrs. Addicks were married in his city in 1869, the bride being a daughter of the late Washington Butcher, one of the best known merchants of Philadelphia. They have never had any children, but Mr. Addicks has a daughter by his first wife, who was a sister of the present Mrs. Addicks. The daughter, who is very fond of her stepmother, is said to favor the latter in the present controversy.

Although living most of the time in has for 18 years claimed Claymont, Del., a small town just over the Pennsylvania ne, about 10 miles north of Wilmington Del., as his home, and has voted there. He has, however, always lived a portion of each year at his handsome country seat at Claymont. Adjoining the Addicks place is the mag-

nificent estate of Mrs. Ida Carr Wilson, who is named by Mrs. Addicks as the corespondent in the case. Mrs. Wilson, who is said to be a talented, fascinating woman of 40 or 45, once a leader in society, is the widow of Joseph B. Wilson, at one time prominent in Delaware affairs, who died in 1856.

The Addicks and Wilson families, livng on adjoining estates, naturally became intimate, and it was this intimacy that caused Mrs. Addicks to finally leave her

What effect the action of Mrs. Addicks will have upon the senatorial aspirations of her husband can only be conjectured.

There is no doubt that the life of the great poet was greatly prolonged by drinking the waters of the Sprudel Spring. In our day we have the Sprudel Spring brought to us in the form of Salt, which is obtained by evaporation from the waters of Carls-

Settlement of the Pamirs Questions Leaves the Afghan Pretender Practically a Subsidized Pretender.

LONDON, Nov. 27 .- The settlement of the Pamirs questions has been effected and the protocol has been signed. The entente covers also the succession to the throne of Afghanistan, in which Russia has pledged herself not to intervene. This is a practihat Mrs. J. Edward Addicks has sued for cal gain for England, as it relieves her of fear of the Afghan pretender, who will now be little more than a subsidized refu-

> These matters do not concern Germany, and their settlement causes neither satisfaction nor regret at Berlin. The German government has the best reason to know that the relations between Germany and Russia are growing more friendly than ever. If the sudden Anglo-Russian cordiality causes regret anywhere, it is in France. The German press predicts, however, that the cordiality will cool soon.

The Moscow Gazette protests against the Anglo-Russian entente, saying: Pre-viously, whenever Russia was in difficulty, England aimed to turn the situation to her own profit. We do not believe that England is cordial to Russia. She appears so only because she is convinced of the Franco-Russian solidarity and the waning power of the triple alliance, and hastens to join the stronger side.

Japan Has at Last Decided to Accept China's Peace Proposals.

LONDON, Nov. 27.-The Times today publishes a dispatch from Yokohama saying that it is officially stated that Japan will allow the American ministers at Tokio and Pekin to submit the proposals for peace that China may make.

It is now stated that the Chinese losses at the battle of Port Arthur were 3000 men. It is reported that a large number of Chinese troops fled on the night of Nov. 21, a way of escape being specially opened for them by the Japanese.

Another account says that during the hottest fighting a portion of the Chinese forces fled to the warships that were held in readiness for the embarking of the troops in the event of the position becoming untenable. The Japanese squadron fired upon and sank two of the warships. The advance guard of Marshal Oyama's started on the march to New-Chwang. During the six hours' heavy fighting in the main attack upon Port Arthur the defenders maintained a vigorous fire from men.

# THE ARMENIAN HORRORS.

Letters Received at Boston Confirm the Story of the Awful Butchery Practiced by Turks.

Boston, Nov. 27.-Further information relative to the massacre of the Armenians near Bitlis, Turkey, has been received by a prominent Armenian in this city named

Gulesian. One letter dated Bitlis, Sept. 26, 1894, gives the information that news has been just received, from the region back of Moosh, that 48 villages are said to have been wholly blotted out. Another letter, dated Bitlis, Oct. 8, 1894, states that the day previous a letter from outbreak of a virulent form of cholers

Moosh had been received which told of the which was killing from 25 to 35 daily. Only about 10 per cent attacked recover. The disease, which does not touch the aged or those under 15, is said to be most fatal among the Moslem women, and is caused by the stench of carnage far back in the

As time goes on, the extent of the slaughter seems to be confirmed, and the number of the massacred will reach between 8000 and 10,000. A number of consuls have gone to the place to investigate. The government tried to get the people here to sign a petition to the sovereign expressing satisfaction with his rule and disclaiming sympathy with the Armenians who have "stirred matters up," stating that the thousands slain in Talvoreig met their just deserte, and that they express regret that it should have been deemed necessary to have consuls investigate, claiming that there was no need of their coming. The

people have refused to sign the address. Another letter, dated Constantinople, Oct. 31, 1894, states that from information received from Bitlis, 27 villages were annihilated in Sassoun. Six thousand men, women and children were massacred by troops and Kurds. The massacre occurred in the early part of September. The Turks have used all methods to prevent the news from leaking out. The massacre was ordered from Constantinople, and was the result of an affray between some Kurds and Armenian villagers, from whom the Kurds had stolen

their flocks. A dozen Kurds were killed, and the authorities there telegraphed the government that the Armenians had killed some of the sultan's troops. The sultan immediately ordered infantry and cavalry to the scene to put down the Armenian rebellion, and they did it, only, not finding any rebellion, they cleared the country so that none should occur.

A great cry of encouragement to suffering Armenia last evening set old Faneuil hall rocking again. The governor's voice led the general outpour of denunciation; Julia Ward Howe came out clear-voiced and impressive as ever to "throw down," as she said, "the glove to the Turkish government," and William Lloyd Garrison and other champions of liberty helped to give the protest impetus. Resolutions were adopted appealing to Great Britain to enforce treaty stipulations in the interest of humanity.

This city, which is renowned from one end of the country to the other for its schools, is also famous for the most hideous school houses in the land. They are simply piles of brick. The day when people will tolerate any more such structures is past. The World's Fair has taught us to henceforth look for the beautiful in architecture as well as in paintings and Brockton on the 8.31 train to play the Y.

To say that brick buildings will outlast wooden ones is a fallacious argument. A brick building in appearance ages much faster than a wooden one. What is more unsightly than a great brick building with its walls covered with salt which has slowly oozed out, giving it an appearance of being whitewashed?

The city already has upwards of \$250,000 tied up in brick schoolhouses. Nobody doubts but what the High school should be of brick, but building every other structure of that material is little short of extrava-

FEW EDITORS would allow a corre as did the LEDGER yesterday when it opened its columns to "June." Her statement, that "the thought never entered my mind as to which candidate might or might not profit by it" will have to be taken with a pound of salt. The facts are that Stephen O. Moxon has been a resident of Quincy for 18 years and of "the States" 5 years, and June did not so state them. Few at this date will question the wisdom of the purchase of the water works,

and still a smaller number will say that the city paid a high price. People gener ally believe that the city struck a grand bargain. They secured works which are self supporting. The plant as purchased pays not only the cost of maintenance bu also the entire interest on the cost price, a dividend which would satisfy any stockholder. The city however proposes to pay in 30 years the entire cost of the works, and it is these instalments which are at present and, including two very desirable shore lots near schools, churches and on line of electric cars. Will sell the entire property for a very low price. Enquire of somewhat of a burden. The income next STEPHEN O. MOXON maturing instalment and in a very few

Second, works with an income are worth much more than new works which The Present City Government Not have little or no income. We have examples of this in business life, and the editors one near at hand. The publishers of this paper have just paid more for onehalf interest in this newspaper plant than it would have cost to equip a new office. IS THE MAYOR RESPONSIBLE? A new newspaper would not pay, neither would new water works.

the pastor of this interesting parish, where Mr. Muse labored so faithfully, and where the consecrated life of dear young Ramsay was so pathetically short, a LEDGER man called on Mr. Peach, who most kindly answered all his inquiries.

Mr. Peach is tall, above the average, of black mustache and whiskers. His expression is Spiritual, frank and pleasing; gaining in attractiveness as the conversation becomes animated.

Mr. Peach is married, has an amiable deathless love, the mother, and say:

"Thy voice is in mine ear beloved! Thy look is in my heart."

Mr. Peach is a native of Illinois and of Puritan descent. His grandfather was a Vermonter. Those who are curious in family genealogies may be interested to know that he can trace his progenitors back to 1630, when his forefathers were Divinity School at Forty-third and Chestcharge of Trinity church, Ashtabula, Ohio, in March 1890; was ordained and settled in the pastorate on the following June. He accepted a call to the church in Boston, on Dartmouth street, corner of until recently.

Of his work in Ohio, the Rev. J. N. McGiffert, D. D., for twenty-seven years pastor of the First Presbyterian church in Ashtabula, writes:

The Stewart Syndicate's Bid For the Gold Loan Is Accepted.

BIG INCREASE IN GOLD BALANCE

Will Soon Relieve the Treasury of Its Burdens.

WASHINGTON, Nov. 27 .- Secretary Carisle yesterday acted in the matter of the llotment of the \$50,000,000 5 per cent ond bids, which were opened at the treaslry department Saturday. He accepted the proposal submitted by the syndicate represented by John A. Stewart of the United States Trust company of New York and others, to take the entire issue

It is the expectation of the treasury officials that the deposits of gold for the payment of the bonds will be made very promptly, and as the understanding is hat none of the gold is to be taken from the treasury, an early restoration of the gold reserve to above the \$100,000,000 mark

The bonds, including premium, will realize to the government about \$58,500,000. The gold balance, which is now in round numbers \$57.500,000, will, if the expecta-tions of the officials regarding the deposits of gold for the bonds are borne out, be increased to about \$116,000,000 Before vesterday, however, there had been \$4,550,000 in gold drawn from the sub treasury at New York, presumably to be used in the payment for bonds.

Soon Be Ready For Distribution. Assistant Secretary Curtis heard unofficially over the telephone from New York during the afternoon that \$8,000,000 in gold had been deposited in the subreasury there for bond payments. The Pocket size, 25c. Family size, 50c. per bottle.

bonds are deliverable as soon as the gold is deposited, and as the bureau of printing and engraving has been busy at work preparing for the issue, they will, it is expected, soon be ready for distribution. preparing for the issue, they will, it is expected, soon be ready for distribution. The denominations of bonds which the syndicate will take are as follows: Cou-

pons, \$50, \$25,009; \$100, \$25,000; \$1000, \$4,-950,000; registered, \$10,000, \$15,000,000. The conditions on which the bonds are ac cepted is shown by the original proposal of the syndicate, which is in the following terms, minus the names of the companies composing the trust and the denomina

NEW YORK, Nov. 24.—We hereby propose, under the terms of your circular of Nov. 13, 1894, to purchase United States 5 per cent 10year bonds, described in sail circular, of the face value of \$50,000,000, and we agree to pay therefor at the rate of \$117.077 and accrued inerest per \$100. This bid is for the whole \$50. 000,000, but for no lesser amount.

We further agree, upon due notice of the ac-

ceptance of this subscription, to deposit the amount thereof in gold coin or gold certifi-cates with United States assistant treasurers at either Boston, New York, Philadelphia, Balimore, Washington, Cincinnati, Chicago, St. Louis, New Orleans or San Francisco, in acordance with the terms of said circular. We desire (registered or coupon) bonds in lenominations as stated below, and we wish

them to be delivered to us as follows: \$4,000,000 at New York; \$3,000,000 at Boston; \$3,000,000 at Philadelphia; \$2,000,000 at Chicago, and \$2,000,000 at San Francisco or other United States easuries as may be approved by the treasur

President Is Pleased.

President Cleveland is very much gratified at the success of the bond issue. He hought that it should be awarded to the Stewart syndicate, and notified Secretary Carlisle to this effect. The secretary thereupon accepted the syndicate's offer. A strong reason why this offer should be accepted, in the mind of the president, was that it secured to the treasury prac tically the whole amount in gold-they proposing to pay for the bonds in gold

without taking any from the treasury.

Of the other offers nearly all of them,
where the figures are higher than the syndicate, would probably result in gold be ing taken from the treasury to pay for the

THE CZAR ISSUES A MANIFESTO

Remitting Many Penalties Imposed Upon Subjects.

Princess Alix of Hesse-Darmstadt. The newly-married couple called at the Cathedral of Kazan on their way back to the Anitchkoff palace for the purpose of invoking the blessing of the Almighty after their marriage and in order to kiss the miraculous image of Our Lady of Kazan. They immediately began circling and started toward the northeast. The distance is about 700 miles.

When the newly wedded pair arrived at the Anitchkoff palace they were welcomed by the Dowager Czarina, who had preceded them for this purpose.

Later the czar and czarina, accompanied by Grand Duchess Olga, youngest sister of the czar, appeared at the window of the palace overlooking the Newski prospect. Here they stood for 15 minutes bowing re-peatedly in response to the accimations of the multitude gathered outside the pal-

THE CZAR OF RUSSIA.

Grand Duchess Olga, with girlish enthusiasm, repeatedly kissed her hand to the crowd. The czarina, leaning on the arm of her husband, smiled radiantly on the throng. There were several similar demonstrations, though of shorter dura tion, during the next hour.

Late last night crowds remained in from of Anitchkoff palace singing the national hymn. The czar and czarina came to the alcony at intervals and were tremendously cheered.

The Ceremony In the Chapel was of the most impressive character. The metropolitan conducted the czar to a position upon a dais which had been placed in the center of the chancel behind the rail. As the emperor took his place at the right of the dais the czarina led Princess Alix to him and placed her at his left hand. The czarina then took her place in the chancel at the right of the dais. The crosses, holy water and sacred books were then placed before the gate of Ikonostas, and the marriage service in use in the Or-

The Chinese Were Outnumbered and Outfought.

LONDON, Nov. 28.—The Times published oday the following dispatch from its corespondent at Che-Foo, China:

The Japanese captured with the town Port Arthur two Chinese warships an several torpedo boats and transports. A niral Ito, commanding the naval forces, is still at Port Arthur wi his flagship. Other vessels of the fle have returned to Tallenwan and a f have gone back to Japan.

The American cruise: Baltimore enter Port Arthur Sunday. Six officers wer ashore and made an inspection of th town, but were not allowed to send dis

patches to Washington.

The correspondent of Reuter's Telegram company, who was taken prisoner by the Japanese and who was at first suspecte of being a Chinese officer, is now on parole The correspondent adds: "I learn th ollowing from reliable sources: The hilly peninsula admitted of a splendid chance of defense, but the Chinese poorly utilized their advantage. The Japanese advance was slow. They were first re

pulsed at Kinchow on Nov. 6, but they vere victorious on the 8th. "On the same day they occupied the Talienwan forts, with slight resistance and took the first pass north of Talienwan on the 9th. It is reported that only 50 Chinese were at Talienwan, against 10, apanese. The marching was continue to the second pass, south of the doubl peak, which was weaker than the first pass. The fighting here was feeble.

"Then the Japanese advanced to the third pass north of the triple peak, which was a very strong position. This pass was defended by 6000 Chinese, who resiste on the 16th and the 17th, inclusive, 10,000 Japanese. Finally, the Chinese retired, The Japanese were then 14 miles from Port Arthur, in a cultivated valley two miles square, forming a good battle ground. ### OUR CITY CHARTER.

Therein the Present Executive Has Openly Disregarded It in Several Instances.

Mayor Hodges said in his inaugural nessage, "It has been said that one of the strong points of our charter is, that we can see where the responsibility lies if the business is not properly conducted and that the executive and the legislative branches are entirely independent of each other." Let us see how that opinion is

carried out and the charter obeyed. The City Council accepted certain plans for a Hose house in Ward Two and passed an order authorizing a loan, to have the Hose house built according to said plans. This order was approved by Mayor Fairbanks and so became a law, but Mayor ing order. St. Johnsbury was called upon Hodges when he commenced to build, disregarded the order and the plans and made many changes and alterations to suit himself. If he desired any changes, was it not his duty to go to the City Council and obtain permission of the legislative body Mayor assume the right to do as he pleases.

specific appropriations, and after the legislative branch accepts the plans and authorizes the loan to carry their orders through, the Mayor must obey that order. He cannot by our charter assume the rights of John W. Dunn, both departments, and such actions should receive the condemnation of the citizens who believe in a business like administration according to our charter.

### The First Thanksgiving.

We have every reason for believing that our forefathers celebrated their first Thanksgiving Day with heaven's blue dome for a roof and the brown earth for a floor. This was in the fall of 1621. Miss Olney gave a brilliant musicale at ton, on Tuesday evening. A large number of prominent society people from Quincy, Boston and Wollaston were pres ent. At the close of the programme a light lunch of chocolate and "afternoon teas" was served.

The programme was intensely interesting. The soloists were Miss Olney, on the piano; Mrs. F. A. Page, soprano; Mr. E. Walter Arnold, baritone; Miss Edith Olney, violin; and Mr. Arthur C. Sprague, piano.

Gustof Livendahl had a aarrow escape from death while at work building a cellar at Wollaston Park, Tuesday afternoon. Livendahl was helping to lower a stone, when a guy rope broke allowing the derrick to fall.

Livendahl was struck on the right side and was seriously injured. He was removed to his home on "Fletcher's Field." He is 22 years of age and is unmarried.

ongressman Walker of Massachusetts Ventilates His Opinion of the Force Bill-Cheating at the Polls Must Stop. BALTIMORE, Nov. 28.—The Manufacturers' Record recently asked several leading Republicans if the recent victory of their party would result in any attempt to revive the force bill, or any other measure that could, with or without reason, be regarded as inimicable to the south.

Hon. J. H. Walker, member of congress from Massachusetts, the senior Republican member of the committee on banking and currency, replied: "The Democrats never made a more egregious blunder than the one they made in the Fifty-third congress in repealing all national election laws. It exceeded the great blunder of the Republican party in the Fifty-first congress in not setting its foot solidly down upon the Lodge elections bill.

NEW YORK, Nov. 28 .- In an article on the Catholic school system, in the December number of The North American Review, published today, Mgr. Satolli makes his first contribution to American periodical literature. The article has an important bearing on the Catholic school ques-tion in the United States. It does not touch directly on that subject, but shows the principles which the highest authorities of the Catholic church regard as pertinent to the settlement of the educational problem. Mgr. Satolli describes in detail he educational work of the Catholic church in Rome, its aims, processes and means of support, and the relation it sustains to the educational work of the state,

Marine Disasters. Boston, Nov. 30.—The tug William Sprague, which was badly damaged by the government tug Resolute off Castle island, just before the collision, towed the schooner Eagle Wing out of the harbor.; The latter, when going down Broad Sound, ran into the schooner Rettie, bound to Boston from St. John, N. B., with lumber. The crash was terrific, and the Rettie was cut down below the water line. One of the seamen of the Rettie was injured. The Eagle Wing had her headgear and foretopmast carried away. The weather was rough, and the seamen were rescued by the Eagle Wing with difficulty.

After long negotiations, we have just succeeded in purchasing several thousand ART PICTURES of the very artistic excellence. These we have put into beautiful torchon mats or frames, the whole measuring 14x211 inches. They are truly beautiful in subjects and coloring, and should not be confounded with cheap chromos, for they are worthy of a place in the homes of refined people. Art stores would ask from one to three dollars for similar pictures-for that reason our great offer will seem all the more wonderful, and must become very popular. Among the great variety our customers may choose from, are child's faces, that look alive; dogs and kittens, too cute for anything; animals that seem in the flesh; water, floral, landscape and fruit pieces, that bring physical nature right into your home. They are truly beautiful, exquisite, delicate

### MOXON AND REFORM.

ote on Tuesday for Stephen O. Moxon To the Voters of Quincy:

Mr. Moxon is a naturalized citizen. This is the principal argument made by those who oppose his candidacy for the Thanksgiving in Dedham. position of Mayor of this city. The facts are these: He first came to this country wenty-five years ago, has resided in Quircy eighteen years and became a citizen four years since. All honor to him, I her bed the past week by illness. say, for not seeking citizenship until he had passed the time which our native Americans are required to attain before they can become voters.

The Republican aspirants have always been active in urging the naturalization of those of foreign birth whose votes they could control, but if it happens that a man of this class is nominated for a responsible office, the politicians are immediately horror-stricken.

The average office-seeker does not hesiate to cater for the votes of naturalized rapid A. P. A. candidate would be averse to receiving such support. There were half a dozen or more, who were itching for the mayoralty nomination, and I knew that when the matter was decided those who suffered defeat would be affected with political cholic. The men who are most unjust in their criticism of the present nomnee are those who have always denounced me for not voting for unfit men whose names were upon the regular party ticket.

My American principles extend to corrupt and incompetent candidates wherever found, be they Irishmen, Yankees, Democrats or Republicans. I am in sympathy with the A. P. A., so far as that movement tends to strengthen our American institutions, to resist onslaughts from every source, but I do not intend to let bigotry override my honest convictions. I know Mr. Moxon to be a man of wide experience in a successful business career, with a large knowledge of city affairs and a desire to LEDGER office the horse fell and Mrs. administer the same upon sound principles. I believe, if elected, his administration will convince you of the accuracy of this statetaken into Durgin's drug store and later to ment. Speedy action is necessary to save the city from bankruptcy. The situation demands the election of efficient men to positions of trust. Let the future policy of the city be to incur no additional debts. The borrowing system is a most disastrous one. The obligations for extravagant expenditures are not lessened by delays in meeting the same. A man may mortgage his proprty and spend the money thus obtained in iotous living. It may be fun for him but his family will not enjoy the results of his depravity. Bequests in the shape of unpaid otes are not indications of prosperity.

I would suggest as a further remedy for vide that all councilmen shall be elected at gerous elements exist, councilmen are elected who will serve the rabble. Stringent incompetency in a straight jacket. As the desires to pose as the lion of his own ward. while he makes an ass of himself with the genera! public.

The existing condition of our municipality fills one with regret that the good old town meeting system has been supplanted. In those days an attempt at political jobbery could be easily detected and suppressed, but now the City Council knows beforehand the attitude of all its members on important measures which will come up for action, so that they can trade votes in such a manner as to perpetuate themselves in office at the expense of their suffering constituents. I believe that a competent Council would not have foisted upon us the extravagant abortion called a brick schoolhouse at West Quincy. It is a monument of folly to all who have shared in the responsibility for its erection from the architect down to the hod-carrier. What a comfort it would be to those who are compelled to gaze upon the structure daily, if, like the chameleon it could Mr. and Mrs. John A. Fox, residing at change its spots. FATAL TIDAL WAVE.

Tacoma's Ocean Docks Disappear and Two Persons Are Missing.

TACOMA, Nov. 80 .- Amid the roar of an immense tidal wave beating against the shores of Puget Sound, 600 feet of Tacoma's ocean docks plunged into Commencement bay yesterday morning. Half a dozen steamers were tossed about like chips and two were disabled.

At 1:20 a. m. the filled-in portion of the ocean docks was still settling, and the accident began to assume the form of a calamity to the city. H. H. Alger's boathouse, containing himself, wife and six children, was turned upside down, spilling the children out of their bunks into the icy water, and it is feared that one of them is drowned. John Hanson, a watchman at the Northern Pacific hydraulic pump, went down in the debris and cannot

The fire department was called out at night and 500 more people had gathered at the wharf. For a distance of 1500 feet the ocean dock had settled, and it was feared the big wheat elevators would pitch into the bay. All the cattle pens of the Northern Pacific, together with the offices of the company, went down to the ground, and fire at once broke out, and the pumping station soon disappeared in the debris.

FOREIGN OFFICELS FIRED UPON.

Two Thousand Chinese Killed at Port Arthur's Fall.

SHANGHAI, Nov. 30 .- The overtures for peace made by Mr. Detring on behalf of China to Japan have been politely declined, as Mr. Detring has no credentials from Pekin.

This fact confirms the belief that he only went to Japan to pave the way for Viceroy Li Hung Chang, who is now execrated everywhere in China.

Li Hung Chang is impeached in a me morial to the Chinese throne, signed by over 120 high officials. He is charged with corruption, peculation and deception. The memorial alleges also that Li Hung Chang rejoiced at the Japanese victories and prevented the Chinese from achieving

He is said to have represented that China was prepared for war when he knew the contrary was the case. It is further charged that he is guilty of high treason, of selling to the enemy state secrets and war material, and that Prince Kung, the emperor's uncle, president of the Tsungli Yamen and president of the admiralty, recently appointed dictator; the taotal wa and the commander of the Chinese forces at Port Arthur are implicated with him in these high crimes. These three are also accused of investng money in Japan, harboring treason able designs against the Chinese empire and conspiring to procure the overthrow of China. The memorial demands the instant punishment and dismissal of all
